Subject:
Resolution approving the proposed conveyance of 219 Scott St to Corrosion Control Service, Inc (petitioner). [Ward 3]

Recommendation:
Adopt the Resolution.

Background:
The subject property, 219 Scott St, was originally the site of the Linden apartment building, a historic structure in downtown Davenport. The building suffered a fire in 2005 and was eventually torn down. The owner deeded the property to the City of Davenport and it has been maintained as a vacant lot by the City for roughly the past seven years.

The petitioner owns the adjacent property at the southeast corner of 3rd and Scott Streets, which is a two-story, mixed-use building. While that property has occupied apartment units on the second floor, the first floor has been vacant and boarded for a number of years, last occupied as a bar. The petitioner has indicated that there has been interest in leasing/acquiring and redeveloping the first floor, but the lack of associated parking has been a barrier for interested parties.

As such, the petitioner has submitted an offer of $14,000 to acquire the City's adjacent vacant lot and intends to join the two parcels to allow for redevelopment to occur on the first floor of the existing structure.

Resolution offered by Alderman Gripp

RESOLUTION approving the proposed conveyance of 219 Scott Street to Corrosion Control Service, Inc. (petitioner). [Ward 3]

RESOLVED by the City Council of the City of Davenport.

WHEREAS, the City of Davenport is the legal owner of certain property legally described as:

The South Ninety (90) feet of the West Fifty (50) feet of Lot Eight (8) of Block Nine (9) in the Original Town, now City of Davenport, Scott County, Iowa

Excepting, the North 4 feet of the South Ninety (90) feet of the West Fifty (5) feet of Lot Eight (8) of Block Nine (9) in the Original Town, now City of Davenport, Scott County, Iowa.

The above described tract is also described as the South 4 feet of the North Sixty-Four (64) feet of the West Fifty (50) feet of Lot Eight (8) in Block Nine (9) in the Original Town, now City of Davenport, Scott County, Iowa.

WHEREAS, the City of Davenport is supportive of projects to grow the community and that increase density in the downtown; and

WHEREAS, the City desires to reduce maintenance costs associated with mowing vacant lots; and

WHEREAS, the petitioner has submitted an offer to acquire the property with the intent of joining it with the adjacent property the petitioner already owns to allow for parking and redevelopment of the first floor retail/restaurant space.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Davenport the proposed conveyance of 219 Scott Street to Corrosion Control Service, Inc. is approved and staff is hereby authorized to execute the purchase offer and close on the property.

Approved: Attest:

Lot, Land & Farm Real Estate Purchase Agreement
Page 1 of 7
To: (Seller)  

CITY OF DAVENPORT IOWA

The undersigned (Buyer) CORROSION CONTROL SERVICE INC. AND/OR ASSIGNS hereby offers to purchase for the total sum of $14,000.00 the real estate located at:

219 SCOTT ST., DAVENPORT, IOWA - VACANT LAND

and legally described as follows:

AS PER ATTACHMENT "A" WARRANTY DEED 2012-00038262 (2 PAGES) AND

AS PER ATTACHMENT "B" PARCEL L0005-32B SUMMARY (3 PAGES)

Together with any easements and 100 percent of mineral rights, but subject to any easements of record, zoning restrictions, Farm Service Agency/Natural Resources Conservation Service (FSA/NRCS) cost sharing agreements and restrictive covenants.

Earnest Money
Buyer hereby deposits the sum of $500.00, in the form of [ ] cash [v] check, in escrow with__________ CITY OF DAVENPORT ("Escrow Agent") as Earnest Money, to be applied to the purchase price at closing. Broker will hold money in a special, non-interest bearing escrow account if an Illinois property or a special interest bearing escrow account if an Iowa property, with the interest being forwarded to the Iowa Association of REALTORS® Foundation, a charitable non-profit entity, or as directed under the provision of 18 under this contract. In the event any contingency is not met by the date contained in such contingency, Seller recognizes the Earnest Money will be returned to Buyer, and this Agreement shall be null and void. In the event of a default by Buyer hereunder, the Earnest Money shall be paid to Seller as provided in Paragraph 16. In the event of a dispute as to the retention or return of the Earnest Money, the Escrow Agent shall only take such action with respect to the Earnest Money as agreed in writing by the parties or as ordered by a court of competent jurisdiction. Seller and Buyer agree to indemnify, defend and hold harmless the Escrow Agent from and against any and all liabilities and claims arising out of duties as Escrow Agent.

The balance of the purchase price shall be paid as follows:

☑ A. CASH. By payment of the sum of $13,500.00 at closing, with evidence of such funds to be provided to Seller within -1- (ONE) business days of Seller’s acceptance of the Agreement. If such evidence is not so provided to Seller, this Agreement shall be null and void and the Earnest Money returned to Buyer; or

B. SALE SUBJECT TO FINANCING. This Agreement is subject to and contingent upon Buyer providing a written loan commitment for a _________________________ loan on the property in the amount of _________________________ no later than _________________________. If Buyer has made timely application as set out herein and a loan commitment cannot be obtained by Buyer within the time provided, or if Buyer’s lender does not provide such written statements, this Agreement shall be null and void and all Earnest Money shall be returned to Buyer.

C. INSTALLMENT CONTRACT. Buyers shall make an additional payment of $________________ at settlement, and for the balance of the purchase price Buyers and Sellers will execute an installment contract on forms commonly used and accepted in Iowa/Illinois in which Buyers agree to pay $________________ in equal consecutive payments of $________________, □including / □plus interest at _________% per annum on principal balances remaining from time to time unpaid, □until the entire purchase price and interest is fully paid, or □until the _______ day of ____________, 20____ when the remaining unpaid principal balance and any accrued interest is due and payable in full as a balloon payment.

D. OTHER TERMS.

1. PURCHASER OWNS THE ADJOINING PROPERTY (431 W. 3RD ST.)

2. SUBJECT TO APPROVAL BY THE CITY OF DAVENPORT - CITY COUNCIL

3. PURCHASER HAS A PERPETUAL EASEMENT OVER A PORTION OF THE CITY

OWNED PROPERTY BEING SOLD/PURCHASED.

1. This offer is also subject to the following conditions:
   A. **Sale or Exchange:** Offer is made subject to Buyer entering into a firm contract for the ☐ sale, or ☐ exchange under IRS Code Section 1031 provisions, whichever applies, of Buyer's property located at __________________________, for not less than $________________ or such amount as is acceptable to Buyer, on or before __________________________. This condition shall also include the subsequent successful closing of said transaction.
   B. Inspections: The Buyers may at their option and their expense, within _______ days after acceptance of this offer, have the following inspections of the property completed:
      1. ☐ Well Water Quality being safe for human consumption
      2. ☐ Septic System Inspection to determine if system is working properly
      3. ☐ Whole House Inspection
      4. ☐ Environmental Inspection
      5. ☐ Other: __________________________
  Browser inspections shall be performed by inspectors of Buyer's choice who are qualified for and in such matters. If Buyer receives an unsatisfactory report, which cannot be resolved between the parties within ___________ days of the completion and receipt thereof, then upon written notice from Buyer to Seller, this Agreement shall be null and void and all earnest money returned to Buyers.

C. Other contingencies: __________________________

If any contingency cannot be satisfied within time provided, this Offer shall become null and all money paid or obligations given by Buyer shall be returned to Buyer.

2. **Tax Deferred Exchange.** If it is the intent of the Buyer or Seller, or both, to use this transaction in an IRS Code Section 1031 Tax Deferred Exchange, irrespective of whether this transaction is subject to or conditioned upon said exchange, each party agrees to cooperate with each other in any such exchange. Any documents that need to be prepared, and any such expenses incurred to effect the exchange shall be the sole responsibility of the party for which the exchange is being used.

3. **Real Estate Taxes, Special Assessments, and Charges.**
   A. All regular taxes due and payable in the year in which possession is given are to be paid by Seller as well as all unpaid taxes for prior years.
   B. All regular taxes for the year in which possession is given (due and payable in the following year) are to be prorated between Buyer and Seller as of the date of possession or ___________. The basis of such proration shall be the taxes that were certified and payable in the prior tax year. If such taxes are not based upon a full assessment of the present property improvements the proration shall be based on the current tax rate and the assessed value for the tax period to date of possession shown on the assessor's records, less tax abatement, if any.
   C. All special assessments on the Treasurer's Books at the time of the acceptance of this offer are to be paid by Seller. All charges for solid waste removal, utilities, and assessments for maintenance attributable to Seller's possession are to be paid by Seller.

Initial(s) Buyer's __________________________ Initial(s) Seller's __________________________

(Buyer(s) and Seller(s) acknowledge that they have read this page.)
4. **Survey.** This property shall not be surveyed, and the final price shall not be adjusted according to surveyed acreage. Cost to be divided as follows: Buyer Seller

5. **Closing and Possession.** The sale under this contract shall be closed on or before the 30TH day of JANUARY, 2020, or at such time as the parties may mutually agree. Possession shall be delivered to the Buyers at the time of closing or 

6. **Insurance/Risk of Loss.** Seller shall bear the risk of loss of damage to the property prior to closing or possession, whichever first occurs. Seller agrees to maintain existing insurance and Buyer may purchase additional insurance. In the event of substantial damage or destruction prior to closing, this Agreement shall be null and void, unless otherwise agreed by the parties. The property shall be deemed substantially damaged or destroyed if it cannot be restored to its present condition on or before the closing. Provided, however, Buyer shall have the option to complete the closing and receive all insurance proceeds regardless of the extent of the damage. If property is located in the State of Illinois, this agreement shall be subject to the Illinois Uniform Vendor and Buyer Act.

7. **Fixtures.** All personal property that integrally belongs to or is part of the real estate, whether attached or detached, such as, water pumps and systems, automatic heating equipment, electrical service cable, fencing and other attached fixtures, trees, bushes, shrubs and plants, feed bunks in the fence, installed fences and gates, propane tanks not under lease, water association rights where applicable, hog and cattle waterers in the fence or permanently installed, grain storage buildings and hog and cattle shades on permanent foundations, auger and conveyor systems, irrigation pumps and all related irrigation equipment including all electrical motors, switches, and related equipment shall be considered part of real estate and included in this sale. Exceptions: NONE.

  ____________________________________________________________________________

  All grain, livestock, hay, silage and non-realty property on the real estate are
  reserved by the Seller or Seller’s tenant.

8. **Condition of Property.** The real estate (and any personal property contracted for) in its present condition as of date of this offer, will be preserved and delivered intact at the time possession is given.

   ✔ Seller sells “as is” and “where is”.

   _______ Seller warrants all mechanical, electrical equipment, plumbing, heating and air conditioning is in working condition at possession.

   The agent makes no representations or warranties as to the physical or mechanical condition of the property, real or personal.

9. **Groundwater Hazard.** For Iowa property, at closing a Groundwater Hazard Statement will be filed by the Sellers regarding the following items: 1. Wells; 2. Solid Waste Disposal; 3. Hazardous Wastes; 4. Underground Storage Tanks located on the property, and 5. Private Burial Sites. If any of these are located on the property, they are as follows:

   ____________________________________________________________________________

10. **Personal Property and Debris.** Seller agrees to remove all debris and all personal property not included herein from the property by possession date unless there is a prior written agreement by the parties.

11. **Duties of Parties.**

   A. Seller and Buyer acknowledge and agree that Sellers Agent and Buyer’s Agent: (1) must respond to all questions of the parties, however they are not required to discover hidden defects or give advice on matters outside the scope of their real estate license; (2) and that Seller and Buyer are not relying upon, representations or warranties as to the physical or mechanical condition of the property, its size, value, future value, income potential, whether the basement is waterproof, etc; (3) are not qualified to advise on questions concerning the condition of the property, the legal sufficiency, legal effect or tax consequences of this document or transaction. For such matters, Seller and Buyer are advised to consult the appropriate professional(s).

 initial(s)

 initial(s)

 Buyer’s Seller’s

 (Buyer(s) and Seller(s) acknowledge that they have read this page.)
B. Seller and Buyer acknowledge that the Seller of real property has a legal duty to disclose MATERIAL ADVERSE FACTS and MATERIAL DEFECTS of which Seller has actual knowledge and which a reasonable inspection by Buyer would not reveal.

12. **Wood Pest Inspection.** A. __________ (Buyer)  B. __________ (Seller)  C. ✔ (Not applicable) shall, at their expense, have the property inspected for termites or other wood destroying insects by a licensed pest inspector at least five (5) business days prior to closing, but no more than 30 days. **IF ACTIVE INFESTATION IS FOUND OR TREATMENT IS RECOMMENDED, THE PREMISES SHALL BE TREATED AT THE SELLER’S EXPENSE.** If damage due to prior infestation is discovered, the property shall be repaired at Seller’s expense, providing that the cost of such repairs does not exceed $ __________. This provision does not apply to fences, trees, shrubs, or outbuildings other than garages.

If such repairs exceed the aforesaid amount, Buyer either agrees to pay the cost of repairs in excess of the aforesaid amount or declares this Agreement to be null and void, and the Earnest Money shall be refunded to Buyer. All reports, notifications, agreements, and elections under this paragraph shall be in writing and given as soon as practicable prior to closing.

13. **Time.** In the performance of each part of this agreement, time shall be of the essence.

14. **Evidence of Title.** If the property is located in Iowa, the Seller shall deliver a merchantable Abstract of Title showing merchantable title of record to the real estate in Seller’s name and certified to a current date by an abstractor regularly doing business in the county where the premises are located.

If the property is located in Illinois, the Seller shall either deliver: (a) a merchantable Abstract of Title showing merchantable title of record to the real estate in Seller’s name and certified to a current date by an abstractor regularly doing business in the county where the premises are located; or, (b) a Commitment for Title Insurance issued by a title insurance company regularly doing business in the county where the premises are located, committing the company to issue an owner’s policy in the usual form insuring merchantable title to the real estate in Buyer’s name for the amount of the purchase price.

If title evidence discloses exceptions other than those permitted under the rules for examination of title adopted by the local County Bar Association, Buyer or Buyer’s Attorney shall give written notice of such exceptions to Seller within 30 days of receipt of the title commitment or abstract of title. Seller shall have 30 days to have such title exceptions removed, or, any such exception which may be removed by the payment of money may be cured by deduction from the purchase price at the time of closing. If Seller is unable to cure such exception, then Buyer shall have the option to terminate this Agreement in which case Buyer shall be entitled to refund of the Earnest Money. In Illinois, furnishing a title insurance policy insuring over an exception shall constitute a cure of such exception. In Iowa, furnishing an Iowa Title Guaranty policy insuring over an exception shall constitute a cure of such exception.

15. **Conveyance of Title and Documents of Sale:** At closing Seller shall deliver either:

   A. A warranty deed or fiduciary’s deed, if applicable, to Purchaser, or such party or parties as Purchaser may direct, conveying title together with such other documents as may be required to record the deed, transfer personal property, if any, and protect Purchaser from mechanics’ liens; or

   B. In the event that Seller Financing applies to this agreement, then the executed Agreement for Deed or Contract for Deed shall be delivered and exchanged at closing.

16. **Defaults/Remedies.**

   A. If Buyer fails to make any payment or to perform any obligation imposed upon Buyer by this Agreement, Seller may serve written notice of default upon Buyer, Buyer’s agent, or Buyer’s attorney and if such specified default is not corrected within five (5) business days thereafter, Seller, subject to the terms of any listing agreement, may accept the Earnest Money and any additional down payment as damages or may pursue any available legal remedy including specific performance.

   Buyer’s / Initial(s)  Seller’s / Initial(s)  (Buyer(s) and Seller(s) acknowledge that they have read this page.)
B. In the event Seller fails to perform any obligation imposed upon Seller by this Agreement, Buyer may serve written notice of default upon Seller, Seller’s agent, or Seller’s attorney and if such default is not corrected within five (5) business days thereafter, Earnest Money and any additional down payment deposit shall be refunded to Buyer without prejudicing the Buyer’s right to any available legal remedy including specific performance.

C. In the event of default, the defaulting party shall be liable to the other party for reasonable attorney fees and expenses incurred by reason of the default.

17. **Approval of Court.** If this property is an asset of any estate, trust or guardianship, this contract shall be subject to Court approval, unless declared unnecessary by the Buyer’s attorney.

18. **Interest on Escrow.** If indicated by “yes” in the following space ______________________, the trust funds paid by Buyers to Broker shall be deposited by the Broker in an interest bearing trust account and the interest earned thereon shall accrue for the benefit of ______________________, with interest credited to Social Security # __________ __________

19. **Lease Terminations.** If indicated by “yes” in the following space ______________, it shall be the responsibility of Sellers as Sellers’ expense to terminate all rights of existing tenants, so Buyers shall have sole possession and at closing Sellers shall exhibit evidence satisfactory to Buyers of such termination. If not required to be terminated, then the Buyers acknowledge that they are taking title to the property subject to any existing current lease.

20. **Government Farm Program Payments Excluding any CRP Payments.** Said payments including any farm program payments from previous years not yet received, if applicable, shall be divided as follows:
   Buyer ____%  Seller ____%  Tenant ____%

21. **CRP Payments.** Payments to be prorated to date of deed recording based on an October 1st to September 30th payment year. Buyer assumes all current CRP contracts and agrees to pay all penalties if contracts are terminated by any act of Buyer.

22. **L.P. Fuel.** All L.P. fuel present at closing will be purchased by Buyer at price of Seller’s last invoice rate at time of closing unless otherwise specified.

23. **Representations:** It is understood that no representations made by the Broker or salesperson in the negotiation of this sale are being relied upon unless incorporated herein writing, and this property has not been offered or shown to Buyers by another person or agency. Buyers declare that they are purchasing on their own examination and judgment and not through any representations to them made by the Sellers, or their agents, as to its location, size, value, future value, income therefrom or as to its productions. The broker is not responsible for environmental items on the property.

24. **Electronic Transmission.** For the purpose of negotiating and finalizing this Agreement, any document transmitted electronically shall be treated in all manner and respects as an original document. The signature of any party shall be considered an original signature and any such electronic document shall be considered to have the same binding legal effect as an original document.

25. **General Provisions.**
   
   A. This Agreement shall be binding on and for the benefit of the heirs, executors, administrators, assigns and successors in interest of the respective parties. The warranties and representations in this Agreement shall survive the closing.
   
   B. Paragraph headings are for the convenience of reference and shall not limit or affect the meaning of this Agreement. Words and phrases herein, including any acknowledgement hereof shall be construed as in the singular or plural number, and as masculine, feminine or neuter gender, according to the context.

(Buyer(s) and Seller(s) acknowledge that they have read this page.)

Initial(s)  Initial(s)
26. **Other Provisions.** All other provisions, if any, shall be by addendum/rider in this Agreement, or as outlined below. Addendum/Riders attached:

Our Company is pleased to assist you in connection with the purchase, sale and/or lease of real estate. The following will govern the terms of your relationship with JEFF WEINDRUCH & WEINDRUCH MEADE, INC. as CORROSION CONTROL SERVICE INC.

In connection with the possible purchase, sale and/or lease of real estate. Term of client shall hereafter refer to seller, buyer, landlord, tenant, optionor or optionee. Only the Appointed/Designated Agent will represent the client(s) named above (together with any additional Appointed/Designated Agent who may be designated by our company hereafter). No other broker or sales associate affiliated with our company will be acting as an agent for the client(s) named above. It is the policy of our company to offer real estate services exclusively through Appointed/Designated Agents with respect to Illinois/Iowa real estate. The Appointed/Designated Agent and other company sales associates may provide services simultaneously to other parties involving the same real estate. When representing the buyer, tenant, or optionee our company and the Appointed/Designated Agent will generally be offered and will accept a commission from the seller, landlord, or optionor or the seller, landlord, or optionor’s real estate agent, who may not be a client of our company or the Appointed/Designated Agent. It is the policy of our company to reciprocate with other broker’s offers to cooperate and compensate. It is also the policy of our company to neither offer subagency to or accept subagency from cooperating brokers.

DUTIES TO ALL PARTIES

A real estate agent, including the Appointed/Designated Agent, has the following duties to all parties to a transaction, regardless of which party the agent represents:

A. To provide real estate brokerage services to all parties to the transaction honestly and in good faith;
B. To diligently exercise reasonable skill and care in providing brokerage services to all parties;
C. To disclose to each party all material adverse facts that the agent knows, except for the following:
   1. Material adverse facts known by the party.
   2. Material adverse facts the party could discover through a reasonably diligent inspection, and which would be discovered by a reasonably prudent person under like or similar circumstances.
   3. Material adverse facts the disclosure of which is prohibited by law.
D. Material adverse facts that are known to a person who conducts an inspection on behalf of a party. A "material adverse fact" means an adverse fact that a party indicates is of such significance, or that is generally recognized by a real estate agent as being of such significance to a reasonable party, that it affects or would affect a party's decision to enter into a contract or agreement concerning a transaction, or affects or would affect a party's decision about the terms of a contract or agreement.
E. To account for all property coming into the possession of the agent that belongs to any party within a reasonable time of receiving the property.

DUTIES TO A CLIENT

In addition to the real estate agent's duties to all parties as provided above, a real estate agent, including the Appointed/Designated Agent, has the following duties to the agent’s client(s):

A. To place the client's interests ahead of the interests of any other party, unless the agent is acting as a disclosed dual agent, as discussed below;
B. To disclose to the client all information known by the agent that is material to the transaction and that is not known by the client or could not be discovered by the client through a reasonably diligent inspection;
C. To fulfill all obligation that is within the scope of the agency agreement, except those obligations that are inconsistent with other duties that the agent has under the law;
D. To disclose to the client any financial interests the agent or the brokerage has in any business entity to which the agent or brokerage refers a client for any service or product related to a transaction.

DUTIES OF A DISCLOSED DUAL AGENT

An Appointed/Designated Agent may legally represent both the seller, landlord, or optionor and the buyer, tenant, or optionee in a transaction, but only with the prior knowledge and the written consent of both parties. This is called "Dual Agency". The Appointed/Designated Agent will act as a Dual Agent when he or she represents both the owner/seller, landlord, or optionor and the prospective buyer, tenant, or optionee. This means that when the Appointed/Designated Agent is the listing agent and the selling agent, the Appointed/Designated Agent will be representing both parties simultaneously. When acting as Dual Agent, the agent has the same Duties to All Parties and Duties to A Client, as set forth above. EXCEPT, a Dual Agent may not and does not have a duty to place one client's interests ahead of the interests of the other client. Representing more than one party to a transaction may present a conflict of interest since both clients may rely upon Appointed/Designated Agent's advice and Buyer, Tenant, or Optionee and Seller's, Landlord, or Optionor respective interests may be adverse to each other. The Appointed/Designated Agent will endeavor to be impartial between both parties and will not represent the interest of other party to the exclusion or detriment of the other party. Appointed/Designated Agent will act as a dual agent only with the written consent of ALL parties in the transaction.

By signing this agreement the client agrees that the Appointed/Designated Agent may act as a Disclosed Dual Agent when the agent represents both the seller, landlord, or optionor and the buyer, tenant, or optionee. Parties are not required to participate in Disclosed Dual Agency.

ACKNOWLEDGMENT AND CONSENT TO AGENCY/DUAL AGENCY NOTICE

I (We) acknowledge that I(We) have read this document, and that our company and the Appointed/Designated Agent have made full disclosure of the client(s) the Appointed/Designated Agent represents, the duties of a real estate agent to the parties, and the type of representation the agent will provide. I(We) consent to the Appointed/Designated Agency policy and the designation of JEFF WEINDRUCH as our Appointed/Designated Agent. I(We) have read and understand this statement, have asked questions I(We) have deemed appropriate regarding this disclosure and agreement, and I(We) acknowledge signing and receiving a copy of this document before receiving any specific assistance from the Appointed/Designated Agent or making or accepting an offer, which ever is sooner.

IF YOU DO NOT UNDERSTAND ALL OF THE TERMS OF THIS DOCUMENT, SEEK LEGAL ADVICE BEFORE SIGNING.

Second Consideration: Ordinance amending Schedule VII of Chapter 10.96 entitled “No Parking” by adding 52nd St along the north side from 53rd St to Eastern Ave and along the south side from 53rd St east 610 feet. [Ward 7]

Recommendation:
Adopt the Ordinance.

Background:
This section of road is only 29 feet wide and with new development in the area, traffic has increased and it is difficult to get through when there is oncoming traffic and parking on both sides of the street. This Ordinance will remove parking from the curved part of the road near 53rd and all of the north side where the businesses are currently located. Some vehicles have been parked close to the driveways which makes it hard to see while exiting the businesses. There will still be over 1000 feet of on-street parking on this street if the Ordinance passes.
ORDINANCE NO. _____________

AN ORDINANCE AMENDING CHAPTER 10.96 ENTITLED SCHEDULES OF THE MUNICIPAL CODE OF DAVENPORT, IOWA, BY AMENDING SCHEDULE VII NO PARKING THERETO BY ADDING 52ND ST ALONG THE NORTH SIDE FROM 53RD ST TO EASTERN AVE AND ALONG THE SOUTH SIDE FROM 53RD ST EAST 610 FEET.

BE IT ENACTED BY THE CITY COUNCIL OF THE CITY OF DAVENPORT, IOWA:

Section 1. That Schedule VII No Parking of the Municipal Code of Davenport, Iowa be and the same is hereby amended by adding the following:

52nd St along the north side from 53rd St to Eastern Ave and along the south side from 53rd St east 610 feet.

SEVERABILITY CLAUSE. If any of the provisions of this ordinance are for any reason illegal or void, then the lawful provisions of this ordinance, which are separable from said unlawful provisions shall be and remain in full force and effect, the same as if the ordinance contained no illegal or void provisions.

REPEALER. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

EFFECTIVE DATE. This ordinance shall be in full force and effective after its final passage and publication as by law provided.

First Consideration: Ordinance for Case REZ19-13 being the request of Alex Kelly on behalf of Pegasus 62 LCC for a zoning map amendment on 9,000 square feet, more or less, of property located at 2012 E 11th St from R-4C Single-Family and Two-Family Residential Zoning District to C-T Commercial Transitional Zoning District. [Ward 5]

Recommendation:
Adopt the Ordinance.

Background:

Comprehensive Plan:

Within Existing Urban Service Area: Yes

Within Urban Service Area 2035: Yes

Future Land Use Designation: Residential General (RG) – Designates neighborhoods that are mostly residential but include, or are within one-half mile (walking distance) of scattered neighborhood-compatible commercial services, as well as other neighborhood uses like schools, churches, corner stores, etc. generally oriented along Urban Corridors (UC). Neighborhoods are typically designated as a whole. Existing neighborhoods are anticipated to maintain their existing characteristics in terms of land use mix and density, with the exception along edges and transition areas, where higher intensity may be considered.

Relevant Goals to be considered in this Case: Strengthen the Existing Built Environment.

