First Consideration: Ordinance for Case REZ21-01 being the request of Dan Lorentzen on behalf of Rock Church Ministries Inc to rezone Lot 2 of Nims Acres from S-OS Open Space District to R-1 Single-Family Residential District. [Ward 7]

PLAN AND ZONING COMMISSION RECOMMENDS DENIAL. 8 VOTES REQUIRED FOR PASSAGE.

Recommendation:

Adopt the Ordinance.

Background:

The purpose of the rezoning is to construct a church. A rezoning requires analysis of all potential uses within the requested zoning. The Plan and Zoning Commission considered Case REZ21-01 at its March 2, 2021 meeting and voted to forward the request to City Council with a recommendation for denial.

The Commission vote was 5 yes, 3 no, and 0 abstention.

The Public Hearing before City Council was held on March 17, 2021 with no public comment. Staff has received one comment opposing the rezoning which has been included in the background information.

The property currently has no viable access to 46th Street. The petitioner has provided a signed statement indicating potential agreement to grant access with adjacent property owners; however no recorded easement agreement is in place and property ownership has not been verified. The statement and draft easement have been included in the background information.

The 2019 zoning code specifically assigned the Open Space Zoning to align with the +2035 Comprehensive Land Use Plan.

Findings:

1. The proposed amendment does not promote the orderly development of Davenport in accordance with the Comprehensive Plan and adopted land use policies.
2. The rezoning petition does not promote the preservation, protection, and conservation of natural resources.
3. The existing S-OS Open Space District is compatible with the zoning of nearby property.

Case REZ21-01: Request of Dan Lorentzen on behalf of Rock Church Ministries Inc. to rezone Parcel P1304-02C from S-OS Open Space District to R-1 Single-Family Residential District to allow for the construction of a church [Ward 7].

Background:

The petitioner is requesting a rezoning to R-1 Single-Family Residential District to allow for construction of a church. The S-OS Open Space District does not permit places of worship. A rezoning to R-1 Single-Family Residential District is the least intensive zoning classification that permits a church.

The 3.53 acre lot is located south of 46th Street and west of the railroad tracks. Deere Creek flows through the southeast corner of the parcel. The wooded lot also contains 100 year flood plain overlay, making the eastern portion of the property undevelopable.

The vacant parcel does not contain any street frontage. A fifteen foot private easement abuts the railroad right-of-way on the east lot line connecting the site to 46th Street. However, the private easement is not practical in offering ingress and egress to the property given the topography and proximity to Deere Creek. In order to develop the property, the owner will have to purchase additional property or create a new private easement along the west lot line for access to 46th Street.

Comprehensive Plan:

Within Existing Urban Service Area: Yes

Within Urban Service Area 2035: Yes

Future Land Use Designations: The property is designated Parks and Recreation (PR) in the Davenport +2035 Land Use Plan. The Future Land Use Designation would need to be amended to Residential General (RG) through the adoption of a resolution by City Council.

1. **Parks and Recreation (PR)** – Designates major developed parks, recreation areas, golf courses, cemeteries, etc. Park or recreation properties can be located in any zoning district. Smaller parks may not appear on the map because of the more general nature and scale of the map. But, it is implied in Residential General (RG) that small neighborhood parks are included.
2. **Residential General (RG)** – Designates neighborhoods that are mostly residential but include, or are within one-half