Zoning:

The property is currently zoned R-4C - Single-Family and Two-Family Central Residential Zoning District.

Technical Review:

Streets.
The property is located on the north side of East 11th Street just west of the railroad and the Village of East Davenport commercial district.

Storm Water.
No improvements to the building or property are proposed. Therefore, compliance with the storm water ordinance is not required.
Sanitary Sewer.
There is sanitary sewer adjacent to the property. However, no improvements to the building or property are proposed.

Other Utilities.
Other normal utility services are available.

Public Input:

Letters were be sent to property owners within 200 feet of the proposed request notifying them of the December 2, 2019 neighborhood meeting and the December 3, 2019 Plan and Zoning Commission Public Hearing.

One area resident appeared at the neighborhood meeting, but did not appear to object to the request. No one spoke in opposition at the December 3, 2019 Plan and Zoning Commission public hearing.

Discussion:

The petitioner is requesting a rezoning to C-T Commercial Transitional Zoning District to make the use of the property conforming to the Zoning Ordinance.

The C-T Commercial Transitional Zoning District is intended to accommodate low intensity limited office, service, and retail uses that may serve as a transition between residential areas and more intensely developed commercial or light industrial areas of the City. Low intensity mixed-use is allowed.

The property is currently configured as a non-conforming office. Aunt Rhodie’s Nursery was formerly located at this property. Chapter 17.15, entitled ”Nonconformities” would allow a professional office at this location. However, any other use (i.e. chiropractic office) would be considered a change of use, and therefore, not permitted.

The minimum lot size for a property in the C-T Commercial Transitional Zoning District is 10,000 square feet. The subject property contains 9,000 square feet of lot area. The petitioner was granted a 10% (1,000 square foot) administrative exception to the lot area requirement in order to request a zoning map amendment to the C-T Commercial Transitional Zoning District.

Off-street parking is not required in the C-T Commercial Transitional Zoning District.

Section 17.14.040 of the Davenport City Code, entitled Zoning and Text Amendments, provides the process for a Zoning Map amendment.

E. Approval Standards
The Plan and Zoning Commission recommendation and the City Council decision on any zoning text or map amendment is a matter of legislative discretion that is not controlled by any particular standard. However, in making their recommendation and decision, the Plan and
Zoning Commission and the City Council must consider the following standards. The approval of amendments is based on a balancing of these standards.

1. Approval Standards for Map Amendments
   a. The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.

   The Davenport 2035 Residential General (RG) Future Land Use designation reads: Neighborhoods are mostly residential but include, or are within one-half mile (walking distance) of scattered neighborhood-compatible commercial services, as well as other neighborhood uses like schools, churches, corner stores, etc. generally oriented along Urban Corridors (UC). Neighborhoods are typically designated as a whole. Existing neighborhoods are anticipated to maintain their existing characteristics in terms of land use mix and density, with the exception along edges and transition areas, where higher intensity may be considered.

   It is staff’s opinion that the railroad is an edge where higher intensity may be considered. Additionally, the Village of East Davenport commercial district is to the east of the subject property. Higher intensity in the RG Future Land Use designation contemplates commercial development. If only residential development were contemplated along an edge, the language would read, “higher density may be considered”.

   It is staff’s opinion that the C-T Zoning District would be compatible with the Comprehensive Plan.

   b. The compatibility with the zoning of nearby property.

   The C-T Commercial Transitional Zoning District is intended to accommodate low intensity limited office, service, and retail uses that may serve as a transition between residential areas and more intensely developed commercial or light industrial areas of the City. Low intensity mixed-use is allowed.

   The scale of the existing building and uses permitted in the C-T Zoning District would allow it to be compatible with the zoning of the nearby property. It is staff opinion that the C-T Zoning District would be compatible with the zoning of nearby property.

   c. The compatibility with established neighborhood character.

   The scale of the existing building and uses permitted in the C-T Zoning District would allow it to be compatible with the zoning of the nearby property.

   It is staff opinion that the C-T Zoning District would be compatible with the established neighborhood character.

   d. The extent to which the proposed amendment promotes the public health, safety, and welfare of the City.

   Residential development is in close proximity to the subject property. The C-T Commercial Transitional Zoning District would allow for a limited number of commercial uses, which would be compatible with the surrounding area.
It is staff's opinion that the C-T Zoning District would promote the public health, safety, and welfare of the City.

e. The suitability of the property for the purposes for which it is presently zoned, i.e. the feasibility of developing the property in question for one or more of the uses permitted under the existing zoning classification.

The property is currently zoned R-4C Single-Family and Two-Family Residential Zoning District. It is staff's opinion that higher intensity use would be appropriate in this location because it is adjacent to the railroad and the Village of East Davenport commercial district is just to the east of the subject property. Additionally, the property is a legally established non-conforming use.

f. The extent to which the proposed amendment creates nonconformities.

The property is currently a legally established non-conforming use. The rezoning would eliminate nonconformity.

Findings:
1. The C-T Commercial Transitional Zoning District would eliminate the non-conforming use of the property; and
2. The proposed zoning map amendment would achieve consistency with approval standards enumerated in Section 17.14.040E.1 (A-F) of the Davenport City Code.

Recommendation:

Staff recommends that the Plan and Zoning Commission accept the two listed findings and forward Case REZ19-13 to the City Council with a recommendation for approval.

ORDINANCE NO. 2020 -

ORDINANCE for case REZ19-13 being the request of Alex Kelly on behalf of Pegasus 62 LCC for a zoning map amendment on 9,000 square feet, more or less, of property located at 2012 East 11th Street from R-4C Single-Family and Two-Family Residential Zoning District to C-T Commercial Transitional Zoning District. [Ward 5]

BE IT ENACTED BY THE CITY COUNCIL OF THE CITY OF DAVENPORT, IOWA:

Section 1. The following described unit of Scott County, Iowa real estate is hereby rezoned to C-T, Commercial Transition District.

The property has the following legal description:

The East 45 feet of Lot 1 in Block 10 in the Village of East Davenport, now a part of the City of Davenport, Iowa.

and

The West Half of Lot 2, and that part of the East Half of said Lot 2, particularly described as follows: Commencing at the Northeast corner of said Lot 2, and running thence West 40 feet, more or less, along the South Line of the alley to the center of said Lot 2; thence South 150 feet to the East 11th Street (Formerly Main Street); thence in a northeasterly direction to the place of beginning, all in Block 10 in the Plat of East Davenport Proper, also called the Village of East Davenport, and now in the City of Davenport, Scott County, Iowa.

and

The South 30 feet of Lot 8 in Block 10 in the Village of East Davenport (now within the corporate limits of the City of Davenport, Iowa), as shown by the Plat recorded in Book “I” Land Deeds page 180, records of the Recorder’s Office of Scott County, Iowa.

At its December 17, 2019 meeting, the Davenport Plan and Zoning Commission voted to recommend approval of the proposed rezoning.

Section 2. At its December 17, 2019 meeting, the Plan and Zoning Commission unanimously in favor of forwarding Case REZ19-13 to the City Council with a recommendation for denial with the following findings:
1. Rezoning the property would not be consistent with the Comprehensive Plan as it would allow for higher intensity development allowed in an area designated RG Residential General.

2. There is little demand for commercial development in this vicinity. More than 15 acres of vacant land zoned C-2 exists to the east of the site.

3. Additional commercially zoned land may have a negative impact on nearby neighborhoods and Ridgeview Park.

SEVERABILITY CLAUSE. If any of the provisions of this ordinance are for any reason illegal or void, then the lawful provisions of this ordinance, which are separable from said unlawful provisions shall be and remain in full force and effect, the same as if the ordinance contained no illegal or void provisions.

REPEALER. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

EFFECTIVE DATE. This ordinance shall be in full force and effective after its final passage and publication as by law provided.

**If the applicant is different from the property owner, please submit an authorization form or an accepted contract for purchase.
Request:
Existing Zoning: [R-4C]
Proposed Zoning Map Amendment: [C-T]

Purpose of the Request:

See attached.

Total Land Area: 9000 Square Feet

Does the Property Contain a Drainage Way or is it Located in a Floodplain Area: ☐ Yes ☐ No

Submittal Requirements:
- The completed application form.
- Recorded warranty deed or accepted contract for purchase.
- Authorization form, if applicable. If the property is owned by a business entity, please provide Articles of Incorporation.
- A legal description of the request if not easily described on the deed or contract for purchase.
- Required fee:
  Zoning Map Amendment is less than 1 acre - $400.
  Zoning Map Amendment is one acre but less than 10 acres - $750 plus $25/acre.
  Zoning Map Amendment is 10 acres or more - $1,000 plus $25/acre.
$10.00 per sign; more than one sign may be required depending upon the area of the request.

Formal Procedure:
(1) Application:
- Prior to submission of the application, the applicant shall correspond with Planning staff to discuss the request, potential alternatives and the process.
- The submission of the application does not constitute official acceptance by the City of Davenport. Planning staff will review the application for completeness and notify the applicant that the application has been accepted or additional information is required. Inaccurate or incomplete applications may result in delay of required public hearings.

(2) Plan and Zoning Commission public hearing:
- The City shall post notification sign(s) in advance of the public hearing. A minimum of one sign shall be required to face each public street if the property has frontage on that street. It is Planning staff’s discretion to require the posting of additional signs. The purpose of the notification sign(s) is to make the public aware of the request.
- The applicant shall make a presentation regarding the request at a neighborhood meeting. The purpose of meeting is to offer an opportunity for both applicant and neighboring residents/property owners to share ideas, offer suggestions, and air concerns in advance of the formal public hearing process. Planning staff will coordinate meeting date, time, and location and send notices to surrounding property owners.
- The Plan and Zoning Commission will hold a public hearing on the request. Planning staff will send notices to surrounding property owners.

(3) Plan and Zoning Commission’s consideration of the request:
- Planning staff will perform a technical review of the request and present its findings and recommendation to the Plan and Zoning Commission.
- The Plan and Zoning Commission will vote to provide its recommendation to the City Council.
- If the Plan and Zoning Commission recommends denial, the request may only be approved by a favorable 3/4 vote of the City Council.
Purpose of the Request:

I am applying for a rezoning of the Former Aunt Rhodies Landscape & Design office. The subject property has been utilized for the past 30+ years as a design office and retail nursery for plants (via a non-conforming use). The subject property is neighboring a C-V zoning district and I think a C-T zoning is a suitable low-impact zoning that fits the neighborhood. My house neighbors the subject property to the North and I own the property to the west. I will be very particular about the use to ensure it fits the area and the property layout. Thanks for your consideration.
Formal Procedure (continued):

(4) City Council’s consideration of the request:

- The Committee of the Whole (COW) will hold a public hearing on the request. Planning staff will send a public hearing notice to surrounding property owners.
- If property owners representing 20% or more of the area within 200 feet of the exterior boundaries of the request submit a written protest, the request may only be approved by a favorable 3/4 vote of the City Council. For the purpose of the 20% protest rate, formal protests will be accepted until the public hearing is closed.
- The City Council will vote on the request. For a zoning map amendment to be approved three readings of the Ordinance are required; one reading at each Council Meeting. In order for the Ordinance to be valid it must be published. This generally occurs prior to the next City Council meeting.

Applicant: Alex Kelly
Date: 11/13/2019

By typing your name, you acknowledge and agree to the aforementioned submittal requirements and formal procedure and that you must be present at scheduled meetings.

Received by: Planning staff
Date: 

Date of the Public Hearing: 

Meetings are held in City Hall Council Chambers located at 226 West 4th Street, Davenport, Iowa.

OPERATING AGREEMENT
OF
PEGASUS 62 IOWA, LLC

THIS LIMITED LIABILITY COMPANY OPERATING AGREEMENT ("Agreement") is made and entered into as of the 15th day of October, 2018, by Alexander Kelly of 2019 E. 12th Street, Davenport, Iowa, 52803, the sole member of PEGASUS 62 IOWA, LLC ("Company").

EXPLANATORY STATEMENTS

A. The Company was formed as an Iowa limited liability company on the 15th day of October, 2018, by the filing of a Certificate of Organization with the Secretary of State of the State of Iowa.

B. Alexander Kelly desires to provide for certain agreements governing the business and affairs of the Company.

AGREEMENTS

1. Governing Law. The Company has been formed under and is subject to the Iowa Revised Uniform Limited Liability Company Act ("Act"), Chapter 489 of the Code of Iowa, as amended.

2. Name. The name of the Company is Pegasus 62 Iowa, LLC; provided that the Manager may, from time to time, change the name of the Company to any name permitted by the Act.

3. Registered Office and Registered Agent. The Company’s registered office in the State of Iowa is 256 E. 90th Street, Davenport, Iowa, 52806 The name of the Company’s registered agent at such address is Katz Nowinski P.C. The Manager may, from time to time, change the registered office and the registered agent of the Company.

4. Term. The term of the Company shall be perpetual, unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

5. Business of the Company. The business of the Company shall be to engage in any lawful businesses and activities for which limited liability companies may be organized under the laws of the State of Iowa.

6. Ownership and Distributions. As of the date hereof, Alexander Kelly is the sole Member of the Company and has 100% share of the Net Profits and Net Losses. All distributions will be made to the Members in proportion to their share of Net Profits and Net Losses. No Transferee shall be admitted as a Member of the
9. Indemnification. The Company (to the extent of all of its assets and without any obligation on the part of any Member to contribute funds to the Company, but subject to any lien or security interests held by any person) shall indemnify and hold harmless each Manager and each Member from any loss or damage incurred by it by reason of any act performed by it for and on behalf of the Company and in furtherance of the Company's interest, provided such act or acts were done in good faith and without malfeasance, gross negligence, or willful misconduct on the part of the Manager or Member. Except as otherwise expressly and specifically provided herein, a Member shall have no obligation or liability to any other Member or, except as otherwise expressly provided by the Act, to any other person or entity, in such Member's capacity as a Member.

10. Dissolution. The Company shall be dissolved pursuant to Section 489.701 of the Act.

11. Inconsistencies. In the event of any inconsistency between this Agreement and the Act, to the extent permitted by applicable law, the terms of this Agreement shall govern.

12. Applications of Iowa Law. This Agreement and its interpretation shall be governed exclusively by its terms and by the laws of the State of Iowa.

13. Amendments. This Agreement may not be amended except in writing by a majority in interest of the Members.

14. Heirs, Successors, and Assigns. This Agreement shall be binding on and inure to the benefit of the Members and their heirs, legal representatives, successors, and assigns.

15. Creditors. None of the provisions of this Agreement shall be for the benefit of or enforceable by any creditors of the Company.

IN WITNESS WHEREOF, the undersigned has executed this Agreement as of the date first written above.

PUBLIC HEARING NOTICE
PLAN AND ZONING COMMISSION
CITY OF DAVENPORT

Public Hearing Details:
Date: 12/3/2019
Time: 5:00 PM
Location of Public Hearing: 226 West 4th Street in City Hall Council Chambers.
Subject: Public hearing for a zoning map amendment.
Location of Property: 2012 East 11th Street
Case #: REZ19-13

To: All property owners within 200 feet of the subject property.

What is this All About?

This notice is being sent to inform you that a public hearing will be held for a request for a zoning map amendment. The purpose of the request is to allow the property developed for an unspecified commercial use.

Request Description:
Case REZ19-13: Request of Alex Kelly on behalf of Pegasus 62 LCC for a zoning map amendment on 9,000 square feet, more or less, of property located at 2012 East 11th Street from R-4C Single-Family and Two-Family Residential Zoning District to C-T Commercial Transitional Zoning District. [Ward 5]

What are the Next Steps after the Public Hearing?
The 12/3/2019 public hearing is the first step in the review/approval process. The Plan and Zoning Commission will meet on 12/17/2019 to vote (provide its recommendation) on the request. The Commission’s recommendation will be forwarded to the City Council which will then hold its own public hearing. You will receive a notice of the City Council’s public hearing. For specific dates and times of subsequent meetings, please contact the case planner below.

Would You Like to Submit an Official Comment or Protest?
As a property owner within 200 feet of the subject property, you have the opportunity to officially comment or formally protest this request. These must be provided in writing.

If you intend to send in written comments, it is appreciated if those comments could be received by Community Planning no later than 12:00 PM one day before the City Council public hearing, which is anticipated to be held on 1/8/2020. Please note that for a protest to be official, it needs to be in writing. Send comments to planning@ci.davenport.ia.us or CPED, 226 W 4th St, Davenport IA 52801.

Do You Have Any Questions?
If you have any questions on this request, or if you need accommodations for any reason, please contact Ryan Rusnak, AICP, the case planner assigned to this project at rrusnak@ci.davenport.ia.us or 563-888-2022. Interpretive services are available at no charge. Servicios interpretativos libres estan disponibles. TTY: (563) 326-6145

Please note that items may be removed from the agenda or tabled to a future hearing date at the request of the Petitioner or Commission/Board. If you are interested in the current schedule and outcome of this case, please contact the Community Planning Office at 563-326-7765 or planning@ci.davenport.ia.us for updates.
NOTICE
NEIGHBORHOOD MEETING
MONDAY DECEMBER 2, 2020 - 5:30 P.M.
2012 EAST 11th STREET DAVENPORT, IOWA 52803

You are invited to a neighborhood meeting regarding the following request:

Case REZ19-13: Request of Alex Kelly on behalf of Pegasus 62 LCC for a zoning map amendment on 9,000 square feet, more or less, of property located at 2012 East 11th Street from R-4C Single-Family and Two-Family Residential Zoning District to C-T Commercial Transitional Zoning District. [Ward 5]

Please see map on the back for the property location.

The purpose of the meeting is to allow the applicant to describe the proposed development, answer any questions you have and hear any concerns about the proposed development.

If you have any questions on this request, or if you need accommodations for any reason, please contact Ryan Rusnak, AICP, the case planner assigned to this project at rrusnak@ci.davenport.ia.us or 563-888-2022.

REZ19-10

Request of Alex Kelly on behalf of Pegasus 62 LCC for a zoning map amendment on 9,000 square feet, more or less, of property located at 2012 East 11th Street from R-4C Single-Family and Two-Family Residential Zoning District to C-T Commercial Transitional Zoning District. [Ward 5]
Zoning Ordinance Purpose Statement.

- The C-T Commercial Transitional Zoning District is intended to accommodate low intensity limited office, service, and retail uses that may serve as a transition between residential areas and more intensely developed commercial or light industrial areas of the City. Low intensity mixed-use is allowed.

Public Input

- Notices were sent to property owners within 200 feet of the subject property.

- A neighborhood meeting was held on 12/2/2019. One area resident attended and did not appear to object to the request.
Recommendation

Recommendation will be provided at the 12/17/2019 Plan and Zoning Commission meeting.
January 10, 2020

To the Mayor and Council of the City of Davenport:

Please be informed of recent actions by the City of Davenport Plan and Zoning Commission:

**Case REZ19-11**: Request of Raju Penmatcha to rezone 7.04 acres located at the southwest corner of N. Division Street and W. 76th Street from R-MF, Residential Multifamily District to C-2, Corridor Commercial District. [Ward 8]

At its December 17, 2019 meeting, the Plan and Zoning Commission voted 3-2 to forward Case REZ19-11 to the City Council with a recommendation for denial.

Findings:

1. Rezoning the property would not be consistent with the Comprehensive Plan as it would allow for higher intensity development allowed in an area designated RG Residential General.

2. There is little demand for commercial development in this vicinity. More than 15 acres of vacant land zoned C-2 exists to the east of the site.

3. Additional commercially zoned land may have a negative impact on nearby neighborhoods and Ridgeview Park.

**Case REZ19-13**: Request of Alex Kelly on behalf of Pegasus 62 LCC for a zoning map amendment on 9,000 square feet, more or less, of property located at 2012 East 11th Street from R-4C Single-Family and Two-Family Residential Zoning District to C-T Commercial Transitional Zoning District. [Ward 5]

At its December 17, 2019 meeting, the Plan and Zoning Commission voted unanimously to forward Case No. REZ19-13 to the City Council with a recommendation for approval.

Findings:

1. The C-T Commercial Transitional Zoning District would eliminate the non-conforming use of the property;

2. The proposed zoning map amendment would achieve consistency with approval standards enumerated in Section 17.14.040E.1 (A-F) of the Davenport City Code.
Case REZ19-02: Request of Earle Glaus to vacate a portion of the original Division Street Right-of-Way located between Ridgeview Drive and W. 76th Street. [Ward 8].

At its January 7, 2020 meeting, the Plan and Zoning Commission voted unanimously to forward Case ROW 19-02 to the City Council with a recommendation to declare this Right-of-Way not needed for public purposes.

Sincerely,

Robert Inghram, Chair
Davenport Plan and Zoning Commission
NOTICE
PUBLIC HEARING
WEDNESDAY, JANUARY 22, 2020 -5:30 P.M.
CITY OF DAVENPORT COMMITTEE OF THE WHOLE
COUNCIL CHAMBERS - DAVENPORT CITY HALL
226 WEST 4th STREET – DAVENPORT, IOWA

There is on file in the Community Planning and Economic Development Department (CPED), on behalf of the Plan and Zoning Commission, the following request:

Case REZ19-11: Request of Raju Penmatcha to rezone 7.04 acres located at the southwest corner of N. Division Street and W. 76th Street from R-MF, Residential Multifamily District to C-2, Corridor Commercial District. [Ward 8]

The legal description is as follows:

Beginning at the northwest quarter of said Northeast Quarter, thence North 88 degrees 44 minutes 15 seconds East 494.07 feet along the north line of said Northeast Quarter to the westerly right-of-way line of Division Street; thence South 01 degrees 15 minutes 45 seconds East 35.00 feet along said right-of-way line to the beginning of a curve, concave southwesterly having a radius of 25.00 feet, the chord of which bears South 45 degrees 37 minutes 10 seconds East for a distance of 35.75 feet; thence along the arc of said curve and said right-of-way line for a distance of 39.83 feet to the beginning of a curve, concave westerly having a radius of 779.00 feet, the chord of which bears South 20 degrees 00 minutes 42 seconds West for a distance of 532.57 feet; thence South 39 degrees 52 minutes 30 seconds West 309.55 feet along said right-of-way line; thence North 46 degrees 48 minutes 19 seconds West 191.59 feet to the west line of the Northeast Quarter of said Section 3; thence North 00 degrees 00 minutes 38 seconds East 655.95 feet along said line to the point of beginning. Said Parcel “C” contains 7.039 acres, more or less.

At its December 17, 2019 meeting, the Davenport Plan and Zoning Commission voted to recommend denial of the proposed rezoning.
Case REZ19-13: Request of Alex Kelly on behalf of Pegasus 62 LCC for a zoning map amendment on 9,000 square feet, more or less, of property located at 2012 East 11th Street from R-4C Single-Family and Two-Family Residential Zoning District to C-T Commercial Transitional Zoning District. [Ward 5]

The legal description is as follows:

The East 45 feet of Lot 1 in Block 10 in the Village of East Davenport, now a part of the City of Davenport, Iowa.

and

The West Half of Lot 2, and that part of the East Half of said Lot 2, particularly described as follows: Commencing at the Northeast corner of said Lot 2, and running thence West 40 feet, more or less, along the South Line of the alley to the center of said Lot 2; thence South 150 feet to the East 11th Street (Formerly Main Street); thence in a northeasterly direction to the place of beginning, all in Block 10 in the Plat of East Davenport Proper, also called the Village of East Davenport, and now in the City of Davenport, Scott County, Iowa.

and

The South 30 feet of Lot 8 in Block 10 in the Village of East Davenport (now within the corporate limits of the City of Davenport, Iowa), as shown by the Plat recorded in Book “I” Land Deeds page 180, records of the Recorder’s Office of Scott County, Iowa.

At its December 17, 2019 meeting, the Davenport Plan and Zoning Commission voted to recommend approval of the proposed rezoning.

Case ROW19-02: Request of Earle Glaus to vacate a portion of the original Division Street right-of-way located between Ridgeview Drive and W. 76th Street. [Ward 8]

The legal description of this property is as follows:

Part of the Right of Way of the old Division Street adjacent to Lot 10, Ridgeview Park Addition, an official plat in the City of Davenport, Scott County, Iowa described as follows:

Commencing of the North Corner of said section 3; thence South 88 degrees 06’ 05” West along the North line of the Northwest ¼ of Section 3 Township 78 North Range 3 East of the 5th P. M., a distance of 33’ to the East Line of said Lot 10; thence South 0 degrees 43’03” to the North Right of Way Line of Ridgeview Drive, Thence East along the North ROW line of Ridgeview Drive a distance of approximately 33 feet to a point on the East line of Section 3 Township 78 North Range 3 East of the 5th P. M. to a point; thence North 00 degrees, 00’ – 38” East to a point on the South Line of 76th Street, Thence Westerly along the South line of 76th Street along a curve with a radius of 802 feet a distance of approximately 33 feet to the point of beginning containing 0.4712 acres, more or less.

At its public hearing held on January 7, 2020, the Plan and Zoning Commission vote to recommend approval of the right-of-way vacation.

The public hearing on the above matter is scheduled for 5:30 p.m. or as soon thereafter as possible on Wednesday, January 22, 2020 in the Council Chambers at Davenport City Hall, 226 West 4th Street, Davenport, Iowa. You may submit written comments on the above item(s) or to attend the public hearing to express your views, or both. Interpretive services are available at no charge. Servicios interpretativos libres estan disponibles. TTY: (563) 326-6145
Any written comments to be reported at the public hearing should be received in the Department of Community Planning & Economic Development, at the above address, no later than 12:00 noon on the day of the public hearing(s). PO No. 2006732

Department of Community Planning & Economic Development
E-MAIL: planning@davenportiowa.com PHONE: 563-326-7765
First Consideration: Ordinance for Case ROW19-02 being the request to vacate a portion of the original Division St right-of-way located between Ridgeview Dr and W 76th St (Earle Glaus, petitioner). [Ward 8]

Recommendation:
Adopt the Ordinance.

Background:
Property owner to the west requests this right-of-way be vacated. Records indicate the right-of-way is 33 feet wide which suggested an additional 33 feet has been vacated in the past. Upon review with County Auditor officials, staff believes the additional 33 feet of right-of-way never existed.

A Public Hearing was be held at the December 17, 2019 meeting. The petitioner spoke in favor of the request.

At the January 7, 2020 meeting, the Plan and Zoning Commission voted unanimously to forward Case ROW 19-02 to the City Council with a recommendation to declare this right-of-way not needed for public purposes.

Technical review found no reason to maintain this property as public right-of-way.

ORDINANCE NO.

ORDINANCE for Case ROW19-02: Request of Earle Glaus to vacate a portion of the original Division Street right-of-way located between Ridgeview Drive and W. 76th Street. [Ward 8]

BE IT ENACTED BY THE CITY COUNCIL OF THE CITY OF DAVENPORT, IOWA:

Section 1. The following described unit of Scott County, Iowa real estate is hereby vacated (abandoned).

The property has the following legal description:

Part of the Right of Way of the old Division Street adjacent to Lot 10, Ridgeview Park Addition, an official plat in the City of Davenport, Scott County, Iowa described as follows:

Commencing of the North Corner of said section 3; thence South 88 degrees 06’ 05” West along the North line of the Northwest ¹⁄₄ of Section 3 Township 78 North Range 3 East of the 5th P. M., a distance of 33’ to the East Line of said Lot 10; thence South 0 degrees 43’03” to the North Right of Way Line of Ridgeview Drive, Thence East along the North ROW line of Ridgeview Drive a distance of approximately 33 feet to a point on the East line of Section 3 Township 78 North Range 3 East of the 5th P. M. to a point; thence North 00 degrees, 00’ – 38” East to a point on the South Line of 76th Street, Thence Westerly along the South line of 76th Street along a curve with a radius of 802 feet a distance of approximately 33 feet to the point of beginning containing 0.4712 acres, more or less.

At its public hearing held on January 7, 2020, the Plan and Zoning Commission vote to recommend approval of the right-of-way vacation.

SEVERABILITY CLAUSE. If any of the provisions of this ordinance are for any reason illegal or void, then the lawful provisions of this ordinance, which are separable from said unlawful provisions shall be and remain in full force and effect, the same as if the ordinance contained no illegal or void provisions.

REPEALER. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.
EFFECTIVE DATE. This ordinance shall be in full force and effective after its final passage and publication as by law provided.

2014
PUBLIC HEARING NOTICE
PLAN AND ZONING COMMISSION
CITY OF DAVENPORT

Public Hearing Details:
Date: December 17, 2019
Time: 5:00 PM
Location: Council Chambers at City Hall, 226 West 4th Street Davenport, Iowa
Subject: Public hearing for a rezoning before the Plan and Zoning Commission
Case #: ROW19-02

To: Adjacent owners of City-owned property (right-of-way) proposed to be vacated. This property was platted some time ago as Division Street. See map on reverse for specific location. [Ward 8]

What is this All About?
This notice is being sent to inform you that a public hearing will be held for a proposed right-of-way vacation.

What are the Next Steps after the Public Hearing?
This public hearing is the first step in the review/approval process. The Commission’s recommendation from this public hearing will be forwarded to the City Council which will then hold its own public hearing. You will receive a notice of the City Council’s public hearing as you received this notice. The City Council will ultimately decide if the property is no longer needed for City purposes, and is eligible for vacation. At that point, the City Attorney’s office will negotiate with adjacent property owners to determine the appropriate way to convey the property, and possibly, purchase price. For the specific dates and times of subsequent meetings, please contact the case planner below.

Would You Like to Submit an Official Comment?
As a neighboring property owner, you may have an interest in commenting on the proposed request either in writing/email or in person at the public hearing. If you intend to send in written comments, it is appreciated if those comments could be received by Community Planning no later than 12:00 PM one day before the public hearing. Send comments to planning@ci.davenport.ia.us or CPED, 226 W 4th St, Davenport IA 52801.

Do You Have Any Questions?
If you have any questions on this request, or if you need accommodations for any reason, please contact Matthew Flynn, AICP, the case planner assigned to this project at matt.flynn@ci.davenport.ia.us or at 563-888-2286. Interpretive services are available at no charge. Servicios interpretativos libres estan disponibles. TTY: (563) 326-6145

Please note that items may be removed from the agenda or tabled to a future hearing date at the request of the Petitioner or Commission/Board. If you are interested in the current schedule and outcome of this case, please contact the Community Planning Office at 563-326-7765 or planning@ci.davenport.ia.us for updates.
January 10, 2020

To the Mayor and Council of the City of Davenport:

Please be informed of recent actions by the City of Davenport Plan and Zoning Commission:

**Case REZ19-11**: Request of Raju Penmatcha to rezone 7.04 acres located at the southwest corner of N. Division Street and W. 76th Street from R-MF, Residential Multifamily District to C-2, Corridor Commercial District. [Ward 8]

At its December 17, 2019 meeting, the Plan and Zoning Commission voted 3-2 to forward Case REZ19-11 to the City Council with a recommendation for denial.

Findings:

1. Rezoning the property would not be consistent with the Comprehensive Plan as it would allow for higher intensity development allowed in an area designated RG Residential General.

2. There is little demand for commercial development in this vicinity. More than 15 acres of vacant land zoned C-2 exists to the east of the site.

3. Additional commercially zoned land may have a negative impact on nearby neighborhoods and Ridgeview Park.

**Case REZ19-13**: Request of Alex Kelly on behalf of Pegasus 62 LCC for a zoning map amendment on 9,000 square feet, more or less, of property located at 2012 East 11th Street from R-4C Single-Family and Two-Family Residential Zoning District to C-T Commercial Transitional Zoning District. [Ward 5]

At its December 17, 2019 meeting, the Plan and Zoning Commission voted unanimously to forward Case No. REZ19-13 to the City Council with a recommendation for approval.

Findings:

1. The C-T Commercial Transitional Zoning District would eliminate the non-conforming use of the property;

2. The proposed zoning map amendment would achieve consistency with approval standards enumerated in Section 17.14.040E.1 (A-F) of the Davenport City Code.
Case REZ19-02: Request of Earle Glaus to vacate a portion of the original Division Street Right-of-Way located between Ridgeview Drive and W. 76th Street. [Ward 8].

At its January 7, 2020 meeting, the Plan and Zoning Commission voted unanimously to forward Case ROW 19-02 to the City Council with a recommendation to declare this Right-of-Way not needed for public purposes.

Sincerely,

Robert Inghram, Chair
Davenport Plan and Zoning Commission
Friday, January 3, 2020

Please publish the following public notice in the earliest edition of the Quad City Times.

The PO number for this notice is: 2006732

Please provide proof of publication for our records. If you have any questions, please contact us at planning@ci.davenport.ia.us or 563-326-7765. Thank you!

NOTICE
PUBLIC HEARING
WEDNESDAY, JANUARY 22, 2020 -5:30 P.M.
CITY OF DAVENPORT COMMITTEE OF THE WHOLE
COUNCIL CHAMBERS - DAVENPORT CITY HALL
226 WEST 4th STREET – DAVENPORT, IOWA

There is on file in the Community Planning and Economic Development Department (CPED), on behalf of the Plan and Zoning Commission, the following request:

Case REZ19-11: Request of Raju Penmatcha to rezone 7.04 acres located at the southwest corner of N. Division Street and W. 76th Street from R-MF, Residential Multifamily District to C-2, Corridor Commercial District. [Ward 8]

The legal description is as follows:

Part of the Northeast Quarter of Section 3, Township 78 North Range 3 East of the 5th Principal Meridian, City of Davenport, Scott County, Iowa, more particularly described as follows:

Beginning at the northwest quarter of said Northeast Quarter, thence North 88 degrees 44 minutes 15 seconds East 494.07 feet along the north line of said Northeast Quarter to the westerly right-of-way line of Division Street; thence South 01 degrees 15 minutes 45 seconds East 35.00 feet along said right-of-way line to the beginning of a curve, concave southwesterly having a radius of 25.00 feet, the chord of which bears South 45 degrees 37 minutes 10 seconds East for a distance of 35.75 feet; thence along the arc of said curve and said right-of-way line for a distance of 39.83 feet to the beginning of a curve, concave westerly having a radius of 779.00 feet, the chord of which bears South 20 degrees 00 minutes 42 seconds West for a distance of 532.57 feet; thence South 39 degrees 52 minutes 30 seconds West 309.55 feet along said right-of-way line; thence North 46 degrees 48 minutes 19 seconds West 191.59 feet to the west line of the Northeast Quarter of said Section 3; thence North 00 degrees 00 minutes 38 seconds East 655.95 feet along said line to the point of beginning. Said Parcel “C” contains 7.039 acres, more or less.

At its December 17, 2019 meeting, the Davenport Plan and Zoning Commission voted to recommend denial of the proposed rezoning.
Case REZ19-13: Request of Alex Kelly on behalf of Pegasus 62 LCC for a zoning map amendment on 9,000 square feet, more or less, of property located at 2012 East 11th Street from R-4C Single-Family and Two-Family Residential Zoning District to C-T Commercial Transitional Zoning District. [Ward 5]

The legal description is as follows:

The East 45 feet of Lot 1 in Block 10 in the Village of East Davenport, now a part of the City of Davenport, Iowa.

and

The West Half of Lot 2, and that part of the East Half of said Lot 2, particularly described as follows: Commencing at the Northeast corner of said Lot 2, and running thence West 40 feet, more or less, along the South Line of the alley to the center of said Lot 2; thence South 150 feet to the East 11th Street (Formerly Main Street); thence in a northeasterly direction to the place of beginning, all in Block 10 in the Plat of East Davenport Proper, also called the Village of East Davenport, and now in the City of Davenport, Scott County, Iowa.

and

The South 30 feet of Lot 8 in Block 10 in the Village of East Davenport (now within the corporate limits of the City of Davenport, Iowa), as shown by the Plat recorded in Book “I” Land Deeds page 180, records of the Recorder’s Office of Scott County, Iowa.

At its December 17, 2019 meeting, the Davenport Plan and Zoning Commission voted to recommend approval of the proposed rezoning.

Case ROW19-02: Request of Earle Glaus to vacate a portion of the original Division Street right-of-way located between Ridgeview Drive and W. 76th Street. [Ward 8]

The legal description of this property is as follows:

Part of the Right of Way of the old Division Street adjacent to Lot 10, Ridgeview Park Addition, an official plat in the City of Davenport, Scott County, Iowa described as follows:

Commencing of the North Corner of said section 3; thence South 88 degrees 06’ 05” West along the North line of the Northwest ¼ of Section 3 Township 78 North Range 3 East of the 5th P. M., a distance of 33’ to the East Line of said Lot 10; thence South 0 degrees 43’03” to the North Right of Way Line of Ridgeview Drive, Thence East along the North ROW line of Ridgeview Drive a distance of approximately 33 feet to a point on the East line of Section 3 Township 78 North Range 3 East of the 5th P. M. to a point; thence North 00 degrees, 00’ – 38” East to a point on the South Line of 76th Street, Thence Westerly along the South line of 76th Street along a curve with a radius of 802 feet a distance of approximately 33 feet to the point of beginning containing 0.4712 acres, more or less.

At its public hearing held on January 7, 2020, the Plan and Zoning Commission vote to recommend approval of the right-of-way vacation.

The public hearing on the above matter is scheduled for 5:30 p.m. or as soon thereafter as possible on Wednesday, January 22, 2020 in the Council Chambers at Davenport City Hall, 226 West 4th Street, Davenport, Iowa. Subject:
Resolution supporting a Workforce Housing Tax Credit (WHTC) Disaster application to the State for the Pine Knoll project located at 2504 Telegraph Rd and approving an Urban Revitalization Tax Exemption (URTE) application for the same (Chris Ales, petitioner). [Ward 1]

Recommendation:
Adopt the Resolution.

Background:
Recently, to help provide assistance in counties impacted by flooding earlier this year, the State of Iowa allocated $10 million in tax credit authority for the WHTC Program. The WHTC can assist developers to rehabilitate or build new housing units by reducing tax liabilities and/or raising equity to complete the project. The State intends to obligate these credits on a first come, first served basis.

Projects must include a Resolution of Support from the local government and show a local match commitment of at least $1,000 per housing unit. This proposed project is located within the City’s URTE area and the developer has applied for this assistance. The project is eligible and, if approved, the amount of tax exemption over 10 years would meet the State-required match for the WHTC Program.

This project is proposed by Pine Knoll LLC, (Chris Ales), who was involved with several local projects including the Marycrest Senior Housing campus, Gold Coast Apartments, and the former Buchanan School (Naval Reserve) project. The Pine Knoll project will create 23 senior, independent living apartments as a $6 million adaptive reuse of the existing Pine Knoll building, previously owned/occupied by Vera French. The developer intends to apply for Low-Income Housing Tax Credits through the Iowa Finance Authority, with the balance of the project being financed through conventional debt, equity, WHTCs, and savings via the URTE program. There will be a mix of one- and two-bedroom units, with tenant household incomes limited to 80% of median family income.

Approval of this Resolution will authorize the execution of the Resolution of Support for the project and approval of the URTE application.

Resolution No._____________

Resolution offered by Alderman Gripp.

RESOLVED by the City Council of the City of Davenport.

RESOLUTION supporting a Workforce Housing Tax Credit application to the State for the Pine Knoll project located at 2504 Telegraph Road and approving a URTE application for the same (Pine Knoll, LLC, petitioner).

WHEREAS, recent flooding occurred across parts of Iowa, causing the President to declare several counties (including Scott County) a disaster area with unprecedented Mississippi River levels and duration in Davenport, negatively impacting properties with over 700 housing units in Davenport; and

WHEREAS, the Iowa Economic Development Authority (IEDA) is offering State tax incentives under the recent announcement of Disaster Assistance through the Workforce Housing Tax Credit (WHTC) Program; and

WHEREAS, housing developer, Pine Knoll, LLC (Chris Ales), has requested City support for its WHTC application to the State for a $6 million, 23-unit senior apartment project located at 2504 Telegraph Road; and

WHEREAS, the application requirements for the WHTC program include a requirement for the submission of a Resolution in support of the housing project by the community where the project will be located and documentation of local matching funds pledged for the project in an amount not less than $1,000 per dwelling unit; and

WHEREAS, the project is located within the City’s Urban Revitalization Tax Exemption (URTE) area, the developer has applied for benefits through this program, and is eligible for the 10 year, 100% exemption; and

WHEREAS, the URTE benefit awarded will meet the minimum City contribution of $1,000 per dwelling unit required by the WHTC program;

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Davenport that the Pine Knoll project is fully supported in applying for the Iowa Workforce Housing Tax Credit Program and the URTE application for the project is hereby approved.

Approved:       Attest:

_____________________________  ____________________ ____________
Mike Matson, Mayor                 Brian Krup, Deputy City Clerk
Subject: Resolution supporting a Workforce Housing Tax Credit (WHTC) Disaster application to the State for the IH Bowstring Lofts project located at 601 W 2nd Street and approving an Urban Revitalization Tax Exemption (URTE) application for the same (O.V. Nielsen Family Trust, petitioner). [Ward 3]

Recommendation: Adopt the Resolution.

Background:
Recently, to help provide assistance in counties impacted by flooding earlier this year, the State of Iowa allocated $10 million in tax credit authority for the WHTC Program. The WHTC can assist developers to rehabilitate or build new housing units by reducing tax liabilities and/or raising equity to complete the project. The State intends to obligate these credits on a first come, first served basis.

Projects must include a Resolution of Support from the local government and show a local match commitment of at least $1,000 per housing unit. This proposed project is located within the City’s URTE area and the developer has applied for this assistance. The project is eligible and, if approved, the amount of tax exemption over 10 years would meet the State-required match.

This project is proposed by the O.V. Nielsen Family Trust (Bill Neilsen) who has leased/owned the property for over 40 years with the primary use as Tri-City Florist Supply. The building was built in 1927-28 as the International Harvester Truck Supply (showroom) and Service Station. The family plans to create 23 market rate apartments as an adaptive reuse of this historic structure. They are proposing a mix of 4 studios, 12 one-bedrooms, and 7 two-bedroom units.

In addition to WHTCs, URTE savings, State and Federal Historic Tax Credits, and private financing, State Grayfield Tax Credits and Opportunity Zone funding is anticipated to help complete the $4 million project. Approval of this Resolution will authorize the execution of the Resolution of Support for the project and approval of the URTE application.

Resolution No._____________

Resolution offered by Alderman Gripp.

RESOLVED by the City Council of the City of Davenport.

RESOLUTION supporting a Workforce Housing Tax Credit application to the State for the IH Bowstring Lofts project located at 601 W. 2nd Street and approving a URTE application for the same (O.V. Nielsen Family Trust, petitioner). [Ward 3]

WHEREAS, recent flooding occurred across parts of Iowa, causing the President to declare several counties (including Scott County) a disaster area with unprecedented Mississippi River levels and duration in Davenport, negatively impacting properties with over 700 housing units in Davenport; and

WHEREAS, the Iowa Economic Development Authority (IEDA) is offering State tax incentives under the recent announcement of Disaster Assistance through the Workforce Housing Tax Credit (WHTC) Program; and

WHEREAS, the owner, O.V. Nielsen Family Trust (Bill Nielsen), has requested City support for its WHTC application to the State for a $4 million, 23-unit adaptive re-use apartment project located at 601 W. 2nd Street; and

WHEREAS, the application requirements for the WHTC program include a requirement for the submission of a Resolution in support of the housing project by the community where the project will be located and documentation of local matching funds pledged for the project in an amount not less than $1,000 per dwelling unit; and

WHEREAS, the project is located within the City’s Urban Revitalization Tax Exemption (URTE) area, the developer has applied for benefits through this program, and is eligible for the 10 year, 100% exemption; and

WHEREAS, the URTE benefit awarded will meet the minimum City contribution of $1,000 per dwelling unit required by the WHTC program;

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Davenport that the IH Bowstring Lofts project is fully supported in applying for the Iowa Workforce Housing Tax Credit Program and the URTE application for the project is hereby approved.

Approved:       Attest:

Subject:
Resolution authorizing the Mayor to sign the Certified Local Government Form supporting the proposed National Register Historic Places: Davenport Commercial Historic District. [Ward 3]

Recommendation:
Adopt the Resolution.

Background:
The Downtown Davenport Partnership hired a consultant to explore if portions of Downtown Davenport could become a historic district. Historic properties may be able utilize historic tax credits to offset the cost of building rehabilitation. The consultant has submitted a nomination for the Davenport Commercial Historic District.

The boundaries of said district are outlined in the nomination application.

Findings:

1. That the Davenport Commercial District is associated with events that have made a significant contribution to the broad patterns of our history (Criterion A); and
2. That the Davenport Commercial District embodies the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction (Criterion C).

The Historic Preservation Commission recommended approval of the Davenport Commercial Historic District and authorized the Chairperson to sign the Certified Local Government Review Form at its January 14, 2020 meeting.

The vote to approve was 6-yes, 0-no, 0-abstention.

National Register of Historic Places
Registration Form

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in National Register Bulletin, How to Complete the National Register of Historic Places Registration Form. If any item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional certification comments, entries, and narrative items on continuation sheets if needed (NPS Form 10-900a).

1. Name of Property

historic name  Davenport Downtown Commercial Historic District

other names/site number

Name of Multiple Property Listing

(Enter "N/A" if property is not part of a multiple property listing)

2. Location

street & number  Downtown Davenport 2nd St. to 5th St., Perry St. to Western Ave.  □ not for publication

city or town  Davenport

state  Iowa  county  Scott  zip code  52801

3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act, as amended,

I hereby certify that this  X nomination  □ request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60.

In my opinion, the property  X meets  □ does not meet the National Register Criteria. I recommend that this property be considered significant at the following level(s) of significance:  □ national  □ statewide  X local

Applicable National Register Criteria:  □ A  □ B  X C  □ D

Signature of certifying official/Title: Deputy State Historic Preservation Officer  Date

State Historical Society of Iowa

State or Federal agency/bureau or Tribal Government

In my opinion, the property ___ meets ___ does not meet the National Register criteria.

Signature of commenting official  Date

Title  State or Federal agency/bureau or Tribal Government

4. National Park Service Certification

I hereby certify that this property is:

□ entered in the National Register  □ determined eligible for the National Register

□ determined not eligible for the National Register  □ removed from the National Register

□ other (explain:)

Signature of the Keeper  Date of Action

</table>
The Davenport, Iowa, site of the Davenport Downtown Commercial Historic District consists of approximately 14 blocks containing 75 buildings and one structure, an elevated railroad track that extends at the north end of the Historic District. The county seat of Scott County, Davenport is situated on the eastern border of Iowa, located along a prominent bend in the Mississippi River where the river flows west rather than its more typical southern flow. (Svendsen et al.) Directly across the river lies Rock Island, Illinois. The approximately 49-acre Historic District is bounded by the south side of W. 2nd Street at the southermost, the north side of W. 5th Street and the west 500 block of Brady Street at the northermost, east side of Perry Street at the easternmost, and east side of Western Avenue at the westernmost. The Historic District comprises the heart of the downtown Davenport commercial business district, and encompasses the extant remaining mid-19th- to mid 20th-century commercial, light industrial, entertainment, multiple dwelling, religious, and fraternal buildings plus two rail-related resources. The Davenport Downtown Commercial Historic District consists primarily of a concentration of attached and freestanding commercial, governmental, light industrial, fraternal, multi-family residential, theatre and entertainment, and religious buildings comprising the main portion of the downtown central business district and civic center with locally important government buildings and social and fraternal meeting places. The buildings together form a cohesive grouping that conveys the significance of the district as the heart of downtown where people have gathered for the purposes of a wide variety of commerce, government, socializing and fraternizing. The elevated train track as a linear resource represents an important railroad investment that demonstrates the local importance of transportation to commerce and industry, as
does a storefront that served as an interurban railroad depot. Within the Davenport Downtown Commercial Historic District, the buildings and transportation resources are in good to excellent condition and retain historic integrity to portray their significance as part of the mid-19th- to mid-20th-century central business district, until the era of the Interstate freeway construction. Although river flooding, fires, building collapses, civic redevelopment projects, and parking lot development have eroded some of the historic building stock directly outside of these boundaries, this elevates the importance of these rare-surviving buildings within the Historic District boundaries.

Narrative Description (Describe the historic and current physical appearance and condition of the property. Describe contributing and noncontributing resources if applicable.)

(Iowa SHPO Additional Instructions: After the main Narrative Description, discuss any physical alterations since the period of significance under the subheading Alterations, and the seven aspects of integrity as it applies to the resource in a Statement of Integrity with each aspect discussed in its own paragraph.)

Figures 1 and 2: Location terrain maps showing state of Iowa (right) and City of Davenport (left, outlined) and the other “Quad Cities” on the eastern border of Iowa and in Illinois across the Mississippi River. (Google, 2018)

Topography:
Topography has played a key role in shaping the development of this Historic District, which is broadly located between the Mississippi River and the northward-sloping bluffs above 5th and 6th streets. The first gridded plats were oriented toward the river, which played an important role early on for the commercial and industrial development of this area. Ferry connections and 1850s rail connections over the river helped spur growth near the waterfront; construction of the 1872 Rock Island Arsenal bridge (nonextant, replaced by the extant 1896 “Government Bridge”) further spurred commercial and light industrial development in what is today’s downtown Davenport. The grade in the Historic District slopes upward from 2nd Street to 5th Street. The lower-lying streets including 2nd Street have been prone to flooding over the decades, leading to most retail relocating outside of downtown beginning after World War II.
Setting:
Davenport is the largest of five cities clustered along a stretch of the Mississippi River; together they constitute the self-defined “Quad Cities”—Bettendorf, Iowa, and Rock Island, Moline, and East Moline, Illinois. (Note: Although there are five cities, the name “Quad Cities” endures; see Statement of Significance below for further information.) A series of bridges over the river connect the cities, including two that enter at the east and west edges of the Davenport central business district: the 1896 “Government Bridge” (Rock Island Arsenal Bridge; NRHP 1969 as part of the Rock Island Arsenal Historic District), located a few blocks east of the Historic District at E. 2nd Street, and the 1940 Rock Island Centennial Bridge (formerly a toll bridge), located one block west of the Historic District at Gaines Street. The elevated train track that runs through the Historic District begins two blocks outside of the district boundaries, at the Government Bridge.

Figure 3: Map shows the greater downtown Davenport central business district, roughly bounded by the Mississippi River to the south, elevated railroad track to the north and east, and Western Avenue to the west. Three main plats underly the CBD, from west to east: Original Town of Davenport, Antoine LeClaire’s (1st) Addition, and LeClaire’s 2nd Addition. (Scott County Assessor base map, 2018)

Underpinning the built environment in the Historic District are the Original Town of Davenport plat west from Harrison Street, on the eastern half, LeClaire’s 1st and 2nd Additions to the Original Plat filed by Davenport co-founder Antoine LeClaire. The 1836 Original Town plat was laid out by a land development company that included LeClaire and the eponymous George Davenport, among others, using a standard grid of square blocks. (Downer: 851-854; Svendsen et al.: 1-2) All three plats mostly employ square blocks bisected by east-west alleys, creating rectangular lots that mostly face north and south; the exceptions lie in the blocks on the north side of 4th Street, which historically were bisected by north-south alleys, and there are a few irregular lots north of 4th Street fronting Perry Street where the elevated train tracks curve at the northeastern corner of the Historic District.
Davenport Downtown Commercial Historic District  
Scott, Iowa

Figure 4: Map shows the Davenport Downtown Commercial Historic District boundaries. (Scott County Iowa Parcel Search base map, 2018)

The Historic District has numbered streets that run east-west, and named streets that run north-south. A note about directional orientation in downtown Davenport: Brady Street demarcates the east and west sides of downtown, with streets marked “East” (E.) or “West” (W.), depending on their location to Brady Street, and some named streets include “North” (N.). The east-west streets within the district are, from south to north: W. 2nd Street single lane two-way traffic with a mix of angled and parallel parking; E. and W. 3rd Street three-lane east-flowing one-way traffic with parallel parking; E. and W. 4th Street four-lane west-flowing one-way traffic with parallel parking; and W. 5th Street single-lane two-way traffic with parallel parking. The north-south streets within the district are, from east to west: Perry Street three-lane two-way traffic with parallel parking (north of E. Fourth Street); Brady Street (U.S. 61 northbound) three-lane north-flowing one-way; N. Main Street three-lane two-way traffic with parallel parking; N. Harrison Street (U.S. 61 southbound) four-lane south-flowing one-way; N. Ripley Street two-lane two-way traffic with a mix of angled and parallel parking; Scott Street single lane two-way traffic with parallel parking; and Western Avenue single lane two-way traffic with angle parking. Nearly all intersections are controlled by traffic signals. There are public concrete sidewalks on these streets, limited street trees, and typical municipal signage. East-west paved alleys exist between the south side of W. 2nd Street and south side of E. and W. 4th Street, and behind the north side of W. 5th Street. North-
south paved alleys run on the north side of 4th Street between Perry and Brady Streets and between Main and Harrison Streets. Within the Historic District, many buildings front east-west streets: W. 2nd Street, E. and W. 3rd Street, E. and W. 4th Street, and E. and W. 5th Street; additional buildings front Perry Street, Brady Street, N. Main Street, N. Harrison Street, N. Ripley Street, and Western Avenue.

Superimposed on the grid is the 1901-1903 elevated rail track, with concrete retaining walls that support six plate girders and bridge spans, which allow vehicular and pedestrian traffic to flow freely on the streets below. The elevated track begins at the Government Bridge east of the Historic District and runs diagonally northwest toward E. 5th Street. The elevated track forms the northeastern boundary of the Historic District beginning at the embankment northwest of the intersection of E. 4th Street and Pershing Avenue, curving diagonally to E. 5th Street and Perry Street, then running linearly on the south side of 5th Street between Perry and Ripley streets, with the train track grade sloping down to street level between Ripley Street and Western Avenue. Within the Historic District, the elevated train track includes six viaduct bridges (some of which are 1920s replacements), which span Perry Street, the alley between Perry and Brady streets, Brady Street, N. Main Street, N. Harrison Street, and N. Ripley Street.

Within the Historic District, landscaping is minimal, given the zero-lot-line façade location of many of the buildings. As such, landscaping is primarily limited to some street trees and a few grassy lawns and planting beds at public and institutional buildings along 4th Street. The two main landscaped sites are the 1850s St. Anthony Catholic Church Complex, where the church is recessed from its corner site at W. 4th and N. Main streets, and grassy lawn with trees and planting beds is found. A century later, the 1956 Scott County Courthouse was recessed on its corner site at W. 4th and Ripley streets, and includes a shallow grassy lawn and trees. The 1895 Davenport City Hall is slightly recessed on its corner site at W. 4th and N. Harrison streets, and has a shallow grassy landscaped area. There are planting beds along the W. 4th Street secondary façade of the 1968 Davenport Public Library. And the non-contributing and abandoned Davenport Bank & Trust drive-through at the corner of Main and W. 3rd streets has fenced greenspace.

South beyond River Drive lies the flood-prone riverfront, which has a long history of flooding up to 2nd Street; a portion of the riverfront was turned into an early-20th-century park that includes the NRHP-listed 1918 Dillon Memorial fountain (NRHP 1983) and 1924 W.D. Petersen Memorial Music Pavilion bandshell (NRHP 1983). East of the Historic District lies the Davenport Motor Row and Industrial Historic District (NRHP 2019), occupying the easternmost portion of Davenport’s central business district, historically a mixed-used neighborhood demised at Perry Street on the west extending east and north to the curving Chicago, Rock Island and Pacific elevated rail tracks and connecting Government Bridge. (James 2019: 7-1) Northeast of the Historic District, beyond the elevated train track, lies the Crescent Warehouse Historic District (NRHP 2003), which contains multi-story factory, warehouse, and rail-related buildings. (Svendsen 2003: 7-1) Northwest of the Historic District resides the largely residential Hamburg Historic District (NRHP 1983, boundary adjusted 2017), which includes mostly 19th-century cottages to mansions built on the bluff. To the west of Ripley Street along W. 3rd Street is the W. Third Street Historic District (NRHP 1983), which contains smaller-scale mostly two-story retail and residential buildings tied to the Germanic history of Davenport.

Building and Resource Count:
The Davenport Downtown Commercial Historic District encompasses 66 contributing buildings dating from the 1850s through 1968, plus one structure, being the 1901-1903 elevated Chicago, Rock Island & Pacific railroad track. Overall the district contains 67 contributing historic resources and 9 non-contributing buildings. The Historic District properties with their contributing/noncontributing status are summarized in Table 1 at the end of this section. In counting buildings, separation via structural demising walls, the historical building record, as well as the duration of the functional relationship have been taken into consideration. It is acknowledged that remodeling of older commercial and light-industrial buildings via new facades, and expansion in some cases, complicates the building count.
Of the contributing buildings, 33 have previously been listed in the National Register, the majority in 1983-1984 as part of the “Historical and Architectural Resources of Davenport, Iowa, MRA” (Multiple Resource Area; NRHP 1983), which came to include six historic districts and approximately 175 individually listed properties. Additional buildings have been listed to the National Register since then as part of historic tax credit rehabilitations. Some of the other contributing resources include properties and the elevated train track that were previously identified as individually eligible in the Davenport MRA, but due to owner objection in the 1980s, the properties were not listed. The 9 buildings classified as noncontributing were built after the Period of Significance (1853 to 1968), or currently lack sufficient integrity due to façade renovations that have removed or obscured significant historic fabric. However, some noncontributing resources potentially could become contributing upon resolution of integrity issues, as noted in Table 1.

The Davenport Downtown Commercial Historic District contains a variety of commercial, governmental, domestic, social, religious, recreational, and light industrial buildings, as well as some rail-related transportation resources. (Note: “light industrial” is defined here as relating to manufacturing that uses moderate quantities of power and partially processed materials, as well as wholesaling, jobbing, and warehousing.) This Historic District includes most of the commercial business district buildings spanning the 1850s through 1968 that survive between Perry Street at the east and Western Avenue at the west, and between 2nd Street at the south and 5th Street at the north. The commercial buildings generally are located on 2nd, 3rd, Brady, and N. Harrison streets; store buildings and financial institutions are two well-represented commercial building types. Governmental, social/fraternal, and religious buildings are located on or near 4th and 5th streets, and Brady and N. Main streets. Recreational buildings are largely located along 3rd Street. Domestic hotel buildings are located near historic depot locations, clustered along 3rd and Main streets; domestic apartment buildings are largely located on 3rd, 4th, and 5th streets, plus one rare-surviving Civil War-era house on Brady Street. Light industrial buildings are located on the northern and western fringes of the business district; these tend to be 19th-century industrial uses such as early factories and planing mill, as well as auto-related early-20th-century garages and service stations. The historic rail resources are located along 5th Street, where the elevated train tracks and viaducts stand, and at Brady Street, where a storefront interurban depot remains located along a former interurban route that used existing streetcar tracks no longer visible. Limited historic signs remain, including the rooftop “Kahl Building” sign, Capitol Theatre marquee, Mac’s Tavern neon sign, and some painted “ghost signs.” For many downtown buildings, the masonry structure from the period of significance remains largely intact and represents an important physical feature. Façade changes are commonplace for commercial buildings and often include first-floor storefront remodeling, upper-floor window alteration, and slipcover-type fronts.

A note about resource names: For buildings previously listed in the National Register, the listed name and spelling is generally used, with an exception being resources listed without a specific name (i.e. “Building”) a more specific name is included based on newspaper coverage. Spellings reflect historic usage: The U.S. Court House is spelled as two words, reflecting the existing individual National Register listing, but Scott County Courthouse is spelled as one word reflecting the county’s usage.

A note about addresses: Some buildings historically used an address of two cross streets or proximity to a larger business. Address numbering changed over time. Sanborn maps provide some addresses, but these do not always correspond with street numbers used in city directory listings (if addresses were listed). As such, current addresses are used as per the Scott County Assessor’s Office, with any known historic and/or existing addresses noted in parentheses.

A note about building construction dates: The Scott County Assessor dates, where available, are included for reference. Dates that are different from the assessor’s construction date are taken from newspaper coverage,
National Register of Historic Places nominations, and/or related resources. Major additions and remodeling dates are also included where applicable and available.

Figure 5: Map showing Historic District boundary with contributing and noncontributing properties as marked by C and NC; elevated rail track is shown by hash marks and rail bridges by white boxes. (Scott Country Assessor base map, 2018)

<td>M.L. Parker Company Building</td>
<td>1922-1923, office remodels 1970s-2000s Peirce Anderson, architect with Graham, Anderson, Probst, and White; George A. Fuller, Chicago contractor Chicago Commercial-style 7-story department store. Steel frame clad in brick with stone and terra-cotta detailing concentrated at lower two levels and seventh floor; this tripartite design is crowned with a cornice. Built to the corner, there are two façades with large storefront windows enframed in stone cladding, five bays on south, seven bays on east elevation. The trustees of the W.C. Putnam Estate contracted Chicago architect Daniel H. Burnham to provide a concept (1908-1909) for developing the entire north 100 block of W. 2nd Street with commercial properties to provide revenue to support the Davenport Academy of Sciences (now Putnam Museum and Science Center). After the successful 1910 Putnam Building, the Parker department store was planned in 1916, designed by the successor firm to Burnham—but war and high costs delayed construction.</td>

**1867, rear addition by 1892 Sanborn (A 1895 - incorrect)**

St. Charles Hotel

Italianate 3-story red brick with hipped roof built to corner of W. 3rd and Harrison. Five rounded-arch window bays on Harrison façade; seven on W. 3rd St. plus rear brick addition of two bays. Oriented to Harrison Street upon opening as a hotel with meeting rooms for clubs. By 1886 Sanborn, first floor was dedicated to saloon and stove/tin shop. Additional storefronts added fronting W. 3rd St. Brick parapet conceals hipped roof from view; decorative cornice removed.

In 1867 Mathew Reilly (sometimes misspelled Riley) constructed a 3-story building for $10,000 for use as St. Charles Hotel and boarding house; he continued the operation for about two decades. Saloon and billiards operated on 1st floor; hotel on 2nd and 3rd stories. As of the 1950 Sanborn map, the 1st story had five storefronts and the upper stories were occupied by a hotel, as was the adjoining upper stories of 312 W. 3rd St.

1857 rear, 1881 front, 1912 storefronts (A 1854)

G. Hager & Co. Carriage Works / Davenport Plow Works

Vernacular fieldstone 2-story building at rear alley dates to 1857; it is fronted by a restrained Italianate 1881 3-story brick plow works addition, with 1912 storefronts. The semi-attached building over looks a narrow east alley and rear alley. Fieldstone hipped-roof section has segmental-arch-top windows east and rear and a post-P.O.S. porch. Brick flat-roofed addition has segmental arch-top windows south and east elevations with stone sills. Façade is symmetrical with two recessed storefronts and six bays of upper windows topped by decorative brickwork at parapet.

Rear stone building constructed for George Hager Carriage Works, the former partner of the Woebier Brothers carriage makers; Woebers bought out Hager in 1858 and may have operated in the stone building prior to moving to the 200 block of W. Third St. The stone building became part of multi-building complex built by Davenport Plow Works (1871-1886), reorganized in 1886-1887 briefly as Globe Plow Works. The brick front addition was built 1881. Attorney and real estate investor C.A. Ficke acquired the building in 1889 after the plow works failed; he remodeled it for leasable tenant space. Ficke was a generous benefactor to the Davenport Academy of Natural Sciences (now Putnam Museum).

Colonial Revival/ Federal Revival 4-story brick apartment plus English basement. Built to a corner, the wide, symmetrical façade fronts 4th St., with nine bays. Units divided into three blocks of five apartments, basement to 4th floor, with each block having a separate entrance and rear light court. Stone defines the basement, door surrounds, lintels (double sets with keystones), windowsills. Building topped by wide flat cornice. *(Quad-City Times, “May Be Let During Week,” April 30, 1905: 7)*

John C. Shricker replaced an old homestead with a $40,000 apartment house with 25 flats, as the central business district expanded west. The John C. Schricker Company constructed the building, with Shricker as president and architect F.G. Clausen as vice-president. In 1949, J.C. Schricker remodeled the eastern section and subdivided units. (city permits)

<td>Scott County Courthouse, designed by Chester C. Woodburn, Dougher Rich &amp; Woodburn—Woodburn &amp; O’Neil, architects; Arthur H. Ebeling, associated architect; Priester Construction, contractor. Modern Movement 3-story aluminum clad and granite civic building. Built on a corner site, but recessed on site with front grassy lawn. Symmetrical façade fronts 4th St. Stone foundation and surround around centered front entrance (no longer used). Flat aluminum panels enframe a wall of aluminum windows arranged in vertical columns with fluted aluminum spandrels, with window groupings separated by aluminum mullions. The building included air conditioning. A rear parking lot occupied the space between the 282x111-foot courthouse and the 1898 jail; additions now infill this area, and entrance into the county facility now occurs through a 2007 recessed west addition. Architectural planning for a new courthouse began in the 1940s due to termite damage and settling sustained to the 1880s courthouse. But disagreements over location, design, and cost delayed the project and resulted in redesigns. The Des Moines architecture firm Dougher Rich &amp; Woodburn employed the International Style and aluminum in their modernistic design. Previously the firm designed a series of “PWA Moderne” county buildings in Iowa during the Public Works Administration era (roughly 1933-1944). Aluminum was selected as a less expensive alternative to stone and because it was locally produced by Alcoa, which had recently opened a plant in Davenport.</td>

Davenport Downtown Commercial Historic District

Name of Property: Davenport Downtown Commercial Historic District
County and State: Scott, Iowa

**Double storefront/Star Theatre**

- **W. 3rd St. intersects**
- 1875, various (A 1880)
  - U.N. Roberts & Co. Block/ Jacobsen Cigar

- **Planing mill operator Uriah N. Roberts constructed this building in 1875 as larger quarters for his production of window sash, doors, blinds, and molding. The firm continued here until 1894, then moved to larger quarters. (Later becoming part of Gordon -Van Tine Co.) In 1903, cigar maker Peter N. Jacobsen, Jr., expanded his cigar factory to this building. Operations continued into the 1940s. Jacobsen was the largest cigar manufacturer in Davenport (of 8) by the 1930s; cigarette popularity diminished the business. (Bowers and Svendsen)**

**W. 4th St. intersects**

- 2007
  - Davenport Police Station

- **The police station building is located between the Davenport City Hall and Scott County Courthouse/Scott County Jail. It continues the tradition of building government and institutional buildings on 4th Street.**

**Western Avenue (east side)**

- 1903, c. 1918 addition (A 1903)
  - Davenport Leaf Tobacco Co. / Victor Animatograph Co.

- **Built for the Ferd Haak cigar company’s subsidiary Davenport Leaf Tobacco Co. Circa 1920, the Haak company leased the building before selling it and adjoining showroom/factory, 527 4th St., to Victor Animatograph Co., manufacturer of moving picture machines and stereopticon slides; Victor expanded outside the CBD in 1948.**
Building Alteration and Loss

As this nomination attests, this downtown commercial historic district has been in the making and remaking since its founding. Flooding and fire have claimed a number of buildings through the decades, and reshaped others through post-disaster rebuilding and new construction. Large destructive fires and repeated flooding up to 2nd Street have made front-page news. Scattered single-family residential use continued through the period of significance, but most housing has been accomplished via flats above storefronts, hotels, and purpose-built apartment buildings. Blight removal has underpinned post-war government and private redevelopment projects —and these efforts have removed several blocks of pre-WWII building stock between River Drive and 5th Street. The rise of the automobile also has played a role in reshaping the 19th-century landscape: Creation of parking lots has occurred since the mid 20th century, to serve customers and to clean up buildings deemed to be in poor condition. The loss of buildings in these ways, although unfortunate, further elevates the importance of those buildings that remain. Flooding from the Mississippi River continues to plague businesses along Front Street (formerly 1st Street) and 2nd Street; this historic flooding pattern contributed to businesses leaving the central business district. Major floods in the 1950s, 1960s, 1993, and 2019 among others particularly affected buildings located on 2nd Street. A number of buildings within and around the district suffered disastrous fires, some of which caused complete or partial losses. For example, First National Bank built its 1923 skyscraper after it lost its earlier bank to fire. And Hotel Davenport lost its cornice during a fire that sent flames shooting out its upper windows. The county began work on replacing its 1880s courthouse, which had sustained termite damage and structural damage; the new Modern Movement courthouse opened in 1956. The city built its new 1968 library after the earlier building was damaged while adding an addition to the rear of the building.

Overall the contributing buildings retain their original form, ornament, and portrayal of their original use and design. Many of the windows have been replaced and storefronts have been remodeled through the decades, as is typical for commercial buildings of their age and style. Although individual buildings have been altered, as a whole the district retains integrity of design, location, workmanship, setting, feeling, association, and
materials. Few buildings have been altered so that they are no longer recognizable as contributing to the district. The buildings within the district retain facades that date to the period of significance, and there are few modern intrusions. Where buildings have been demolished, or lost to fires and flooding, parking lots or open space most often have replaced them, with most of these located outside of the district. Some paving/parking is historic auto-related paving.

Prior Study and Historic Preservation Efforts
Historic preservation in Davenport began in earnest the mid 1970s. Successful bicentennial-era preservation projects led Davenport to become the first Iowa city to hire a full-time historic planner, Marlys Svendsen, with a state grant in 1979. Svendsen undertook and directed surveys and National Register nominations, culminating in the 1982 publication with Martha Bowers of Davenport, Where the Mississippi Runs West: A Survey of Davenport History & Architecture, followed by the listing to the National Register of Multiple Resource Area with multiple historic districts and scores of individual buildings—the most of any Iowa city. (Svendsen et al.; Meginnis: 6) Civic projects in the 1980s and 1990s included the award-winning rehabilitation of the RKO Orpheum Theatre (now the Adler Theatre). Private investors have continued to utilize historic tax credits to assist with restoring historic buildings, leading to additional National Register of Historic Places nominations, such as the 2000s rehabilitations of Hotel Blackhawk and Putnam Building into boutique hotels, and creation of unique loft apartments in buildings such as the Forrest Block and Hibernia Hall, both on Brady Street.

Integrity of the District:
While some changes and limited parking lots have been the result of tenants and property owners remodeling or rebuilding to attract customers and tenants during the period of significance, other changes have occurred due to flooding, fires, and building collapses. Fires and natural disasters have damaged and destroyed buildings that once stood adjacent to the historic district and others that could have contributed to the district. The nearby convention center and parking garage development also has occurred post-P.O.S. Despite such alterations, the district as a whole retains a significant group of buildings containing essential physical features set within the historic layout along the grid street system to represent the significance to the community. Examining the seven aspects of integrity demonstrates this:

Location: The Historic District and buildings within it remain in their original locations. With regard to location, its integrity is excellent.

Design: The grid and alley layout of the Historic District was established by early-19th-century developers and further shaped by merchants and local government seeing the need and opportunity for commerce above the flood-prone river bottoms. Buildings within the district range from simple Greek Revival to high style Modernistic architectural statements. These groupings of buildings and the streetscapes they create—particularly along 3rd, 4th, Brady, Main, and Harrison streets—are largely intact and historic. All elements of the district contribute to the form, plan, space, setting, and style of a Midwestern midsize downtown commercial district developed and continually redeveloped from the mid 19th century through the mid 20th century. Some buildings exhibit excellent integrity of design. Other buildings retain fair to very good integrity, contributing via massing and streetscape continuity.

Setting: Overall the integrity of setting is good to fair, depending where in the district one is standing. The character of the district remains intact. Sidewalks, streets, and alleys remain in place and operational, as is the elevated train track and viaducts. The removal of commercial buildings outside the Historic District boundaries, particularly to the east and south of the district, began during the period of significance. Some building loss has been mitigated to a degree within the last decade by construction of sensitively designed infill mixed-use development that retains the historic building profile of the greater downtown area.
Materials: The integrity of materials remains good to excellent. Buildings within the Historic District retain character-defining features and historic fabric including decorative brickwork, stonework, and terra-cotta; cast-iron storefront systems with columns and at least one sleek structural glass storefront; and decorative cornices and parapets. Missing cornices, upper-level window changes, and storefront window and entrance doorway remodeling have resulted in loss of some historic fabric—although some of these changes should be considered historic given that they occurred during the period of significance. Other changes are cosmetic, with cover-up materials merely obscuring original materials.

Workmanship: The integrity of workmanship is good to excellent. The craftsmanship of the district is largely that of masons who neatly laid brick and applied terra-cotta, with tidy fenestration openings, decorative inlaid patterns and detailing on parapet walls, as well as some detailed carved stone elements. The craftsmanship of stoneworkers is represented in masonry buildings featuring carved, rusticated, and chiseled stone walls and architectural elements.

Feeling: Collectively, the buildings within the district portray the neighborhood’s commercial, governmental, social, recreational, domestic, rail-related transportation, and limited industrial heritage through the decades—and reflect the continual evolution of a midsize Midwestern downtown. Architectural details on the retail buildings and streetscapes within the district continue to express the unique historic character of the area and help visitors to experience the history and importance of the Davenport Downtown Commercial Historic District as a distinctive place of retail shopping, finance, and entertainment with offices and residences in upper levels.

Association: Viewed together, the buildings retain a high degree of association because the surviving physical features and streetscapes, which directly connect visitors to the history of the Historic District as the main center for commerce, finance, communications, local government, and entertainment and social outlets, located in the shadow of the elevated train tracks. The buildings represent some of the best and/or rare-surviving works by Davenport architects as well as some out-of-state firms. Due to a new generation of building owners, merchants, and residents, the Historic District is undergoing a retail and housing renaissance: Once again, the streets bustle with pedestrians, cyclists, and automobiles on their way to places within the district that continue their historic uses mainly as storefront retail establishments with upper-level offices and residences, as well as finance, government uses, and some entertainment venues. Rail transportation is also still represented through the continuously used elevated train tracks.

Statement of Significance

The Davenport Downtown Commercial Historic District is locally significant under Criterion A for Commerce, and Social History. The Historic District also is locally significant under Criterion C for Architecture. The downtown commercial district represents the growth of the City of Davenport as the leading commercial district serving the Iowa–Illinois Mississippi River region known as the “Tri Cities” and later the “Quad Cities.” Overall the Historic District provides a rare-surviving grouping of mid-19th-century through mid-20th-century commercial, social, architectural properties in Davenport. The district’s building stock includes locally rare-surviving examples of building types and styles in an evolution of architectural styles and responses; also included is the 1901-1903 elevated train tracks that facilitated commerce and allowed commercial business district traffic to pass unimpeded beneath the elevated tracks. Criterion A–Commerce is represented via office buildings, financial institutions, department stores, specialty stores, auto-related commercial buildings, restaurants, hotels, theaters, newspapers, light industrial facilities some of which had sales functions, investment apartment buildings, and rail-related resources that illustrate the commercial importance of the Historic District. Commerce-related transportation is represented via rail-related resources including the elevated C.R.I&P. rail tracks with viaduct bridges that allowed traffic to flow beneath the busy train tracks above, as well as the building used as a storefront interurban depot for several decades; goods were shipped via interurban as well as passenger travel. Criterion A–Social History is represented by extant social and fraternal halls, Eagles Danceland auditorium, fraternal clubhouses, Davenport Public Library as a community gathering place, and the St. Anthony Catholic Church Complex where a variety of organizations have met including anti-vice efforts that led to closing 24-hour saloons and other vice in the early 20th century and mid 20th century civil rights support that culminated in a prominent 1963 protest march that began at the church. Selected buildings are significant locally via Criterion C–Architecture as intact examples of the work of locally significant or nationally significant architect, or artistic renditions of influential architectural styles applied to downtown commercial buildings. The architecturally significant buildings include a number of civic and semi-public buildings clustered along 4th Street, a pattern set into motion with the Town of Davenport’s co-founder Antoine LeClaire philanthropically donating two square blocks in the 1830s, one for a courthouse square and the other for a church square for St. Anthony’s on W. 4th Street, both of which have been continuously used as such. The period of significance is 1853, the date of the earliest resource in the district, to 1968, the year of the last major governmental building project within the Historic District during the 20th century and the year of closure of the downtown C.R.I&P. elevated passenger depot in downtown Davenport. The year 1968 also is the year prior to the Quad Cities’ second suburban-style shopping mall was announced, which spurred additional development oriented toward Interstate 80 (substantially completed across Iowa in 1966) some two miles north of downtown, which accelerated loss of retail businesses downtown along with other changes in downtown development.

There are 33 previously listed resources: Central Fire Station; Central Office Building; City Market; Davenport Bank & Trust; Davenport City Hall; Davenport Hotel; Democrat Building; Donohue Building; F.T. Schmidt Block (Building); First Federal Savings and Loan Association Building; First National Bank Building; Forrest Block; (H.E.) Ficke Building; Henry Berg Building; Hibernia Hall; Hotel Blackhawk; Hotel Mississippi–RKO Orpheum Theater; Kahl Building; (M.D. Petersen Estate) Building (202 W. 3rd St.); M.L. Parker Company Building; Old City Hall (Oxford Flats); Philip Worley House (and Charles Worley Livery) (2 resources: house and livery); Putnam Building; Renwick Building; Scott County Jail; St. Anthony's Roman Catholic Church Complex (3 contributing resources: church, school, and rectory addition); Union Savings Bank and Trust Co. (Union Arcade Building); United States Post Office and Court House; Wupperman Block/I.O.O.F. Hall.
Commercial Background: Community Building, River Transportation, and Commercial Development of Davenport, 1830s–1840s

Early Plats in Davenport: Davenport began in 1836 as a Mississippi riverfront town established in the recently surveyed Black Hawk Purchase within the Iowa District of the Wisconsin Territory, opposite the military Fort Armstrong located on the Rock Island (now Arsenal Island, Illinois). Part of Davenport’s commercial business district (and the western half of the Historic District) was platted by a group of land company stockholders that included George Davenport, whose name graces the city, and Antoine LeClaire, a French-Indian interpreter, lawyer, and speculator, the first plat laid out three park squares, a public levee, and 36 gridded blocks plus six half blocks, all oriented toward the river. The plat extended from Harrison Street west to Warren Street, and the public river levee north to today’s Seventh Street.

In 1837 the territorial legislature established Scott County and provided for an election to determine the county seat, with Davenport one of the competitors (the county was named for General Winfield Scott, presiding officer at the signing of the peace treaty ending the Black Hawk War). In 1838, Iowa became a separate territory upon Wisconsin becoming a state, and Iowa statehood followed in 1846. (Wilkie: 32-33; Svendsen et al.: 1-2) During a competition for the county seat that extended 1838 through 1840, LeClaire and Davenport donated one of their plat’s park squares for a public courthouse square, helping to secure the county seat in Davenport. The county seat status brought additional commercial opportunities to Davenport that helped the business trade increase rapidly during the 19th century through the mid 20th century. (Svendsen et al.: 1-2–1-4)

After a slow start to lot sales due to title uncertainty, beginning in 1838 LeClair platted additions to the east on a reserve of land with clear title. (LeClaire had been granted the land while he was official American interpreter for the 1832 Black Hawk Treaty, which ended the Black Hawk War and turned over most of the former Sac and Fox land to the United States Government.) LeClaire set aside a “Church Square” to the Catholic Church in his 1838 1st Addition, and donated both the land and the funds toward the building of the first Davenport church, St. Anthony’s, as well as providing assistance to other denominations. St. Anthony’s provided an early important civic meeting place. The newly founded county held the first Scott County District Court at St. Anthony’s Church in 1838, an example of the community use beyond religious purposes that St. Anthony’s Catholic Church Complex has played during the Period of Significance. Both the courthouse and church squares are located along W. 4th Street and continue to be used for their original governmental and church/civic uses. (Svendsen et al.)

Commercial Background: Transportation Drives Commerce, Davenport as a Regional Commercial Center, 1850s – 1960s

River traffic and the status as the state’s first city to have railroad service in the 1850s placed Davenport at a national crossroads of trade, attracting a greater share of commercial, industrial, and residential growth than most other Iowa communities at the time, as noted by historian Sharon Wood. (Wood: 10; Federal Writers: 213) For a century, three key rail-related forms of transportation connected through Davenport—railroads, streetcars, and later interurbans—providing crucial transport of raw and finished goods, as well as passenger travel. Thanks to a century of sustained rail transport and early-20th-century highways, Davenport increasingly became a jobbing center, distribution point, and diversified manufacturing location, with a mix of local industries and branch factories for national corporations—which influenced the general commercial health of the city and the banking sector.
The earliest commercial and industrial development occurred along the Davenport riverfront. Ferries landed at Main Street and steamboats from St. Louis brought passengers, cheap bulk goods, and commerce. But railroads would revolutionize Davenport’s role as a gateway to the west and reshape the commercial and industrial riverfront. In the 1840s, Davenport promoters began investing in the bringing of a rail line from Chicago to Rock Island, Illinois. Re-chartered as the Chicago and Rock Island Railroad, it was completed to the Mississippi River in 1854; Davenport lawyer and jurist Judge James Grant became president of the company. A private bridge company formed in 1853 to build the first rail bridge to cross this segment of the Mississippi River, the Rock Island Arsenal Bridge, completed in 1856. (Svendsen and Bowers 1982: 3-1–3-2)

Meanwhile, in 1852 LeClaire and other Davenport residents, joined by the City of Davenport and Scott County governments, invested in building a rail line from Davenport west across Iowa to Council Bluffs, Iowa; first incorporated as the Mississippi & Missouri Railroad Company, the line merged with the Rock Island Railroad after the Civil War to become the Chicago, Rock Island & Pacific Railroad—with Council Bluffs and transcontinental connection to California from Omaha both reached in 1869. (Wood: 10) Other railroads followed in Davenport and the Illinois side, opening additional avenues for trade while decreasing importance of river traffic. Historians Marlys Svendsen and Martha Bowers, in their 1982 Davenport, Where the Mississippi Runs West: A Survey of Davenport History & Architecture, documented how Davenport’s geographical location afforded it a competitive advantage that would lead it to become a regional hub: “Illinois communities opposite Davenport were favored with similar transportation advantages, but Davenport’s location on the western side of the Mississippi proved a special aid. With the tide of settlers moving from east to west it was logical and economical to unload supplies and people closer to the area of expansion.” (Svendsen and Bowers 1982: 1-4) According to Svendsen et al.: “Construction of the various railroads between 1865 and 1900 caused significant changes for Davenport…. [T]he railroad construction boom caused local land values to soar, commerce and industry to expand and compete more vigorously…. Davenport’s position as a regional center was enhanced. Business from western communities funneled into the city from both the main line and branches…. Davenport became the place for consolidating and warehousing shipments and for farmers to gather to market their products.” (Svendsen and Bowers 1982: 3-5)

Historically, rail and vehicle traffic have flowed into downtown Davenport over a series of bridges since 1856 located east of the central business district. As the rail hub on the west side of the Mississippi River, Davenport was considered a gateway to the West. This opened up opportunities for wholesaling, distribution, and even commerce to Gold Rush miners traveling to California in the mid 1800s. The current bridge, the Government Bridge, dates to 1896 and remains open and is the oldest surviving Mississippi River rail crossing in the Iowa-Illinois region, connecting at E. 2nd Street in Davenport. The first-generation wood Rock Island Arsenal Bridge, built in 1856 east of the current Government Bridge, was the nation’s first permanent rail bridge across the Mississippi River, and its presence led to steamboat companies suing over its presence; attorney Abraham Lincoln represented the M&M and Rock Island railroads. Government Bridge traffic congestion led Congress in 1895 to authorize the War Department to build a larger bridge, with double lanes as well as the double deck. Designed by Chicago engineer Ralph Modjeski, the remodeled substructure with new superstructure was completed in 1896. (Moy and Karlowicz: 89; HAER 1968; HAER 1985: 1-5) From the 1850s through the mid 1930s, the Government Bridge provided the only rail/vehicle/pedestrian entrance point into the City of Davenport from Illinois, aside from ferry and barge. In 1898, the bridge averaged 5,000 people a day in good weather, via streetcar (190 streetcar trips), horse-drawn vehicles (about 1,200 teams), and by foot (more than 3,200) — excluding passenger trains. (The Davenport Democrat, “Items in Brief,” October 7, 1898: 1) In the 1930s, motor traffic on the Government Bridge averaged 9 million vehicles a year; in contrast, the Iowa-Illinois Bridge only saw 600,000 vehicles its first year. (Quad-City Times, “Happy 60th, Centennial...
The elevated tracks remain active, with rail lines operated by Iowa Interstate Railroad continuing to traverse streets on through plate girder bridges and steel stringer bridges over alleys (one alley bridge remains extant, at least one other has been infilled). Also, the downtown Davenport historical pattern of hotels clustering near rail lines demonstrates the architectural response to rail transportation and those remaining hotel buildings help convey the importance of rail transit in Davenport.

Davenport also was served by streetcars and also interurbans, which ran over the streets. Five street railway companies constructed lines in the Davenport area, with lines running on east-west 3rd St. starting 1869 and north-south Brady Street in 1870, among others. Street car electrification was completed in 1890, one of the first to be electrified in the country. Tri-City Railway and Light Company formed in 1895, controlled by the United Light and Railway Company of Grand Rapids, Michigan; it continued earlier service across the
Mississippi River to Rock Island and Moline, providing easy access for Illinois customers to shop, play, and otherwise spend dollars in Davenport. In 1904 another streetcar line began running on east-west 4th St. (Thompson: 116) Broadly, development of business blocks on these streets pays homage to the streetcar lines; no resources beyond the streets themselves have been identified. The interurban Iowa and Illinois Railway ran a 33-mile route from Davenport to Clinton, Iowa; a Davenport to Muscatine route began in 1912. At its peak during the 1910s, 15 daily trains ran from Clinton to Davenport and 12 between Davenport and Muscatine. Passengers boarded from city streets. (Thompson: 127) The I&I Depot operated in a storefront at 216 Brady St. from circa 1904 through the early 1920s.

With so much traffic entering Davenport through both bridges, the business community responded with an ever-evolving mix of commerce that served not only Davenport but also Illinois residents and businesses. Also during the early 20th century, local business leaders advocated for Davenport as the starting point for highways across Iowa, including the Davenport-to-Council Bluffs River-to-River Road and Great White Way road, bringing early auto and truck traffic into the business district. (Quad-City Times, “The Davenport Plan,” January 27, 1914: 6)

In summary, the C.R.I.&P. Railroad’s strength provided an influx of goods, raw materials, and people traveling to, from, and through Davenport east to Chicago and west to California during the Period of Significance; in the early 20th century Davenport also became the easternmost point on various highways across Iowa. This transportation nexus assisted Davenport in developing into an important distribution point, financial center, and retail and light industrial innovator.

**Significance: Criterion A – Commerce**

The Historic District is significant locally in the areas of Commerce with commercial and related development initially clustered near the riverfront, with 2nd Street and cross streets developing a strong retail tradition, 3rd Street and cross streets developing offices, financial institutions, entertainment, and some hotels, 4th Street and 5th Street and cross streets developing government and institutional uses, as well as social and fraternal organizations, and apartment buildings. The types of commerce initially focused on dry goods, groceries, specialty stores, wholesale goods including liquor, banking, and hotels, and light industrial including wood planning, and manufacturing of carriages and plows. In the late 19th century and early 20th century, the commercial mix expanded to include host of locally owned business, including fashionable department stores such as J.H.C. Petersen’s & Sons and M.L. Parker, travel- and convention-oriented hotels such as Hotel Dempsey and Hotel Blackhawk, vaudeville and movie theaters including the Star Theatre and larger RKO Capital and Orpheum theaters, farm implement and auto dealerships for national brands including McCormick Harvesting/International Harvester and Cadillac, and banks from the small Morris Plan office to the large American Commercial/Davenport Bank & Trust and the Bechtel Trust/First Trust & Savings. Light industrial uses within the central business district shifted as carriage works, plow works, and planing moved out, making way for cigar making, auto service, printing, and construction trades. Architectural historians David Gebhard and Gerald Mansheim describe the city’s commercial success as such: “From its beginnings Davenport was both fortunate and aggressive in its economic development…. By the seventies (1870s), the city was a major railway center for both east-west and north-south traffic. From its earliest years the city also profited by its proximity to the industrial cities of Moline and Rock Island across the river in Illinois.” (Gebhard and Mansheim: 65) Davenport parlayed its advantages into a regional commercial center that drove the city’s economy, as described in a 1930s chapter on Davenport in a guide to Iowa written by the Federal Writers’ Project of the Works Progress Administration: “The city has many and varied industries, but it is noted chiefly as a shopping and trading mart. Second and Third Street shops cater to the farming and small-town people on the Iowa side and also attract shoppers from the larger centers on the Illinois side, for the Tri-Cities constitute a closely-knit community with a large interchange of business.” (Federal Writers: 212)
1850s: The pioneer city saw its population double every few years during the 1850s, from nearly 2,000 in 1850 to more than 11,000 in 1860. “By 1850, a boom mentality infected the city. The rapid influx of German and Irish immigrants and the accompanying commercial expansion encouraged real estate speculation and dreams of becoming a big city,” note Svendsen and Bowers. (Svendsen and Bowers 1982: 5-1) The 1850s commercial and related construction saw vernacular frame, stone, and brick construction, although the few extant buildings are of stone or brick, few pre-Civil War buildings remain extant in the central business district. The 1857 financial panic slowed the pace and led to some business failures. Even still, by 1858, the city boasted about 400 retail operations; the solidly constructed 1859 Italianate Wupperman’s Block (508 Brady St.) with its double storefront and upper fraternal lodge hall is the oldest storefront building within the Historic District. The stone G. Hager & Co. Carriage Works (rear of 312 W. 3rd St.) is the oldest commercial-related building within the Historic District and represents manufacturing facilities that also sold its products; an 1857 advertisement for George Hager Carriage Manufacturer states: “New Carriage Manufactory. George Hager, formerly in company with A. & G. Woeber has now associated himself with Charles Griesel, in the new stone shop on Third between Harrison and Ripley streets, where they are prepared to manufacturer to order all kinds of Carriages, Buggies, Spring Wagons, &c.” (Iowa State Democrat, August 1, 1857: 1)

1860s: Due to the railroad and river traffic, by the 1860s Davenport had become a notable city on the Mississippi, although smaller than Dubuque and St. Louis. Its population grew from some nearly doubled to about 19,000 during this decade. (Svendsen and Bowers 1982: 1-4) The Civil War brought prosperity to Davenport as it was named the state’s military headquarters. Changes in state and federal banking regulations ushered in a new era of banking with stabilized lending and monetary supply; the First National Bank of Davenport became the first bank in the country chartered under the National Banking and Currency Act of 1863. (Christensen: 279) Although no bank buildings survive from this era, successor institutions would go on to flourish and build grand banking facilities in later decades. (Svendsen and Bowers 1982: 5-3–5-4; Richter, January 9, 1921: 3+) New hotels opened in the city, with the 1867 Italianate St. Charles Hotel (302 W. 3rd St.) being a rare-surviving early extant example (it is missing its cornice but otherwise appears intact). Mathew Reilly (sometimes misspelled Riley) constructed the 3-story red brick Italianate building for $10,000 for use as St. Charles Hotel and boarding house; he continued the operation for about two decades. Saloon and billiards operated on 1st floor; hotel on 2nd and 3rd stories. (Daily Davenport Democrat, “Improvements on
Harrison Street," May 9, 1867: 1; November 16, 1867: 1) As of the 1950 Sanborn map, the 1st story had five storefronts and the upper stories were occupied by a hotel, as were the adjoining upper stories of 312 W. 3rd St., demonstrating long-time use. The Philip Worley House with attached doctor’s office demonstrates the early location of housing close to the commercial core.

1870s: In the 1870s, population growth (to a high of nearly 22,000) and commercial growth continued, despite the financial panic of 1873. (Svendsen and Bowers 1982: 1-5, 5-3) The 1870s saw Italianate-style construction, with mainly two- and three-story buildings surviving; few buildings from this era remain extant in the central business district. The 1870 Hender Hardware Building (217 Brady St.) is a rare-surviving well-designed (likely by an unknown contractor) Italianate 3-story masonry storefront that housed Hender’s stove and hardware store, two entrances to upper stories (originally 2nd floor offices and 3rd floor flats), and a side basement entrance located on the side alley. (The Daily Times, “Walter Hender & Sons,” March 1, 1888: 16) The 1874 Henry Berg Building (246 W. 3rd St.) offered a similar set up, with highly decorative stone window hoods contrasting with the red brick walls setting apart Berg’s gunsmithing operation. (Daily Davenport Democrat, “Handsome Improvement: Henry Berg to Erect a Block of Stores…” February 17, 1874: 1; The Daily Times, “Still an Active Gunsmith at 77,” April 21, 1951: 19) The 1877 red brick Italianate Forrest Block (401 Brady St.) demonstrates the rapid expansion of commercial activity into former residential areas and again with enduring construction: politician and developer John Forrest redeveloped his personal homestead where he resided for 33 years into a 3-story double Italianate business block with upper rental halls. (Quad-City Times, “Improving Fourth Street,” May 24, 1888: 1) The founding of J.H.C. Petersen’s dry goods store in 1872 has been noted as the most important retail development of the decade; Petersen quickly moved into wholesaling along with developing a retail chain of stores that continues today (Von Maur department store). Davenport Plow Works founded in 1871 experienced boom times before decline and demise in the mid 1880s. Another 1870s light industrial building that remains at the edge of the commercial district is the U.N. Roberts & Co. Block, used by the planing company before it moved outside of the central business district to larger quarters. The 1873 brick City Market quickly proved unsustainable, perhaps due to the proximity to the railroad tracks (noted to have frightened the horses of farmers); it was soon after converted to a calaboose. (Christensen: 273-272)

1880s: During the 1880s, continued German immigration helped boost the city’s population to nearly 27,000 by the decade’s end. The 1890 census showed about a quarter of the residents of Scott County to be of
German natives. (Svendsen and Bowers 1982: 1-7) Commerce grew, too, with wholesaling increasing due to cheaper rail shipping rates for Davenport businesses due to the continental railroad rate boundary at the Mississippi River. New bank charters occurred in the 1880s and 1890s, that helped the commercial environment. (Svendsen and Bowers: 1-5, 5-3, 5-4) However, some manufacturing that had boomed in earlier decades bottomed out, with Davenport Plow Works/Globe Plow Works shuttered and the large Woebber Brothers carriage works transferred to Denver. The 1880s saw Italianate-style construction, mainly two-and three-story buildings remain extant; few buildings from this era remain in the central business district. The 1882 Charles Worley Livery (425 Brady St.) is a simple Italianate 2-story brick semi-attached livery with three segmental-arch-top windows on upper story built by Charles Worley adjoining his childhood home. (David Cordes, ISIF, 2014) Between 1887-1889, laundryman and shirt maker C. Cruys built an Italianate brick commercial building for his business C.O.D. Laundry and tenants (112 W. 3rd St.) and added a third story in 1889. (Davenport Weekly Republican, brief, August 10, 1889: 1; Davenport Democrat, “New Barber Shop,” January 19, 1890: 5) And Forrest built a large addition to his Forrest Block (112-114 E. 4th St.) making it one of the largest mixed-use buildings in the downtown; design attributed to Clausen. (Newspaper coverage did not list contractors or designers.)

**1890s:** The 1890s saw population growth to more than 35,000 that came not primarily from European immigration but from growth of jobs luring workers such from rural Iowa and Illinois, as well as Easterners. (Svendsen and Bowers 1982: 1-5, 5-3) The influx of residents sparked an overall building boom, despite the 1893 panic that slowed construction nationally. As the century turned, new construction included downtown apartments, as noted by The Daily Times in 1899: “The era of the flat building and of the apartment house is upon us. With our increasing population they have become a necessity. Easterners moving into this city with their families much prefer the uncomfortableness and crampedness of a downtown flat than the freedom of a dwelling in a remote part of the city. The influx of population must constantly increase instead of diminish, and this by the grace of the new [Government] bridge... will come factories and with them artisans and operatives while the manufacture of small arms [at the Rock Island Arsenal] must employ thousands from outside cities....” (The Daily Times, “Some Observations,” March 25, 1899: 13) New banks entered the marketplace such as the Farmers’ and Mechanics’ Savings Bank (218 Harrison Street), begun in 1892 in leased quarters and in 1897 completed construction of its own Richardsonian Romanesque bank building designed by noted local architect John W. Ross, who also designed the 1895 Davenport City Hall Building. (The Davenport Weekly Leader, “A New Bank Building,” July 10, 1896: 1) The city held a national call for city hall designs, which brought the spotlight on Ross after his Richardsonian Romanesque design was selected. Ross may have had a hand in designing many of the fine but unattributed other extant Romanesque Revival buildings that remain downtown. The Scott County Jail (400 W. 4th St.), opened in 1898, is located across the street from city hall; the 3-story jail is also of stone in the Richardsonian Romanesque style and remains in use.

Existing businesses invested in more substantial buildings such as the 1892 J.H.C. Petersen’s & Sons grand department store (121-131 W. 2nd St.), which would become the flagship for the successor department store Von Maur, which continues today. Davenport’s own F.G. Clausen detailed a Richardsonian Romanesque 4-story department store of red brick, terracotta, and highly decorative brickwork modeled on Chicago architect Daniel Burnham’s 1888 Chicago Rookery Building, which had been publicized for combining steel framing and large plate glass expanses with elaborate brickwork and Romanesque ornamentation. (Bowers and Svendsen, “J.H.C. Petersen Building,” NRHP, 1983; The Daily Times, “A Great New Building,” April 24, 1891: 4; Quad-City Times, ”Proposals to Remove,” January 13, 1892: 1; advertisement, October 7, 1892: 1; Bowers and Svendsen, “J.H.C. Petersen Building,” NRHP, 1983) Also the 1893 Julius Eckhardt Building (305 Harrison St.), a Romanesque Revival 4-story masonry commercial building with Eckhardt’s meat market on the first story and three upper levels of leased flats; Eckhardt continued at this location until his retirement in 1910. (The Daily Times, “Harrison Street Real Estate Sold,” November 2, 1910: 14; “Obituary: Eckhardt,” June 8, 1914: 7; Quad-City Times, “Oldest Butcher in City Retires,” June 30, 1910: 12) The c. 1896 Donohue Building (114 W. 3rd St.) calls attention to the Davenport Water Company, founded in 1872 with an exclusive franchise from the city. The company efficiently provided water and received a renewed franchise in 1889. (Christensen:
304-305) Company president James P. Donohue remodeled an existing building on W. 3rd Street in the Romanesque Revival style for the utility corporation.

Wholesaling also expanded, with the 1895 F.T. Schmidt & Son wholesale liquor house (115 E. 3rd St.) being one such extant example finely detailed in Richardsonian Romanesque on a smaller scale building; it included tenant space on upper levels. An industrial history of Scott County notes that near the end of the 19th century, the county, with operations centered in Davenport, supported 150 some wholesaling firms. Also during this era, national companies began to have a growing presence, such as the McCormick Harvesting Machine Company agricultural equipment dealership that found a home in the 1899 H.E. Ficke Building (307 Harrison St.) showroom. *(Quad-City Times,* "Getting Planted," November 1, 1899: 4; city directories) Owner Henry E. Ficke, a Hamburg, Germany, native and farm implement dealer, built nine flats on the upper three stories. *The Daily Times* noted it as one of seven new “flat buildings” (apartment buildings) being constructed in 1899 near the central business district, with more needed to provide up-to-date family accommodations for the city’s growing population. *(Davenport Weekly Republican,* “Ficke Building,” February 4, 1899: 5; *The Daily Times,* “Some Observations,” March 25, 1899: 13) The property remained in the Ficke family for more than five decades. *(The Daily Times,* “Close Pool Hall After 50 years,” July 1, 1950: 9)

*1900s:* The turn of the century witnessed Davenport continue as the dominant of the three Tri-Cities in population (Davenport reached 43,000 population by decade end), commercial growth, and local finely designed and built architecture. Downtown buildings of taller heights appeared, and revival styles that took cues from Chicago architecture appeared. New buildings appeared farther north from the riverfront. The 1906 Beaux Arts-style Commercial Club’s clubhouse at W. 4th and N. Main streets and the 1907 classical-styled Davenport Hotel across the street provided modern amenities that appealed to businessmen and business travelers. The 3-story Commercial Club would become a powerful voice for continued business district improvements through the 20th century, becoming the chamber of commerce. *(Quad City Times,* “Authorized a Contract,” February 23, 1906: 10) The Renaissance Revival 6-story Davenport Hotel (324 Main St.) included retail storefronts along 4th St. In 1905, stockholders incorporated the Davenport Hotel Company to build a modern hotel roughly equidistance from the two passenger depots; the hotel highlighted its steel and concrete fireproof design, dining room, rooms most with private baths, and 6th-floor convention hall. *(The Daily Times,* “Ready to Start on Steel Work,” July 12, 1906: 4; “Davenport Hotel Observing 25th Birthday,” November 3, 1932: 6) Hotels and theaters were two important downtown Davenport early 20th century property types; the oldest extant theatre building in the Historic District is a double storefront that was home to the Star Theatre (222 Harrison St.) from 1909 to 1946. *(City directories)*

---

**Figures:** Left: Schricker Flats were celebrated for their modern amenities. *(Quad-City Times, August 13, 1905: 6)* Right: The Davenport Hotel and Commercial Club were popular postcard images in the early 1900s and
The 1900s saw a number of redevelopment projects, as new construction replaced fire-damaged buildings such as the 4-story Renwick Building rebuilt in 1901 by sisters Margaret and Rebecca Renwick for a furniture store tenant (324 Brady St.) as part of their commercial investment properties. *The Daily Times*, “The contractor for the erection of the Renwick building…” May 16, 1901: 5; “Big Store Opens,” October 12, 1901: 5; “Aged Member of Old Family is Called to Rest,” August 13, 1919: 16; *Quad-City Times*, “Rebecca Renwick Estate Valued at $148,881.65…” January 29, 1933: 10) The Renwick Building fire also damaged neighboring buildings, leading to reconstructed Winecke Block (tailor shop, 318 Brady St.) and M.J. Eagal Building (grocery, 320 Brady St.), two owner-occupied businesses with additional leasable offices and flats. *(Davenport Morning Star*, “From Out of the Ruins,” February 21, 1901: 7; “The Golden Eagal,” December 5, 1901: 6) The Ferd Haak tobacco wholesaler and cigar manufacturer built new facilities west of the main central business district, after losing his factory to fire; his 1903 Davenport Leaf Tobacco Co. (319 Western Ave.) and Beaux Arts-styled showroom and cigar factory (527 W. 4th St.) was just a block from the new 1901-1902 Central Fire Station (425 W. 4th St.), which provided improved fire protection for the business district. *(Quad-City Times*, “Will Wait,” June 11, 1901: 4; “The New Station,” May 24, 1902: 5; *The Daily Times*, “Big New Factory Is to be Built,” March 14, 1903: 4; *The Daily Times*, “In Possession of New Factory,” November 19, 1904: 11)

The 1901-1903 elevated train track at 5th Street ended traffic jams caused by the frequent trains through the city, also increasing public safety as well as convenience. Another rail-related resource, the Iowa & Illinois Interurban depot and waiting room moved into the 217 Brady St. storefront c. 1904 and remained there until 1921; passengers boarded from the street. Other storefronts supported entertainment: the Star Theatre began operations c. 1909 in half of a double storefront (222 Harrison St.) Commercial-style 1-story masonry double storefront with elegant thin cast-iron storefront system and cornice. A movie theater operated there until 1947.

Buildings continued to be remodeled to update mid-19th-century buildings for the 20th century: the 1904 Central Office Building (224 W. 3rd St.), for example, reworked an 1860s Woebers carriage works plant into office suites, so successful that the owner doubled the size with a large 1907 addition of more office space. *(The Daily Times*, brief, May 27, 1907: 5) *(The Davenport Democrat and Leader*, “Cordes Building Is to Be Transformed,” April 24, 1904: 5; *The Daily Times*, “Schiller Company has Grand Opening,” October 24, 1904: 6) And the city sold the cramped 1850s Old City Hall (514 Brady St.) to John Ochs’ Sons realty firm, which converted the building to six flats called the Oxford Flats. *(The Morning Democrat*, “The new engine house…” September 16, 1857; *Daily Leader*, Oxford Flats,” March 1, 1900: 4) Other apartment buildings such as the 25-unit Schricker Flats (401 W. 4th St.) replaced aging houses with up-to-date apartment units, which provided convenient housing for downtown employees and an important investment for marble and granite dealer John C. Schricker, who continued to manage the property until the 1950s. *(Quad-City Times*, “May Be Let During Week,” April 30, 1905: 7; city permits; “Purchases Building,” January 26, 1955: 9; “Revisiting Schricker’s Glory Days,” June 24, 2003: B1)
W. 2nd St.) designed by Daniel Burnham’s Chicago architectural firm and 7-story Hotel Blackhawk (200 E. 3rd St.) in 1915, then added onto in 1920-1921 to become 11 stories to attract conventions in the post-saloon era. (McCarley, “Putnam-Parker Block, 2011; The Daily Times, “Hotel Complete One Year After Blasting Began,” February 17, 1915: 39; “To Enlarge Blackhawk,” January 17, 1920: 7; “How Blackhawk Hotel Will Appear After Addition of Four Stories,” May 11, 1920: 8) One of the last buildings completed during this decade, the Classical Revival 1919 Scott County Savings Bank (302 Brady St.) was built as 1-story skyscraper base with granite exterior and engaged pilastered framing tall windows as designed by Clausen & Kruse, intended to support 8 additional stories; but permission to build a skyscraper was denied by the federal government during WWI. (Quad City Times, opening ad, October 24, 1919: 21; “New Home of Scott County Savings Bank,” October 24, 1919: 23; “25,000 Persons Are Received at Bank Home,” October 26, 1919: 13)

Overall, financial institutions grew in prominence, claiming Davenport as the state’s financial center and the “Richest City.” (Svendsen and Bowers 1982: 5-3) Hotel construction increased as the city sought to attract trade conventions and travelers to replace vice that had flourished openly on the east end of the business district where prostitution, gambling, and 24-hour saloons were permitted until state vice laws tightened and included the 1916 state prohibition. Two smaller buildings that include finely detailed rendering are the 1916 Janssen’s Refreshment and Amusement House (224 W. 3rd St.) with white terra-cotta façade hosted a “refreshment and amusement house” that opened the year that the Iowa prohibition began; it calls attention to the architectural response to the state prohibition. It adjoins a large multi-tenant corner storefront building, the M.D. Petersen Estate Building, which featured a dozen storefronts with large windows and terrazzo floors including a popular cigar store. (Quad-City Times, “Improvement on Northwest Corner Third and Main,” December 31, 1916: 25)

During the same time as the state prohibition took effect, World War I hostilities toward Germany and Germans increased, forcing changes in Davenport’s business community, which included many German immigrants, according to Steven Wrede’s study of Americanization in Scott County between 1914 and 1918. (Wrede) At the time, up to one-third of Scott County residents were of Germanic heritage, four of Davenport’s mayors between 1890 and World War I were German-Americans, and 80 percent of children in Davenport public schools were studying German. (Wrede: 633-634) Congress passed an Espionage law in 1917 that banned foreign language newspapers such as those in Davenport, and Iowa Governor William Harding in
1918 signed an English-only language proclamation. (Wrede: 627, 633) Rapid elimination of German language included banning German language instruction in schools and burning German language books, ending German church services, and banning German speaking in clubs. (Wrede) Germanic businesses had to take a pro-American stand or close. The German language newspaper Der Demokrat closed in 1918, and newspapers such as the Davenport Democrat and Leader took a strong stance on Americanization. (Wrede: 638) Other Germanic businesses changed their names and instituted English only policies in business transactions; for example, the powerful German Savings Bank, reputedly the state’s largest bank, changed its name to the American Commercial & Savings Bank in 1918 and would go on to build the city’s tallest building in 1928 (Davenport Trust). (Wrede: 628; The Davenport Democrat and Leader, “Will Chisel Out Name,” November 19, 1918: 15)

Figures: Left: German immigrant Dorothea Runge built this 4-story retail with upper level apartments. (The Daily Times, Dorothea Flats, December 30, 1910: 14) Right: This ad attributes the Dempsey Hotel business to George Dempsey, but later newspaper coverage included George and Anna Dempsey as a husband-wife hotelier team. (The Daily Times, Hotel Dempsey ad, December 29, 1914: 8)

At least four extant 4-story masonry buildings from this decade demonstrate women successfully developing and managing commercial properties and businesses:

- 1910 Louisa Beiderbecke Building (111 W. 2nd St.), a 4-story specialty store which became home to the successful Abrahams women’s clothing store that grew into a large national chain of stores. (The Daily Times, “Plan New Building on Second Street,” March 23, 1910: 6; Quad-City Times, “New Store Will be Opened Soon: Beiderbecke Bldg. . . .” September 12, 1911: 13)

- 1910 Dorothea Flats (311-317 W. 3rd St.), 4-story triple storefront with upper apartments, erected by German immigrant Dorothea Runge. (The Daily Times, “New Four Story Flat on Third,” March 1, 1910: 6; “Old Resident of City Dies,” January 13, 1915: 10; “Dorothea Flat Building Sold for $125,000,” October 2, 1919: 5)

- 1913-1914 Hotel Dempsey and Annex (410 Main St.), a 3-story Prairie Style masonry hotel designed by Davenport architect Arthur H. Ebeling. This independently owned hotel building is associated with the early-20th-century local hotel trade, demonstrating Davenport’s importance for rail travel and trade conventions. Proprietors George S. and Anna Dempsey constructed the hotel in two stages, starting with 40
rooms, adding 30 rooms in 1914. Located a half-block south of the Rock Island depot, it was formerly the site of the Cottage Hotel. The Dempseys advertised the hotel as modern and fireproof, constructed of concrete, brick, and steel. (Quad-City Times, “Hotel Dempsey is Enlarged… “ December 29, 1914: 8; “George S. Dempsey, Hotel Man, Davenport Civic Leader, Is Dead,” March 19, 1944: 1)

- Between 1917-1919 the Morris Plan Bank (Frey Apartments commercial space, 214 W. 4th St.) was headed by the only woman bank manager in the system, Lucy B. Milligan, until 1919. (Quad-City Times, “Manager for Morris Plan Bank Resigns,” August 8, 1919: 5; city directories)

The rise of the automobile led to horse-powered transit liveries and carriage-related buildings giving way to new auto dealerships and service centers. (Svendsen and Bowers 1982: 5-3) For example, the 1916 Thomsen Motor Co. garage (325 Harrison St., now combined with 223-227 W. 4th St.) a 1-story Prairie Style auto dealership garage that includes centered bifold garage door; reflective of the tumultuous early auto industry, the Mitchell dealership changed hands four months after opening and operated as Mitchell Car Co. of Davenport. (Quad-City Times, “Thomsen Motor Co. Will Build,” March 9, 1916: 14) Overall construction trends saw Prairie Style, Commercial Style, and Classical Revival styles predominate, with Chicago architecture continuing to inspire local designs. The 1912 4-story Walker Flats (108 W. 5th St.) features stylized Prairie-style stone and brickwork details. The 1914 Frey Apartments (210 W. 4th St.) feature oversize Prairie-style brackets supporting dramatically horizontal overhangs over windows.

The 1916 Wagner Printery represents a long-established company making an investment in the commercial district, with a Chicago-style 2-story masonry printing plant built during the 1910s downtown building boom. Herman L. Wagner founded the company in 1879 on W. 3rd Street, then moved to Harrison St., before constructing this “modern, fireproof” facility would in 1929 receive a rear press room addition. (The Daily Times, “Wagner Printery Success…” July 11, 1936: 129 50th anniversary) The company’s printing work included City of Davenport projects; City Hall is located a half block east of this building. The Wagner firm would come to represent changing business practices in 1966, when the company relocated to a suburban-style industrial park as the interstate freeway system and suburban-style development drew businesses away from downtown. (Quad-City Times, “Wagner’s Printery Buys Out Offset Printing Firm,” November 8, 1946: 4; The Dispatch (Moline, Illinois), “Printing firm credits success…” February 7, 1993: AA14)

1920s: Davenport’s population growth slowed in the 1920s, adding only 4,000 new residents to about 60,000 residents. Construction at the beginning of the decade proceeded to new heights—the city’s tallest buildings were built during this decade. The 1920s in Iowa also included a growing farm crisis that had financial reverberations for all. Construction in this era stretched higher with low-rise skyscrapers changing the skyline, saw a move away from brick facades, and referenced Chicago architecture. The 10-story terra-cotta-clad Kahl Building with Capitol Theatre (326 W. 3rd St.) showcased the Rapp and Rapp Chicago architecture firm, specialists in theater design, along with Davenport associate architect Arthur Ebling, AIA, and Walsh-Kahl Construction Co. building the Sullivanesque 10-story office skyscraper. Portrayed as a high class office building, when it was completed in 1920 all suites were leased and the vaudeville/movie theater was noted for its luxury, that soon merited a theater stage addition in 1925. (Quad-City Times, “Kahl Building Puts Davenport in Skyscraper Class,” May 23, 1920: 3) As previously mentioned, the Hotel Blackhawk expanded to 11 stories with a vertical addition designed by Temple & Burrows, architect for 1915 main building, completed in the early 1920s. The 1922 7-story M.L. Parker department store building (104 W. 2nd St.), erected by the Putnam Estate to match its 1910 Putnam Building, brought back the Chicago architecture firm that succeeded Daniel Burnham to design the low-rise skyscraper department store. The Chicago Commercial-style 7-story department store is the same height as the adjoining Putnam Building, but has taller ceiling heights and thus is a story shorter. The Parker department store operated here until it was sold to competitor Petersen-Harned-Von Maur in the early 1970s and closed in 1975 as part of the retail departure from downtown. (McCarley, “Putnam-Parker Block, 2011)
The skyscrapers that brought the most attention to the city were banks. Banks built skyscrapers clustered around 2nd and 3rd streets, projecting their wealth and stability through architecture. Davenport played an important role in regional financing in eastern Iowa and beyond, as the largest city in the region and heavily financed in the early 20th century, boasting some nine banks. (*The Daily Times*, “Nine Banks,” November 12: 1938: 72) The architectural legacy showcases local architects as well as regional bank designers from Chicago and beyond. (By 1932, all nine of the city’s banks had merged, closed, or failed due to the 1920s farm crisis and Great Depression. In their place, two new banks arose in the 1930s.)

*Figure: Left: Construction of the Kahl Building generated intense newspaper coverage. (Quad-City Times, “Cream Terra Cotta Will be Exterior Finish…” October 8, 1919: 14) Middle: Expansion of the Hotel Blackhawk captured local attention. (The Daily Times, Dec 30, 1920: 19) Right: Rendering of $1 million First National Bank. (Quad City Times, July 17, 1924)*

Three locally significant and architecturally significant banks were constructed downtown Davenport in the 1920s:

• In 1923 the Renaissance Revival 9-story First National Bank Building (201 W. 2nd St.) opened, noted as the “New Million Dollar Loop Skyscraper” designed by Chicago architect O.H. Breidert with Childs & Smith. Artist Adolph A. Weinman, who designed the silver dollar, detailed the elaborate metal friezes on the building, highlighting the richly appointed decorative arts aspects that 1920s banks adopted. The prosperous bank, which began in 1863 as the first under the National Banking Act of 1863, constructed the new building to replace one lost to fire with professional offices included in the tower. (*Daily Democrat and News*, “National Bank Meeting,” June 1, 1863: 1; *The Davenport Democrat and Leader*, “Architecture of Bank Home Wins Highest Praise,” December 10, 1924: 9)

• In contrast, in 1924, Union–Davenport Bank erected a Classical Revival style L-shaped low-rise skyscraper on top of its 1909 1-story bank building, to create a 7-story skyscraper (229 Brady St.). Davenport-based Temple, Burrows & McLane designed the small 1-story 1909 limestone bank and developed the vertical addition described as a thrifty solution: “To avoid needless expense, the architects have used the present bank wall to the north and west as a base, the architectural motif to be continued over the entire ground area. ....” (*Quad-City Times*, “Give Contract for New Union Savings Bank,” July 23, 1923: 3) Charted in 1891, the bank expanded over time by absorbing other local financial institutions. The 1923-1924 skyscraper expansion
for Union–Davenport Bank Building cost $820,000 and created an important interwar office building noted as “ultra-metropolitan, modern, and substantial.” (Quad City Times, “The New Union Savings Bank Building,” January 25, 1909: 10; The Daily Times, “Union-Davenport Bank Building Edition,” September 30, 1924, special section) The building is associated with Davenport’s financial prosperity in the early 20th century, with the 1926 consolidation with Scott County Savings Bank to form Union Savings Bank & Trust Co. (Svendsen)

- In 1928, American Commercial and Savings Bank built the tallest building in the city, the Classical Revival 12-story skyscraper topped by a four-faced clocktower (203 W. 3rd St.). Designed by architecture firm Weary & Alford Co. of Chicago, the bank spent $2 million for the office building—the city’s largest. Local architects and contractor provided local coordination. During construction, the Iowa National Bank merged with American, forming one of the largest banks in Iowa, if not the largest. For all its long history (formed in 1869), the bank was liquidated in 1931 during the Great Depression. (The Daily Times, “American and Iowa National Merge,” August 30, 1927: 1; “American Commercial & Savings Bank Building,” July 27, 1928: special section; Quad City Times, “Will Build $1,500,000 Bank Here,” August 2, 1926: 1; “Davenport at One Time Had Eleven Banks,” December 27, 1932: 2; Davenport Bank to Expand Customer Area by 50 Pct.,” July 22, 1963: 14; “8-Year Project Near End,” March 21, 1971: 2F) Three other high profile buildings from the early 1920s are also important to note: the Cusack Co. office, the Eagles clubhouse, and the Democrat newspaper plant. Chicago architects Zimmerman, Saxe & Zimmerman designed the 1922 Thomas Cusack Co. office, turning the tragedy of the Burtis Opera House (415 Perry St.) fire into a Phoenix-like new commercial opportunity for the property owner, who merged his outdoor advertising side business with that of the country’s largest, the Cusack Co. After the 1921 fire, the long-time Burtis Opera House operator-owner and outdoor advertising businessman Charles T. Kindt remodeled the building for the Chicago-based Thomas Cusack Co. outdoor advertising firm, of which he was district manager of the Davenport branch. The Chicago-based architects Zimmerman, Saxe & Zimmerman worked nationally for Cusack and other corporate clients. The 1921-1922 remodeling reused the extant walls of the Burtis Opera House, which were undamaged by the fire. The $40,000 remodeling updated the façade and created front offices and rear artist studios, workshops, paint rooms, and storage rooms for the Thomas Cusack Co. outdoor advertising Davenport regional office. (Quad City Times, “Old Burtis Opera House to be Repaired and to be Leased to Cusack Co.,” July 14, 1921: 15; “To Start Work Soon on Cusack Building Here,” July 29, 1921: 9) The Cusack company was noted as the world’s largest outdoor ad firm in 1921. The Davenport office negotiated display advertising placement and distributed poster ads and painted display signs to eastern Iowa and western Illinois. In the mid 1920s after Cusack’s death, General Outdoor Advertising Co. took over the plant, and remained in the building until circa 1939. (The Daily Times, “Business Begun in 1890 Continued by Advertising Firm,” July 11, 1936: 84) By 1943, the D.M. King post VFW club house was using the space. And by 1954, the Iowa State Employment Service officed in the building. (The Daily Times, “New District Headquarters of Cusack Co.,” January 31, 1922: 10; “The City Council,” November 11, 1943: 15; “Chas. T. Kindt, ‘Grand Old Man of Theater,’ Dies at 86,” July 11, 1947: 1-2)

Davenport architects Clausen & Kruse architects designed both the Eagles clubhouse and the Democrat newspaper plant. The firm’s 1923 Georgian Revival Eagles lodge and ballroom (501 W. 4th St.) provided elegant private clubrooms, a ballroom opened to the public, and street-level auto showroom. The building generated press coverage for its strong local architectural direction. (The Daily Times, ad, February 18, 1924: 28) The 1924 Democrat newspaper plant (407 Brady St.) also by Clausen & Kruse, drew on Louis Sullivan’s aesthetic with a smooth ashlar Bedford stone wall surface embellished with carved stone floral and geometric designs and elaborate stone and terra-cotta cornice, onto which is incised the name of the newspaper, “The Democrat.” to create an enduring unique statement for the outspoken press. (Quad-City Times, “New $300,000 Plant on Brady Street to be Dedicated April 1….,” December 31, 1923: 15; Bowers and Svendsen) The building is associated with both the original occupant, The Davenport Democrat and Leader newspaper, noted as one of the leading newspapers in the state. The newspaper operated here until 1951, after consolidating with The Daily Times. (Christensen: 297) The Catholic Messenger then published from the plant.
from 1956 into the 1970s. (Quad-City Times, “Suggest Democrat Building as Home for Art Gallery,” November 16, 1951: 15; “Messenger Occupies New Home,” December 3, 1956: 20) The building’s architecture has been noted as a locally important example of Chicago architect Louis Sullivan’s influence. (Bowers and Svendsen)

1930s: During the Great Depression, the city’s population grew more slowly, adding some 5,000 residents to about 66,000 total. The early 1930s saw projects that had begun before the stock market crash completed such as the 10-story Art Deco Hotel Mississippi with Orpheum Theatre. Government construction also occurred, with the U.S. Court House and Post Office Building being an excellent example of “PWA Moderne” streamlined style. Bank failures and merges led to the winnowing of Davenport’s banks to just two. Despite these challenges, the late 1930s saw smaller-scale commercial buildings, many with auto-related ties. The major works of architecture and commercial achievements for the decade:

- 1931: Hotel Mississippi–RKO Orpheum Theater (106 E. 3rd St.). Art Deco 10-story hotel cost $2 million by owner/developer George M. Bechtel, known as “father of Iowa municipal bonds” for his company George M. Bechtel Co., founded in 1891, and noted as the most important bond house in Iowa serving most municipalities and school districts in the state. (Christensen: 284-285) Bechtel relocated his firm across the street from the hotel site. Locally significant as the last of the major downtown Davenport hotels and as the largest movie theater built prior to World War II in Davenport, it survives as the most important local example of the Art Deco style and theater has been rehabilitated. The building also calls attention to the work of two nationally significant designers — Chicago architect A.W. Graven and New York theater designer Henry Dreyfuss, whose work on the project began in the 1920s during the end of the golden age of American theater construction. (Svendsen 1998; The Daily Times, Hotel Mississippi special section, November 23, 1931)

Figures: Left: Hotel Mississippi 1932 view; (image courtesy Richardson-Sloane Special Collections Center, Davenport Public Library. Located behind the hotel is the super service station. Right: Jesse Hawley Super Service Station (The Daily Times, Jesse Hawley’s Super Service Station ad, November 12, 1938: 4)

- 1933: U.S. Court House and Post Office (aka Federal Building, 131 E. 4th St.) Restrained Art Deco 3-story building of Kasota stone and granite with strongly vertical windows and patterned metal spandrels. Davenport architect Seth J. Temple began plans for a $665,000 post office and U.S. court house by 1931; the project finished in 1933 under budget, costing just $500,000. Lobbying for a new post office had begun by the 1920s, when new office buildings and hotels increased mail in the downtown area. The old post office, a 1889 rusticated stone Romanesque Revival, had been enlarged but was deemed insufficient. In 1932, wrecking crews took down the building and the new cornerstone was laid in October 1932. Remodeling took place in

*Figure: Blackhawk Garage, completed 1937. (The Davenport Democrat and Leader, “Garage Has Biggest Unbroken Floor Space," January 3, 1938: 3) Right: Mac’s Tavern, circa 1936. (James, 2018)*

- c. 1934: Mac’s Tavern (316 W. 3rd St.) The Depression-era remodeled storefront features structural glass in green and black, plus a vintage neon sign.

- c. 1936: Jesse Hawley Super Service Station (327 Brady St.) Art Deco 2-story brick super service station with stone accents setback on its corner lot, reflecting historic location of gas pumps. Cant corner is original; highly decorative brickwork on engaged pilasters with stone bases and capitals that enframe upper story windows and pedestrian doors and garage bays. 1-story north side addition added c. 1964. (building permits) Associated with the growth of the automobile. Corner lot that had been used for used car sales built for Jesse Hawley’s Super Service Station by 1936. Hawley sold Mobil products and in the late 1930s advertised complete service from 6 a.m. to midnight. Converted to non-filling station uses after 1950 Sanborn map.

- 1937: Blackhawk Garage (414 Perry St.) Restrained Art Deco 1-story auto garage with brick piers topped by fluted stonework by an unknown architect; boasted the largest open (“post-free”) floor space in the city at its opening in 1937. Nearly symmetrical façade of variegated buff brick divided by four brick piers topped with carved fluted stonework; between piers is a centered auto bay flanked by large storefront windows (covered). Stepped parapet with stone coping fronts the trussed arched roof. Side walls are concrete block. Wide frontage of about 90 feet, extending 150 feet to rear alley, where a rear garage bay (infilled) provided through circulation. (*The Davenport Democrat and Leader*, “New Building Gains,” November 19, 1936: 13) Construction began in November 1936 of the $17,000 garage, noted as one of the largest car storage garages in the Tri Cities. (*The Davenport Democrat and Leader*, “Slavin to Build Garage 90 by 150 Feet, on Perry Street Near East Fourth,” October 16, 1936: 2) At the March 1937 opening, the garage was leased by Fred Willey (president of Yellow Cab and Hertz Drive-It-Yourself cab lines), with car leasing, 150-car storage capacity, and auto servicing. (*The Daily Times*, “New Blackhawk Garage Will Be Opened...
Thursday, March 31, 1937: 13) A 1938 newspaper photograph of the new garage proclaimed: “The new Blackhawk garage, 416 Perry Street, which was completed in 1937, has the largest unbroken floor space of any building in Davenport.” (The Davenport Democrat and Leader, “Garage Has Biggest Unbroken Floor Space,” January 3, 1938: 3) The building represents the growth of automobile usage in downtown Davenport.

1940s-1950s: During the war and post-war eras, Davenport’s population and business district benefitted from war manufacturing at the Rock Island Arsenal. In 1940 the city population was 66,000; in 1950 the population was 74,500, and in 1960, it had reached about 89,000. As noted by architectural historian Michael Allen, Davenport continued to enjoy economic growth and its status as the undisputed leader in the Quad Cities for financial services and commerce, which propelled suburbanization. (Allen: 8-12) As in most cities, new construction shifted to occurring outside of downtown, as merchants began relocating to follow suburban-style development on the outskirts of the city. Parking, traffic flow, and land use became key areas for planning and construction, with the city hiring circa 1945 planning engineers Harland Bartholomew and Associates of St. Louis to conduct various studies concentrated on the central business district. In a 1946 report for the city the planners proposed using part of the river levee area for parking and adding surface and concrete parking ramps (nonextant), which the city executed (Harland Bartholomew and Associates 1946). And in the 1947 report on public buildings, the planners proposed expanding 4th Street as a corridor for public and semi-public use, with a new county courthouse, removal of older commercial buildings along the west side of the 400 block of Brady Street for a surface parking for St. Anthony’s, and introduction of landscaped public areas in place of older commercial buildings. (Harland Bartholomew and Associates 1946). One-way streets were introduced in 1954.

Against this backdrop, in the 1940s, remodeling and planning for projects that would be completed in the 1950s constituted most of the extant downtown construction activity. For example, St. Anthony’s invested in Permastone recladding of brick at St. Anthony’s school, rectory addition, and rear church addition in 1945 and 1948. And in 1946 the former Union Savings bank building, bereft of its financial use, converted the former 2-story-volume banking hall into the “Union Arcade,” with retail shops located in an upper mezzanine above the original 2-story banking hall and pilasters replacing large facade stone columns. Also in the 1940s the county began laying the groundwork for replacing the 1880s courthouse, culminating in a new county building opened in 1956, clad in aluminum panels that literally reflected the importance of the aluminum-producing Alcoa Corp. manufacturing plant in Davenport. In these ways, experimental materials and Modern Movement architectural styles defined some of the architecture in this era.
The major downtown architectural feat in the post-war era was completion of the 1956 Scott County Courthouse (400 W. 4th St.). The Modern Movement 3-story aluminum-and-granite clad civic building was designed by Des Moines architect Chester C. Woodburn of Dougher, Rich & Woodburn and successor Woodburn & O'Neil with Davenport associated architect Arthur Ebeling. The symmetrical façade fronts 4th Street with flat aluminum panels enframing a wall of International Style aluminum windows arranged in vertical columns with fluted aluminum spandrels, with window groupings separated by aluminum mullions, grounded by a granite foundation and stone surround around a centered front entrance. The aluminum windows reflected the use of air conditioning. The architect recessed the building on its site to include a small grassy front lawn with street trees. The Des Moines architecture firm had designed a series of stone-clad county buildings during the PWA era. In Davenport, aluminum cladding was selected as a less expensive alternative to stone and because it was locally produced by aluminum manufacturer Alcoa Corp., which had recently opened an plant in Davenport that included an administration building clad in thin aluminum curtain walls as designed by New York-based Harrison & Abramovitz. (Architectural Forum, “Thin Lightweight Curtain Walls,” March 1950: 95) The Quad-City Times reported at the 1956 county courthouse dedication: “It stands as a monument to a progressive community—the only county building in the country with aluminum-clad walls.” (Quad-City Times, “Features New Building Ideas,” October 21, 1956: 23; “Many Obstacles Overcome In Building Courthouse,” October 21, 1956: 25)
1960s: Although Davenport remained the largest of the Quad Cities communities and the city's population grew during the 1960s, from nearly 89,000 to 98,500, downtown struggled to retain its regional commercial dominance as competition increased from suburban-style development, which accelerated after the 1966 completion of Interstate 80 in eastern Iowa north of the city. In the face of competition, the central business district sought to use modern architecture to “reaffirm the importance of downtown to regional commerce,” as noted by historian Michael Allen. (Allen: 8-14) The First Federal Savings and Loan Association building with its New Formalism style vertical stripes of stone and tinted glazing brought modernism to the city’s downtown banks; it is the first (extant) example of new bank architecture constructed downtown since the late 1920s. The other large modernistic project occurred just one block away, with the city’s new downtown library designed by internationally renowned architect Edward Durrell Stone, FAIA, noted as the founder of New Formalism. Durrell’s library design of tinted glazing and concrete would be the last large civic project downtown until the 1980s. Shopping mall construction along with the aforementioned Interstate 80 freeway completion during and after the 1960s would lead to most new construction being concentrated on the suburban fringes of the Quad Cities.

- The 1966 First Federal Savings and Loan Association Building (131 W. 3rd St.) was the first new bank building constructed downtown since the late 1920s. The design incorporates vertical stripes of alternating Vermont marble and tinted glazing above a base of granite and glass. The savings and loan, founded in 1933, hired architect William F. Cann, with St. Louis-based Bank Building and Equipment Corp., a specialty design/build firm, to execute a Modernistic 3-story bank building. An elevator/stair/service tower within the rectangular façade projects as a solid mass from the façade defined by vertical stripes of alternating Vermont marble and tinted glazing above a base of granite and glass. The original design placed a drive-through facility within the main building; 1975 remodeling moved the drive-through teller to a small rear addition. As noted by historian Allen in his National Register nomination for the bank building: “Leading corporations such as the First Federal Savings and Loan Association took deliberate acts to ensure that downtown Davenport would be revitalized in the postwar era through a wave of new construction that brought the styles of the Modern Movement to the city, and the work of nationally-renowned designers including Edward Durrell Stone. First Federal’s selection of the Bank Building and Equipment Corporation (BBEC) to design its new downtown headquarters occurred early in this growth period, and helped set the architectural tone for subsequent downtown projects.” (Allen: 8-14) It remains the best extant example of Modernistic bank architecture in downtown Davenport; other 1960s and 1970s bank buildings have been remodeled and lost integrity. The 1971 addition to the Davenport Bank and Trust, planning for which began in 1963, provides an inventive architectural solution to parking and additional office space.
• Edward Durrell Stone, FAIA’s New Formalism Davenport Public Library (321 Main St.), begun in 1965 and completed in 1968, provided modern facilities unavailable in the previous structurally compromised Carnegie Library, and brought internationally acclaimed modernistic architecture to downtown. The 2-story rectangular massed concrete-and-tinted glass building is constructed of poured concrete and white pre-cast concrete block. The symmetrical façade fronts Main Street with broad “pierced” overhang projecting from flat roof to form a portico supported by six rectangular columns; overhang continues on sides. The façade features white precast concrete block squares in a stacked bond with five dark tinted glazed fenestrations extending the height of the building with a vertical pattern of muntins and centered doors. The open-concept interior includes a floating terrazzo staircase to the mezzanine and columns that also serve as air-handling. (Groskopf) (The 1904 old library building was vacated after suffering structural damage caused by a 1963 children’s addition that damaged the loose base sand float underpinning the former library, causing cracking and displacing of walls.) Stone retained the rear children’s addition. (Quad City Times, “New Library Work Okayed,” July 8, 1965: 4) The building repeats themes Durrell developed on his 1959 U.S. Embassy in New Delhi, India. (Edward Durrell Stone)

**Significance – Criterion A - Social History**

The Davenport Downtown Commercial Historic District is further significant under Criterion A—Social History. Several of the district’s commercial buildings possess historical associations with civic, fraternal, and religious organizations via lodge halls, meeting rooms, churches, and other gathering places that hosted important social and cultural activities. In the midcentury, three groups built or remodeled new meeting halls on the fringes of the commercial district, again shaping growth and development. The upper levels of downtown commercial buildings served as meeting halls for a number of fraternal organizations, as well as women’s and children’s groups. At least two organizations constructed downtown buildings with leased tenant retail space and upper lodge halls: Hibernia Hall and the Eagles building. Men, women, and youth lodge groups met downtown through the period of significance. The one extant church complex is included for its role in providing meeting space for the community, as well as for religious fraternal organizations. As is typical for a commercial district, fraternal and social organizations used and built halls and clubhouses. The following represent extant purpose-built or remodeled buildings tailored to the needs of the fraternal or social organizations. These groups provided networking and amenities to local businessmen, as well as added to the recreational offerings of the city. Some of the fraternal lodge halls moved out of the central business district during the Period of Significance, such as the Masons, who in 1924 moved into a larger lodge facility.
north of downtown, vacating their old (nonextant) location at W. 3rd and Main streets. Other organizations met in buildings that are non-extant, including the American Legion after founding in 1919 met at the Armory (non-extant) on Fifth St. and Brady. Note: The dates listed below reflect dates of construction for the buildings where social history activities took place.

• 1838-1886: St. Anthony Catholic Church Complex (407 Main St.) The oldest building on the church complex is a 2-story side-gabled 1838 church, repurposed as the parochial school in 1853 upon completion of the Greek Revival limestone church in Latin cross plan with round-arch windows. In 1887 rear transepts and chancel addition were added. These and an addition to the non-extant rectory were clad in Permastone in circa 1953. Public lectures were held at the church such as an 1857 series delivered to the Catholic Literary Institute. (Quad-City Times, lecture ad, June 4, 1857: 2) St. Mary’s Council, Knights of Father Matthew, a fraternal beneficiary organization, met at St. Anthony’s school hall in the early 1900s. The Knights of Columbus chapter, the second in Iowa, held special masses at St. Anthony’s Church, in the early 1900s. Women’s groups such as the 1917 Young Ladies Sodality of St. Anthony’s also found meeting space at the church complex. The parish also played key roles in the fight against vice, with church leaders and members protesting city policies that taxed prostitution, gambling, and 24-hour saloons to the benefit of city coffers and the detriment of the community. In the post-war era, the church again was active in civic justice issues particularly racial injustice. St. Ambrose University professors also played a role in Catholic social action beginning in the 1940s, becoming what has been reported as the first Catholic campus to establish an NAACP Chapter, then a League for Social Justice, which evolved into the Catholic Interracial Council. Founding of the Catholic Interracial Council in 1957 is credited with playing a critical role in Davenport’s Civil Rights Movement; civil rights activist Charles Toney was a founder of CIC and led the group 1959-1969. St. Anthony’s was a meeting place for the local “March on Davenport.” Areas of concern for CIC included jobs, housing, law enforcement, and equal access to businesses for service and job hiring. In August 1963, some 2,000 marchers packed LeClaire Park along the riverfront south of downtown to demonstrate in support of the Iowa Fair Housing Act. In April 1965, the Diocese of Davenport awarded the “Pacem In Terris” Peace and Freedom Award to Rev. Martin Luther King Jr., the third such recipient. (The Catholic Messenger, “Catholics Played Role in Civil Rights Movement,” January 13, 2010. <Available online at www.catholicmessenger.net>; St. Ambrose University, “Civil Rights: Honoring a Commitment to Justice,” December 20, 2016. <Available online at www.sau.edu>. Quad-City Times, “Davenport to honor civil rights movement,” April 16, 2011.)

• 1859: I.O.O.F. Hall in Wupperman Block (508 Brady St.) H.A. Wupperman built the 3-story brick building with an upper level hall noted as “Union Hall,” prior to leasing to the Davenport Lodge No. 7 Independent Order of Odd Fellows (I.O.O.F.). (Morning Democrat, “Odd Fellows’ Hall, August 22, 1859: 1) The group’s hall was dedicated in December 1859, and noted as being on Brady “above Fifth.” (The Morning Democrat, “Dedication,” December 19, 1859: 2) An 1897 schedule showed the I.O.O.F. hall hosting English and German-speaking encampments and lodge meetings, women’s Rebekah meetings. Other organizations also used the hall such as Knights of Pythias. Third floor has been noted as the historic Independent Order of Odd Fellows (I.O.O.F.) clubhouse and ballroom. In 1920, Odd Fellows lodge Scott No. 37 purchased the interest of the Lodge No. 7 with plans to building a new building; Odd Fellows kept meeting at the Brady St. building until moving out in c. 1979. (The Daily Times, "Scott Lodge, Odd Fellows, Buys Building," August 4, 1920: 8).

• 1877: Forrest Block Hall (401 Brady Street) The Forrest Block was the longtime location of the office of the prominent and pioneering woman physician Dr. Jennie McCowen, an important leader for women’s rights. She participated in various local and national organizations including the Association for the Advancement of Women, Davenport’s Charitable Alliance focused on eradicating prostitution, and one of the founder sin the local “Lend A Hand Club” movement for women that culminated in construction of a non-extant Lend A Hand clubhouse at the levee and Main Street that provided housing, meals, and support to working women. McCowen also participated in the Scott County Medical Society. (Wood: 48-78) The multi-tenant building included the Y.M.C.A. on 2nd floor, and a hall on 3rd floor used by Ancient Order of United Workmen (AOUW)
in the late 19th century per Sanborn fire insurance map notations. (By the 1930s the upper levels were converted to apartments.)

• 1892: Hibernia Hall (421 Brady St.) The Irish Catholic Ancient Order of Hibernians purchased a former church in 1889 for use as a hall. Architect F. Clausen’s expansion demonstrates the local tradition of remodeling older masonry structures, and the design has been noted as an exception local example of Richardsonian Romanesque architecture. (Bowers and Svendsen) The club rooms were used by other fraternal organizations; the Hibernian Club disbanded in the 1930s and sold the building in 1937. The Catholic Messenger newspaper occupied quarters for about 40 years. (Quad-City Times, “A Church Sold,” March 27, 1889: 1; The Daily Times, “A Beautiful Building,” May 5, 1891: 3; Daily Leader, “Proposals,” January 18, 1892: 3; Davenport Morning Star, “The Old and the New,” May 18, 1892: 4; The Daily Times, “The Davenport Club,” January 4, 1893: 4; The Daily Times, “Old Hibernian Hall Sold to Hickey Brothers; Plan New Building Eventually,” December 21, 1937: 1)

Figures: Left: Circa 1910 view of the Davenport Commercial Club (Courtesy of Richardson-Sloan Photo Collection) Right: Eagles Lodge and Auditorium "The Finest in the Middle West" (Quad-City Times, "New Davenport Eagles Building..." December 31, 1923: 19)

• 1906: Davenport Commercial Club (400 Main St.) This three-story brick building demonstrates the strength of the business community, which constructed the clubhouse as part of its attraction and retention of businesses. The high styled Beaux Arts architecture imbued fashionable dignity to the club rooms. Other fraternal groups also used the club rooms including the Davenport Club. The club organized in 1905, a successor of the Davenport Businessmen’s Association and earlier business groups; as a testament to the Commercial Club’s and collected subscriptions to build this clubhouse. A who’s who of Davenport businessmen subscribed, including department store owner, downtown property owner, and philanthropist W.D. Petersen; attorney, influential downtown property owner, and museum benefactor W.C. Putnam; two-time mayor, attorney, banker, real estate dealer, and museum backer C.A. Ficke; financier and investment banker George M. Bechtel. (Meyer: 483; Iowa’s Notable Dead: 399-400) The commercial club by 1920 became the Davenport Chamber of Commerce, which continued to occupy the building into the 1980s, at which time the building was adapted to commercial offices. (The Daily Times, “Men Who Have Helped Bring Club...” December 14, 1906: 16; Quad-City Times, “Davenport’s Executive Square gets boost,” January 20, 1985: C1)

• 1923: Eagles Lodge and Auditorium/Danceland (501 W. 4th St.) The Georgian Revival 3-story fraternal lodge built to corner with double facades included income-generating 1st story tenant space (an auto showroom/garage), 2nd floor ballroom opened to the public, and 3rd floor private club rooms. The Eagles Aerie No. 235 formed in 1902 but waited nearly two decades before forming a building association to secure a site

- Other organizations leased space in hotels such as the Y.W.C.A. in the Davenport Hotel as noted on the 1910 Sanborn, as well as rooms in buildings such as the post-WWII American Legion in the former Thomas Cusack Co. building. And the Davenport Public Library has served as an important meeting place downtown.

**Postscript: From Death Spiral to Historic Preservation Renaissance, 1970s–present**

The central business district lost traction with development of suburban-style shopping malls in the Quad Cities area and changing retail patterns. Changes in transportation, such as the opening of the eastern portion of Interstate 80 in 1966 and the ending of passenger rail service to the C.R.I.&P. elevated depot in 1968 brought less traffic into the downtown. (The city removed the depot in 1973 to make way for a parking lot; *Quad City Times*, “Slate Hearing on Demolition,” July 5, 1973: 2)

Historic preservation in Davenport began in earnest the mid 1970s after city officials decided against building a central business district bypass from the Centennial Bridge at the southwest corner of the central business district to Interstate 80 to the north. Successful bicentennial-era historic preservation projects led Davenport in 1979 to become the first city in Iowa to hire a full-time historic planner, Marlys Svendsen, with a state grant. Svendsen undertook and directed surveys and National Register nominations, culminating in the 1982 publication with Martha Bowers of *Davenport, Where the Mississippi Runs West: A Survey of Davenport History & Architecture*, followed by the listing to the National Register of a dozen historic districts and nearly 250 individual buildings—the most in the Register of any Iowa city. (Svendsen et al.; Meginnis: 6; Gebhard and Mansheim: 68) However, some of the interwar buildings in the area were not surveyed, as they were not yet eligible for the National Register, not having yet met the typical 50-year threshold. The city in 1986 added a historic preservation amendment to its comprehensive plan.

At the same time, the 1980s farm crisis hit Davenport hard and impacted Davenport’s economy deeply. Aging buildings slid into disrepair, and the area became associated with crime and unsavory activities. “Historic preservation took a backseat to survival,” according to Davenport historic preservation consultant Marion Meginnis’ 2016 report *Heritage in the Heartland: A Plan for Davenport*. “About the same time, “Rejuvenate Davenport,” was organized to find ways to revitalize a struggling downtown and a sagging regional economy. Their solution was to purchase and demolish buildings in the central business district, believing that the cleared parcels could entice developers. When the final building fell, more than fifty structures, some recently included in the National Register listing process, were gone.” (Meginnis: 6) However, some of the new construction that took place on cleared land leveraged historic preservation projects and spurred additional rehabilitation, such as the 1980s RiverCenter convention center that adjoined the Hotel Blackhawk (which underwent a $10 million renovation completed 1979) and the Hotel Mississippi and historic Orpheum theater (renamed Adler Theatre in 1986 after a $4.4 million renovation). (*Quad-City Times*, “RiverCenter Place: A “Can-Do Spirit,” Powering Up for the 21st Century special section, April 30, 1995: 3)

In addition, long-time businesses like First Trust & Savings Bank committed to restoring buildings: In 1985 the bank moved into the rehabbed 1923 First National Bank Building skyscraper (201 W. 2nd St.), which First National vacated in 1931 when it merged with another bank. The resplendent banking hall was again returned to financial use, having been used for several decades as a Walgreens. In 2000, Rejuvenate Davenport
petitioned to designate as a City Landmark the stone 1850s carriage works building in the rear of 312 W. 3rd Street (note: built 1857 by George Haber and not 1854 by Woebier Brothers); the Historic Preservation Commission approved the designation of the then-vacant building that has since been repaired and returned to active business use. Private investors continue to utilize historic tax credits to assist with restoring historic buildings such as the 2000s rehabilitations of Hotel Blackhawk and Putnam Building into boutique hotels, and creation of unique loft apartments in buildings such as the Forrest Block and Hibernia Hall, both on Brady Street.

**Significance Under C: Architecture**
Davenport as a leading regional city developed a rich local architectural heritage. And with its direct connection to Chicago via the Chicago, Rock Island & Pacific railroad, local architects and business owners looked to the larger Midwestern city for architectural inspiration and sometimes for Chicago-based architects. Financial architecture and government architecture have drawn commissions from outside architects, as businesses and government agencies sought to define their identity with architecture. At the same time, Davenport architects and contractors—such as pioneer Davenport architects John W. Ross and F.C. Clausen and Clausen's successor firms, along with Walsh Construction Co., one of the major U.S. contractors—designed, built, and officed out of buildings within the Historic District. Local boosters invested in multi-tenant retail buildings, office buildings, apartment buildings, and hotels, generally selecting local architects and builders. As noted by Svendsen and Bowers, Davenport developed a reputation for investing in its home community, with the goal of high quality architecture sending some property investors like the Putnam Estate, banks, and theater investors to Chicago and other out-of-state specialty architects, designers, and contractors. (Svendsen and Bowers 1982: 5-3)

Many of the extant buildings within the district demonstrate local significance under Criterion A – Commerce and Criterion C–Architecture, representing the growth and design of the Davenport commercial business district over time, with the extant resources spanning from the 1850s through the 1960s. Although Davenport was not the only Iowa city located on the Mississippi River, it had a unique location in that the riverfront provided early steamboat connection and the Government Bridge provided the first Illinois-Iowa rail connection over the Mississippi River. (Originally self-identified as the “Tri Cities,” with Davenport the larger than Rock Island and Moline, Illinois; the industrial growth of Bettendorf in the early 20th century boosted the number of cities to four; growth of East Moline has added it to the metropolitan area, but the name “Quad Cities” endures.) These buildings include a mix of one- to 14-story masonry buildings. Many of the commercial, governmental, and specialty buildings are distinguished through architectural design. The smaller number of light industrial buildings are distinguished through materials such as fireproof masonry and concrete construction. The architecture includes many works designed and built by Davenport building professionals, along with several Chicago and out-of-state firms.

The late-19th-century buildings within the Historic District are stylistically Greek Revival, Italianate, Richardsonian Romanesque, and Queen Anne. Common details on Greek Revival, Italianate, and Richardsonian Romanesque buildings include arched windows (round top and segmental), stone windowsills and lintels, and pressed metal cornices. The ashlar limestone St. Anthony Church illustrates the Greek Revival style, with front gabled roof with cornice returns, The Forrest Block is an excellent example of the Italianate style expressed via arched-top windows, highly decorative window hoods, and bracketed cornice. The limestone Davenport City Hall and brick and stone J.C.H. Petersen & Sons Department Store are two very good examples of the Richardsonian Romanesque style. Details on the Queen Anne buildings include bay windows and textured masonry wall surfaces, such as found on the upper stories of the M.J. Eagel Block and H.E. Ficke Building. Indeed, Davenport became one of the Midwestern centers for Richardsonian Romanesque architecture, as noted in a study on Midwestern regional adaptation, *The Spirit of H.H. Richardson on the Midland Prairies*. (Larson: 132)
The early-20th-century buildings in the Historic District range from Beaux Arts, Commercial Style, Chicago Style, Sullivanesque, Prairie/Craftsman Style, and Classical Revival. Details on early-20th-century buildings vary from decorative brickwork, stonework, and terra-cotta; bracketed cornices; and decorated entrance doorways. The Ferd Haak Cigar Company Building is an excellent example of Beaux Arts style, with rusticated first story, elaborately arched entrance with double sets of columns, and pediments rising to the bracketed deep cornice. Pre-World War II multi-story commercial, entertainment, and residential buildings generally have tripartite designs, with storefronts visually separated from the upper stories and cornice treatments. The Chicago Style is epitomized in Daniel Burnham’s Putnam Building, the city’s first low-rise office skyscraper with a tripartite design of stone base and brick shaft crowned with ornate terra-cotta decoration; the Renwick Building is an earlier locally designed example with a cast-iron storefront. The Beiderbecke Building combines Commercial Style with Classical Revival elements, including stonework that enframes upper-story windows, and a wide bracketed copper cornice. Prairie/Craftsman Style commercial buildings include the Frey Apartments, with oversized brackets supporting wide horizontal overhanging eaves above windows, and the Dempsey Hotel, with wide horizontal stone courses and decorative details on brick piers (original wide brackets have been removed). The Kahl Building clad in white terra-cotta typifies Sullivanesque design elements, including a tripartite (three-part) composition of terra-cotta decorated base, shaft with recessed windows and terra-cotta spandrels, and capital with an elaborate frieze beneath the cornice. Several banks provide strong examples of Classical Revival and/or Italian Renaissance detailing, including the Davenport Bank and Trust skyscraper, the tallest in the Historic District, with symmetrical facades, stone pilasters, elaborate stone decorations, large arched windows, and a 7-story central clock tower. A few of the buildings have garage bays incorporated, reflecting auto-related uses as well as shipping and receiving functions.

The mid-20th-century Modern Movement architecture in the Historic District includes Art Deco, Streamlined Moderne, and Modern Movement examples including New Formalism. These buildings incorporate terra-cotta, brick, concrete, tinted glass, metal, and stone in a variety of applications, particularly found on government and bank commissions. The 1931 Hotel Mississippi Building incorporates Art Deco verticality via brick piers and windows arranged into columns with floral patterned terra-cotta panels adding bas relief. A streamlined Art Deco style is demonstrated aptly by the Kasota stone and granite U.S. Post Office and Court House, with strongly vertical windows and patterned metal spandrels. The 1930s Streamlined Moderne Mac’s Tavern storefront of structural glass includes a period neon sign. The Modern Movement Scott County Courthouse literally and figuratively reflects the community’s 1950s post-war optimism in the new Davenport Alcoa aluminum plant with aluminum panels enframing a rhythmic arrangement of aluminum windows and spandrel panels that rest on a base of granite. First Federal Savings and Loan Association’s 1966 building brought an abstract modernistic palette to financial institutions, showcasing dark granite at the sidewalk level, over which vertical ribs of Vermont marble intersperse with tinted glass. Edward Durell Stone’s Davenport Public Library opened in 1968, and interprets New Formalism via concrete on the exterior and interior, featuring patterned concrete “tiles” as well as overhang and ceiling treatments, and slender concrete columns.

Architects Represented in the Historic District
As noted above, the Davenport Downtown Commercial Historic District is notable in architectural terms for select examples of notable Richardsonian Romanesque, Classical Revival, Prairie style, Georgian Revival, and Modern Movement works. The architectural significance is noted as a local level; future research may yield findings of statewide significance. Davenport as a regional leading city developed a rich local architectural heritage. And with its direct connection to Chicago via Chicago, Rock Island & Pacific railroad, local architects and business owners looked to the larger city for architectural inspiration and sometimes for Chicago-based architects. Financial architecture and government architecture have drawn commissions from outside architects. Businesses and government agencies sought to define their identity with architecture. The following is an alphabetical list of architects and architectural firms known to have designed buildings within the Historic District. A note about architects and builders in Davenport: Given the long span of time, many generations contributed to the building of downtown. Additional future research into the professionals and
craftsmen behind the buildings may be warranted. Below is a list of known building professionals whose work was represented in downtown; however, many newspaper references to new construction do not specify the building professional. Below is a list of architects, as well as primary architecture styles employed on buildings within the Historic District; years of practice are indicated in parentheses after the architect of firm name; birth and death dates are listed in the text if known.

**Bank Building and Equipment Corp., St. Louis**
- 1966: First Federal Savings and Loan Association Building (131 W. 3rd St.). Modernistic bank building with vertical slices of marble, granite, and glass designed by architect William F. Cann with St. Louis-based design/build firm BBEC.

**D.H. Burnham & Co. and successor firm Graham, Anderson, Probst, and White, Chicago**
The preeminent Chicago architect Daniel H. Burnham was an early designer of skyscrapers and city planning. After his death in 1912, Graham, Anderson, Probst and White succeeded.
- 1910: Putnam Building (130 W. 2nd St.). Chicago Commercial-style 8-story office tower with first-story retail designed by architect Peirce Anderson. Tripartite design is anchored with stone base, brick shaft, and crowned with ornate terra-cotta decoration.
- 1957: Putnam Center Building (124 W. 2nd St.); original modernistic façade has been remodeled beyond recognition.

**Childs & Smith, Chicago**
Frank A. Childs and William Jones Smith principals attended the Ecole des Beaux-Arts in Paris. (Gebhard and Mansheim: 69) The firm practiced nationally and designed a number of banks.

**Clausen, Fritz G., Davenport (1871-1896), and successor firms Clausen & Burrows (1896-1904), Clausen & Clausen (1904-1914), Clausen & Kruse (c. 1914-1925), Clause, Kruse & Klein (c. 1925+)**
Influential Davenport architect Fritz G. Clausen immigrated to the city in 1869 from the German-speaking Danish duchy of Schleswig. He partnered with architect Parke T. Burrows for a time, then was joined by son Rudolph J. Clausen. The elder Clausen retired from architecture practice in 1914. Rudolph partnered with Walter O. "Stub" Kruse and later Carrol Klein.
- 1877: Forrest Block (401 Brady St.) Italianate 3-story red brick commercial block with double storefronts, decorative window hoods on upper stories. F. G. Clausen
- 1888: Forrest Block Addition (112-114 E. 4th St.) Italianate 3-story red brick double storefront addition attributed to F.G. Clausen.
- 1892: J.H.C. Petersen's Sons Department Store (121-131 W. 2nd St.). Richardsonian Romanesque 4-story department store with basement of red brick, terracotta, highly decorative brickwork. Built to the corner, the symmetrical wide double facades face Main St. and W. 2nd St. The design was modeled on Chicago architect Daniel Burnham's 1888 Chicago Rookery Building, which combined steel framing and large plate glass
Davenport Downtown Commercial Historic District

Name of Property: Davenport Downtown Commercial Historic District
County and State: Scott, Iowa

• 1899: H.E. Ficke Building (307 Harrison St.) Queen Anne-style 4-story double storefront with upper apartments.

• 1901: Renwick Building (324 Brady St.) Chicago Style 4-story red brick commercial building by Clausen & Burrows, with cast-iron storefront, tall windows on upper stories, topped by Romanesque Revival arched windows at the fourth floor.

• 1903: Davenport Leaf Tobacco Co. (319 Western Ave.) Commercial-style 3-story cigar factory and wholesale tobacco building. Clausen & Burrows. Includes 1918 addition designed by Clausen & Kruse.

• 1905: Schricker Apartments (401 W. 4th St.) The John C. Schricker Company constructed the Colonial Revival/ Federal Revival 4-story 25-unit building, with Schricker as president and architect F.G. Clausen as vice-president.

• 1907: Central Office Building/Peterson Building (230 W. 3rd St.) Eastern addition to Classical Revival-style 4-story professional office building with 1st story storefronts; 1904 western façade designed by Gustav Hanssen. Addition used the same design with subtle differences.

• 1910: Beiderbecke Building (111 W. 2nd St.). Commercial Style/Classical Revival 4-story brick-and-stone retail store building built by German immigrant Mrs. Louisa Beiderbecke, who leased out the building. Beiderbecke was one of a small number of women who built commercial buildings within the downtown in the late 19th and early 20th century. Clausen & Clausen.

• 1910: Dorothea Flats (311-317 W. 3rd St.). Revival Style 4-story brick storefronts with upper residential flats. Clausen & Clausen.

• 1919: Scott County Savings Bank (302 Brady St.) Classical Revival style stone bank building built as 1-story skyscraper base in 1919 with granite exterior and engaged pilastered framing tall windows as designed by Clausen & Kruse.

• 1924: The Democrat Building (407 Brady St.) Sullivanesque 2-story newspaper office and printing plant with mezzanine and basement, designed by Davenport architect Rudolph Clausen of Clausen & Kruse.

• 1925: Kahl Building/Capitol Theatre expansion (326 W. 3rd St.) Five years after opening, H. Kahl added a rear addition to enlarge the stage. Clausen & Kruse.

• 1928: American Commercial and Savings Bank / Davenport Bank & Trust (203 and 229 W. 3rd St.) Associated architect as Clausen, Kruse & Klein.

Ebeling (c. 1882-1965) enjoyed a 50+year architectural career and served as president of the Citizens Federal Savings and Loan Association. He apprenticed with Gustav Hanssen before starting his solo practice in 1908. After acting as superintending architect of the Kahl Building, he moved his office there.

• 1913-1914: Hotel Dempsey (410 Main St.) Prairie Style 3-story masonry hotel.

• 1914-1915: Blackhawk Hotel (E. 3rd St.). Superintending architect for the project designed by Temple & Burrows.

• 1919-1920: Kahl Building (3rd St.) Superintending architect for the project designed by Chicago firm Rapp & Rapp.

Gartside, Benjamin “Ben” W. Jr. (c. 1913-1925), architect for Gordon-Van Tine Co. (1926-c. 1946), Davenport

Gartside Jr.'s (c. 1886-1958) architect father Benjamin W. Gartside Sr. worked for T.W. McClelland Planing Mill as secretary in 1914. Gartside Jr. graduated from University of Illinois and practiced solo for more than a
decade before joining Gordon-Van Tine Co. as in-house architect. (Quad-City Times, “Ben Gartside Hurt May 22 Fall, Dies,” June 4, 1958: 8.)

- 1914: Frey Apartments (210 W. 4th St.). Prairie-style 3-story apartment building addition and probable façade.

**Graven, A.S. (d. 1932), Chicago**

Nationally significant Chicago architect Anker Sverre Graven formerly practiced at theater architecture firm Rapp & Rapp before starting his own firm (Scheider)

**Hammett, Edward S. (1883-c. 1907)**

New York native Hammett (1856-1907) attended Lehigh University and MIT, and worked under Henry Hobson Richardson (of Richardsonian Romanesque invention) and Boston and New York firms. He designed a number of Episcopal churches in Iowa as well as houses.

- 1901: Wincek Block (318 Brady St.) Commercial-style 3-story masonry double storefront semi-attached, designed by Davenport architect Edward S. Hammett.
- 1901: M.J. Eaga Block (322 Brady St.) Queen Anne-style 3-story narrow commercial building masonry single storefront two bays wide designed by Davenport architect E.S. Hammett.

**Hanssen, Gustav A. (1890-c. 1902, 1904-1905); Hanssen & Dietz (c. 1902-1903), Hanssen & Harfst (1906-10), Davenport**

Hanssen (1869-1944) was a Davenport native, son of Louis Hanssen Hardware Co. who received an architecture degree from University of Illinois. He relocated to California in 1910 to design buildings affiliated with the Panama Canal. (Quad-City Times, “Local Architect Leaves for Coast,” April 17, 1910: 12; The Daily Times, “Local Architects Form New Firm,” February 1, 1906: 7; “Hanssen,” obituary January 5, 1944: 4.)

- 1901: Central Fire Station (425 W. 4th St.) Italianate/Classical revival 2-story fire station with hose towers.
- 1904: Central Office Building (224 W. 3rd St.) Classical Revival-style 4-story professional office building with 1st story storefront; Hanssen designed the 1904 remodel of the former Woeber Carriage production/showroom building that H. Petersen had remodeled for a furniture showroom. In 1907, the building was nearly doubled in size with an eastern addition by Clausen & Clausen.

**Harfst, Dietrick “Deat” J., (? – 1905, 1910-1913), Hanssen & Harfst (1906-1910), Davenport**

German immigrant Dietrick "Deat" J. Harfst (1874-1913) immigrated to Davenport as a child. He worked for architect Gustav Hanssen, practiced solo, then partnered as Hanssen & Harfst before taking over the practice when Harfst moved to California. (Quad-City Times, “Architect Who Died Thursday,” March 7, 1913: 8)

- 1904: Ferd Haak Co. (527 W. 4th St.). Beaux-Arts 3-story cigar company showroom and factory building of brick with stonework by Deat J. Harfst,
- 1909: Independent Realty Co. Building (223-227 W. 4th St., now part of 325 Harrison St.) Prairie Style 1-story multi-tenant building of brick and stone designed by Hanssen & Harfst.
- 1912: Walker Flats (108 W. 5th St.) Prairie-style 4-story apartment building with raised basement on stone foundation by Deat J. Harfst.

**Muesse, Howard, Davenport (c. 1930s-1940s)**

- 1938: Shannon’s Dairy Lunch (116 W. 3rd St.). Currently non-contributing due to EFIS on facade; Muesse designed the Art Moderne-styled restaurant building with a structural glass front.

**Rapp & Rapp (c. 1900s – c. 1930s), Chicago**

Brothers Cornelius W. Rapp and George L. Rapp specialized in theaters, designing some 400 of them across the country.
• 1920: Kahl Building/Capitol Theatre (326 W. 3rd St.) Sullivanesque 10-story office skyscraper clad in white-gray terra-cotta with a tripartite (three-part) composition of terra-cotta decorated base, shaft with recessed windows and terra-cotta spandrels, and capital with an elaborate frieze beneath the cornice. Said to be patterned after the 1890 terra-cotta Wainwright Building St. Louis skyscraper by Adler & Sullivan.

Richard C. Rich and Associates, Detroit,
Parking engineer Rich specialized in parking garages and worked across the nation. (http://richassoc.com/)

Ross, John W. (1874-c. 1911), Davenport.
Ross (1830-1914) moved from Massachusetts to Davenport in 1874. He oversaw construction of the Scott County courthouse, designed at least one fire station, and other governmental buildings and private residences and business designs in Davenport and other cities in Iowa and Illinois.
• 1896: Davenport City Hall (4th St.) Largest extant Romanesque building in downtown; 3.5 story plus 5-story clocktower of Bedford stone with flanking lower towers; arched recessed entrance.
• 1897: Farmers’ and Mechanics’ Savings Bank / Morris Plan Bank (218 Harrison St.) Richardsonian Romanesque 3-story narrow brick and stone building.

Stone (1902-1978) was an experienced architect at the time of the Davenport commission. He pioneered the New Formalism Modern Movement style, exemplified by his AIA Honor Award-winning 1959 U.S. Embassy in New Delhi, India.
• 1968: Davenport Public Library (321 Main St.) New Formalism 2-story concrete-and-tinted glazing library with broad overhang supported by columns.

Temple, Burrows & McLane (1904-1910); Temple & Burrows (1910-1925); Temple, Seth J., (1925-1940); Temple & Temple (1940-1949), Davenport
• 1897: Scott County Jail (See Clausen & Burrows above)
• 1906: Davenport Commercial Club (400 Main St.) Beaux Arts-style 3-story brick clubhouse built to corner with design by Temple, Burrows & McLane.
• 1907: Davenport Hotel (324 Main St.) Renaissance Revival 6-story C-shaped hotel with retail and office space designed by Temple & Burrows, P.T. Burrows, architect in charge.
• 1915, 1921: Hotel Blackhawk/Blackhawk Hotel (200 E. 3rd St.) 11-story Renaissance Revival hotel, built in two phases (four stories added on top). Arthur Ebeling was supervising architect for the 1915 hotel building. Temple & Burrows
• 1924: Union Savings Bank and Trust (skyscraper expansion of 1910 smaller bank)
(Davenport Public Library, Richardson-Sloane Special Collections Center, "Build a Better Davenport: Temple and Burrows Architects," 2017)

Weary & Alford Co., Chicago
Edwin D. Weary and W.H. Alford partnered in 1903 and came to specialize in banks, with a nationwide practice.
• 1928: American Commercial and Savings Bank / Davenport Bank & Trust (203 and 229 W. 3rd St.)
Woodburn (c. 1894-1960) graduated with an architecture degree from Cornell (College) University and did graduate work at the University of Southern California. He was past-president of the Des Moines Engineering Club and the Iowa chapter of the AIA. His firm designed a number of courthouses, plus other civic, fraternal, and religious buildings.
• 1956: Scott County Courthouse (400 W. 4th St.) Modern Movement/International Style 3-story aluminum clad and granite civic building; noted as the only aluminum-clad U.S. county building at its opening.

Zimmerman, Saxe & Zimmerman (c. 1916 – 1932), Chicago architects
• 1922: Thomas Cusack Co. District Headquarters (415 Perry St.) Renaissance Revival 1-story office building conversion of 1867 opera house following a fire that destroyed the interior. Remodeled building leased to the Davenport regional office of Chicago-based Thomas Cusack Co. outdoor advertising firm, the world’s largest.

Archaeological Assessment
The potential for archaeology was not assessed as part of the present National Register nomination. The successive redevelopment, zero-lot line building footprints for most properties, and limited presence of paved parking areas associated with buildings in the historic district increases the likelihood that repeated ground disturbance (resulting from the construction of those elements) has possibly destroyed any localized archaeological resources. However, paving may have been laid over ground previously occupied by pioneer- and Victorian-era residences (as well as resources pre-dating the housing) with a minimum of earth movement. In that case, archaeological resource may merely have been encapsulated. In the future, any significant excavation and/or grading should take into consideration the possibility that archaeological and/or sub-grade historic or prehistoric resources may remain.

Verbal Boundary Description (Describe the boundaries of the property.)

The Davenport Downtown Commercial Historic District boundaries on the east jog from Perry Street to Brady Street; at the south they extend to portions of the 100-200 blocks of W. 2nd Street and jog to 3rd Street; at the west they extend to Western Avenue, jogging to N. Main Street; at the north they extend to the south side of W. 5th Street, the north side of W. 5th Street, and the west side of the 500 block of Brady Street being the northernmost point; running through the northern portion of the district and forming part of the northern boundary is an elevated train track stretching from the east side of Perry Street to Western Avenue.

Boundary Justification (Explain why the boundaries were selected.)

These boundaries encompass the heart of the Davenport central business district containing buildings constructed from the 1850s through the 1960s, the period of significance.

Dear Friends:

The State Nominations Review Committee (SNRC) plans to consider the property referenced above for nomination to the National Register of Historic Places during their February 14, 2020, meeting. To view or download the associated nomination and photographs, click on the link listed above.

As a participant in the Certified Local Government Program, the Historic Preservation Commission is required to review and comment on proposed National Register nominations of properties within its jurisdiction. The State is required to provide you with a 60-day period for the review, unless we mutually agree to expedite the process. I am contacting you to ask that you initiate the review process for the Historic Preservation Commission. As an attachment to this notification email is a copy of the review form.

The review process will require the following:

♦ The Historic Preservation Commission should review the nomination during one of their meetings. In advance of the meeting, please send a formal invitation to your chief local elected official (the mayor or chair of the Board of Supervisors) with a copy of the nomination. You also need to send a formal invitation to the property owner/owners. If they are not familiar with the National Register of Historic Places, information about listing and the benefits of nomination is available at http://www.nps.gov/nr/ (see especially the Frequently Asked Questions and Owners sections): You also need to make available copies of the nomination for public review before the meeting. For example, leave a review copy at the courthouse and public library. Please indicate in your public meeting announcement that a review copy of the nomination is available and where the review copies can be found.

♦ The question for the Historic Preservation Commission to answer when reviewing the nomination is whether the nominated property meets the National Register of Historic Places criteria for significance and integrity (see Bulletin 15, How to Apply the National Register Criteria for Evaluation). If the Commission feels that the property and the nomination meets the criteria, the Commission should check the box recommending that the property be listed. If the Commission feels that the property does not meet the criteria, then check the box recommending that the property not be listed. Your chief local elected official should use the same approach when reviewing the nomination.

♦ You might want to invite the individual who prepared the nomination to attend the public meeting and present the nomination. Please keep a record of the meeting (copy of the public notice, agenda, minutes, list
of attendees). At the conclusion of the meeting, the Commission should make a motion regarding their recommendation. The Chairman of the Commission will complete Item #1, the Commission’s portion of the review form. Be sure to fill in the date of the public meeting, sign the signature line and record any comments made by commission members during the meeting. If your chief local elected official attended the public meeting, inquire if he/she is prepared to sign the review form.

♦ In the event that your chief local elected official was unable to attend the meeting, the Commission Chairman should forward the review form to him/her for review and comment. Have your chief local elected official sign the form and return it to the Historic Preservation Commission.

♦ Item #3 on the Review form asks for the review and signature of a preservation professional. If your commission does not have a professionally qualified historian or architectural historian who can complete this part of the form, you may leave Item #3 blank and I will arrange to have a SHPO staff member complete that part of the form.

♦ After you have completed Items #1 through #2 (through #3 if a preservation professional is available), please make a copy of the completed review forms for your file and send the original copies of the completed forms to me.

♦ The Commission should keep the nomination and photographs. File them in your inventory, as you will need the information for future reference.

If the Historic Preservation Commission and your chief local elected official disagree with one another on the property’s National Register eligibility, both views will be presented to the SNRC for their consideration during review of the nomination. If both the Historic Preservation Commission (by Commission majority) and the Mayor do not consider the property eligible for National Register listing, we must halt the nomination. Be advised that when a nomination is halted, the property owner, the person who prepared the nomination or any interested party may appeal the decision. In addition, the nomination will still go forward to the National Park Service for an official "Determination of Eligibility."

Please contact Paula Mohr at 515-281-6826 or paula.mohr@iowa.gov with any questions or concerns regarding the CLG program or the process for this review. You can find the answers to frequently asked questions on our website, such as the meaning of being listed on the National Register of Historic Places or the National Register process https://iowaculture.gov/history/preservation/national-register-historic-places.

Sincerely,

Laura Sadowsky

Resolution No. ____________

Resolution offered by Alderman Ambrose

Resolution closing various street(s), lane(s), or public grounds on the listed date(s) to hold outdoor event(s).

RESOLVED by the City Council of the City of Davenport.

WHEREAS, the City through its Special Events Policy has accepted the following application(s) to hold outdoor event(s) on the following date(s), and

WHEREAS, upon review of the application(s) it has been determined that the street(s), lane(s), or public grounds on the date(s) listed below will need to be closed, and

NOW, THEREFORE, BE IT RESOLVED that the City Council approves and directs the staff to proceed with the temporary closure of the following street(s), lane(s), or public grounds on the following date(s) and time(s):

Center for Active Seniors, Inc; St. Patrick’s Day Race; Downtown; Saturday, March 14, 2020; Closures: 5:00 a.m. - 12:00 p.m. 2nd St from Harrison to Brady; 8:00 a.m. - 11:00 a.m. 2nd St from Harrison to Ripley; 8:30 a.m. - 11:00 a.m. two westernmost travel lanes and parking lane on Brady St from 2nd to 3rd; 8:30 a.m. - 11:00 a.m. 3rd St from Brady to Gaines; 9:30 a.m. - 11:00 a.m. 3rd St from Gaines to Division; 9:50 a.m. - 10:10 a.m. all lanes of Brady from River Dr to 3rd St. [Ward 3]

St. Patrick’s Society; St. Patrick’s Day Grand Parade XXXV; Saturday, March 14, 2020 11:00 a.m. – approximately 2:00 p.m.; Downtown; Closures: Gaines St from the Centennial Bridge to 3rd St; 3rd St from Gaines St to Iowa St; Iowa St from 2nd St to 4th St for parade entries to disband. [Ward 3]

Lynn Hunt; Gathering of the Green Conference; RiverCenter 136 E 3rd St; Closure (for vendor unloading and loading): Pershing Ave between River Dr and E 3rd St 7:00 a.m. Sunday, March 15, 2020 through 2:00 p.m. Monday, March 23, 2020. [Ward 3]

December 19, 2019

Dear Ms. Hunt:

Below is the Traffic Engineering approved map for the street closure for the Gathering of the Green Conference in March. Please use this map to coordinate the rental of barricades with Bi-State Barricade Rental at 309-792-1980. This is a new process the City implemented within the last few months. In the past, the City would order and pay for the barricades and then bill the event organizer. If any issue arose with the barricades (late delivery, no delivery, etc.), the City was contacted and then would need to contact the barricade contractor to figure out the issue. This new process will help create a direct line of communication between event organizers and the barricade contractor, eliminating the City as the middleperson.

The closure is pending City Council approval and is scheduled for the second Council cycle in January with final approval on January 29. **Pershing Ave between River Dr and E 3rd St beginning at 7:00 a.m. on March 15, 2020 through 2:00 p.m. Monday, March 23, 2020** is the closure details being presented to Council for approval. Pershing Ave will remain closed the entire time. If this is not correct, please contact me before Friday, January 17 so the appropriate changes can be made.

Please keep in mind, particularly after this past year, there is always the threat of early flooding, and think of how this could affect your event closure. If possible, have a backup plan in the event of early flooding again.

Take care and do not hesitate to reach out if you have any further questions/concerns.

Sincerely,

Brian Krup
Deputy City Clerk

"Davenport – Iowa’s Front Porch"
"Davenport – Iowa’s Front Porch"
Hi Brian,

Yes, for sure, that is on our action plan! Visit Quad Cities will send a written note and make a personal visit to those locations that will be impacted by Road Closures. We will also be doing the same to let all the downtown businesses know we will have 3,000 John Deere enthusiast downtown for a few days. In addition, we will coordinate with DDP to make sure all are aware.

Happy Friday and Festival of Trees weekend! Joan and Nicki in our office took 3 meeting planners from the Des Moines area to the Silent Disco last night and they had a blast! They get to attend the Premier tonight too, so hopefully they will be back with their meeting and convention clients.

Good afternoon, Lynn!

I wanted to touch base about the conference in March. Will there be any notification sent to the businesses along the closure, such as those indicated below? That way they can make alternative plans for parking or accessing their buildings if need be.
Regards,

Brian Krup

Resolution approving the contract to purchase five (5) sedans from Karl Chevrolet of Ankeny, IA from State Bid # MA 005 20095, in the amount of $102,381.60 funded in CIP #24020. [All Wards]

Recommendation:
Adopt the Resolution.

Background:
The State of Iowa processed an Invitation to Bid for 4-door sedans. This was awarded to Karl Chevrolet on State Contract MA 005 30095.

The City of Davenport Transit staff have been driving sedans past their useful life. Two of the cars have been taken out of service (cost of repairs exceeds the value of the vehicle). The other vehicles will be disposed of at auction.

The Transit Division recently received an FTA grant to cover 90% of the cost. The City will be reimbursed that amount.

The five Malibu sedans will be purchased for $102,381.60. The city will be reimbursed $92,143.44. The net cost to the City will be $10,238.16. This is funded in CIP #24020 for Transit service vehicles.

Resolution No._____________

Resolution offered by Alderman Dunn.

RESOLVED by the City Council of the City of Davenport.

RESOLUTION approving the contract for the purchase of five (5) 4-door sedans from the State of Iowa bid, with Karl Chevrolet of Ankeny, IA and authorizing Mayor Mike Matson or designee to sign and manage any related agreements.

WHEREAS, the City needs to purchase five (5) new 4-door sedans for the Transit Division; and

WHEREAS, Karl Chevrolet of Ankeny, IA was awarded the State of Iowa contract as the lowest responsive and responsible bidder;

NOW THEREFORE, IT IS HEREBY RESOLVED by the City Council of the City of Davenport, Iowa, that:

1. Approving the contract for the purchase of five (5) 4-door sedans from the State of Iowa bid, with Karl Chevrolet of Ankeny, IA; and

2. Mayor Mike Matson or designee is authorized to sign and manage any related agreements;

Subject:
Resolution accepting the 2019 General Street Resurfacing project completed by Hawkeye Paving Corporation of Bettendorf, IA. The project was completed with a final contract amount of $614,276.41, CIP #35035. [Wards 1, 5, & 6]

Recommendation:
Adopt the Resolution.

Background:
This was a single bid for a single contractor to resurface three street locations as part of the City's pavement management program. The three street locations were: 1) Rockingham Rd from the east edge of the northeast curb return at S Fairmount St to the west curb return of S Concord St, 2) Jersey Ridge Rd from the south curb return of E Locust St to the south curb return of E Central Park Ave, and 3) E Locust St from the east curb of Iowa St to the east curb return of Grand Ave.

The project was completed in accordance with the City of Davenport requirements with a final amount of $614,276.41 from account #35035.

Resolution offered by Alderman Dunn.

RESOLUTION of acceptance for the construction of the 2019 General Street Resurfacing Project completed by Hawkeye Paving Corporation of Bettendorf, IA.

WHEREAS, the City of Davenport entered into a contract with Hawkeye Paving Corporation of Bettendorf, IA for construction work; and

WHEREAS, work on the project has been satisfactorily completed

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Davenport, Iowa that the 2019 General Street Resurfacing Project is hereby accepted.

Passed and approved this 29th day of January, 2020.

Approved: 

Mayor Mike Matson

Attest:

Brian Krup, Deputy City Clerk
Subject:
Resolution establishing special assessment interest rates. [All Wards]

Recommendation:
Adopt the Resolution.

Background:
The City of Davenport bills customers for clean water projects, alley repair, boarding up buildings, brush and debris removal, building demolition, sidewalk replacement, snow removal, tree removal, weed cutting, sewer lateral repair, and water service repair. Outstanding balances are eligible to be assessed against a property sixty days after the bill date.

Assessed properties with a balance of $500.00 or under are added to the property owner’s property taxes the following year, while balances over $500.00 are divided by ten and added to property taxes over the next ten years.

This resolution establishes the interest rate annually for all assessments. The interest rate is calculated by evaluating the 10-year US Treasury yield curve, rounding it to the nearest percentage and adding one percent.

Based on this criteria, the assessment interest rate for calendar year 2020 is 3%. The established interest rate will be in line with market rates and provides an incentive for residents to pay.

Resolution No. __________

Resolution offered by Alderman Condon

RESOLVED by the City Council of the City of Davenport.

RESOLUTION establishing the method and timing of interest rates for all special assessments.

WHEREAS, the City of Davenport regularly bills and assesses properties for outstanding balances for work performed on a specific parcel; and

WHEREAS, in January each year, City Council will approve an updated interest rate for assessments; and

WHEREAS, using the 10-year US Treasury as a basis of the interest rate assessed will ensure the interest rate is in line with market conditions; and

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Davenport that the interest rate for calendar year 2020 shall be set at 3% and all special assessments levied against properties within the City of Davenport shall be established annually by the Finance Department and approved by City Council.

Resolution approving the contract for the City-wide printing services to Davenport Printing Company of Davenport. [All Wards]

Recommendation:
Adopt the Resolution.

Background:
On November 26, 2019, a Request for Proposals was issued and sent to 106 registered vendors. On January 6, 2020, the Purchasing Division opened and read one responsive and responsible proposal, from Davenport Printing Company.

The Request for Proposals requested pricing for business cards, letterhead, notecards, and several different sizes of envelopes. Samples of past work were to be submitted to the Purchasing Division.

Davenport Printing Company submitted their proposal and samples. They have successfully done printing projects for the city in the past.

Funding will be from each Department/Division's individual budgets.

Resolution No._____________

Resolution offered by Alderman Condon.

RESOLVED by the City Council of the City of Davenport.

RESOLUTION approving the contract for the City-Wide Printing Services for business cards, note cards, letterhead and envelopes to Davenport Printing Company of Davenport, and authorizing Mayor Mike Matson or designee to sign and manage any related agreements.

WHEREAS, the City needs to contract for the City-Wide Printing Services project; and

WHEREAS, Davenport Printing Company of Davenport, was the lowest responsive and responsible bidder;

NOW THEREFORE, IT IS HEREBY RESOLVED by the City Council of the City of Davenport, Iowa, that:

1. Approving the contract for the City-Wide Printing Services for business cards, note cards, letterhead and envelopes to Davenport Printing Company of Davenport; and

2. Mayor Mike Matson or designee is authorized to sign and manage any related agreements;

Subject: Motion approving the Citizens Advisory Committee’s recommendations for the reprogramming of the unspent and unobligated Community Development Block Grant (CDBG) funds from CDBG Year 44 ending June 30, 2019. [All Wards]

Recommendation: Pass the Motion.

Background:
Each year, the Citizens Advisory Committee’s (CAC) recommends allocating the unspent and unobligated Community Development Block Grant (CDBG) funds from the prior fiscal year; as of 6/30/2019 there remained $199,892.25 in CDBG funds. Due to federal regulations limiting the amount of funding able to be allocated to specific categories of activities, no additional funds could be awarded in the Public Services category. The funds came from the following programs funded in Year 44:

- Family Resources $ 54.66
- Vera French $ 1,954.62
- Salvation Army $ 13,981.63
- Planning & Admin $ 55,352.46
- City Housing Rehabilitation Staff & Supplies $ 128,548.88

Reprogramming Requests:
According to the CAC’s approved reprogramming process, programs under contract for the current program year in the non-public service category (which is not capped by HUD regulations) could apply for reprogrammable funds. This year, the following non-public service programs with active Year 44 CDBG awards were notified of the ability to apply for reprogrammable funds and the following requests were received:

- CDBG Planning & Administration $ 30,000.00
- Housing Rehab & Neighborhood Revitalization Fund $169,892.25

CAC Recommendation:
At the November 4, 2019 CAC meeting the committee considered the reprogramming request. The Committee first voted to determine whether the requests received were eligible. The vote was unanimous that the requests were eligible. The CAC next voted to make the following recommendation:

- CDBG Planning & Development $ 30,000.00
- Housing Rehab & Neighborhood Revitalization Fund $169,892.25
Following Council action, the current year’s Action Plan will be amended, with notice published in The Quad City Times and submission of the amendment to HUD.

Motion to ratify change orders #1 & #2 for the Eastern Ave Reconstruction Project contracted with Langman Construction, Inc in the amount of $51,942, CIP #35035. [Wards 6 & 7]

Recommendation:
Pass the Motion.

Background:
During initial construction activities, additional repair work was identified by the City’s project team and contractor. This work increased the bid item quantities for Crushed Rock Stabilization and PCC Pavement. A line item for Intake Repair was also added to reconstruct storm water intakes that were found to be deficient. This work was captured in change order #1.

Change order #2 includes the award of a $5,000 early completion bonus, as outlined in the contract documents for this project, and final bid item quantity adjustment for additional PCC pavement removal and replacement.

Each of these change orders have been approved by the appropriate staff per the City’s purchasing policy. The totality of change orders #1 & #2 have exceeded $50,000 since the last time the Council approved the contract; therefore this greensheet is notifying the Council of these approved changes.

CONTRACT SUMMARY:
Original Contract Amount  $466,421.65
Change Order #1  $37,500.00 (Staff Approved)
Change Order #2  $14,442.00 (Staff Approved & Pending Council Ratification)
Total Amended Contract  $518,363.65

Subject:
Motion to ratify change orders #1 - #5 for the Main Street Landing - Phase I project to Hawkeye Paving in the amount of $62,600.47, CIP #68004. [Ward 3]

Recommendation:
Pass the Motion.

Background:
During construction a number of unforeseen items, independent of one another, occurred that are not part of the existing contract. Each of these change orders have been approved by the appropriate staff per the City's purchasing policy. Change order five is finalizing the contract's final cost; and the totality of change orders #1 - #5 have exceeded $50,000 since the last time the Council approved the contract; therefore, this greensheet is notifying the Council of these approved changes.

CHANGE ORDER SUMMARY:

Change Order #1 - Provide additional working days to handle utility delays beyond the contractor's control.

Change Order #2 - Additional foundation depth of the seven light poles due to poor sub-grade soil conditions. Hawkeye Paving has agreed to change order #2 work for $6,125.

Change Order #3 - Additional haul and equipment time due to contaminated sub-grade soils. Hawkeye Paving has agreed to change order #3 work for $4,342.97.

Change Order #4 - Additional foundation depth of the twenty-two catenary light poles due to the sub-grade soil conditions. Hawkeye Paving has agreed to change order #4 work for $19,250.

Change Order #5 - Additional excavation and stabilization rock around the seat wall foundations, material and installation costs for dirt backfill inside the seat wall areas, and flood clean activities. Hawkeye Paving has agreed to change order #5 work for $32,882.50.

CONTRACT SUMMARY:

<p>| Original Contract Amount     | $652,807.00 |
| Change Order #1              | $0.00 (Staff Approved on 9/5/2018) |
| Change Order #2              | $6,125.00 (Staff Approved on 10/1/2018) |
| Change Order #3              | $4,342.97 (Staff Approved on 10/15/2018) |
| Change Order #4              | $19,250.00 (Staff Approved on 8/7/2019) |
| Change Order #5              | $32,882.50 (Staff Approved &amp; Pending Council Ratification) |
| Total Amended Contract       | $715,407.47 |</p>

Motion approving the contract for the Adler Stage Floor Replacement to WRS Construction Inc of Davenport, IA in the amount of $83,205, CIP #69015. [Ward 3]

Recommendation: 
Pass the Motion.

Background: 
An Invitation to Bid was issued and sent to contractors on November 15, 2019. On January 7, 2020, the Purchasing Division opened and read three responsive and responsible bids. WRS Construction Inc was the lowest bid.

WRS has successfully performed many projects for the City in the past.

This project will take place during the middle of the summer, from mid-June until mid-August. There are no events scheduled for the stage at this time to allow for the floor replacement. The current floor is chipped and cracked.

This project will be paid for with the CIP account #76031675 530350  69015 Adler Theatre Stage Floor Replacement, with a current balance of $125,000. These funds are from Hotel/Motel tax.
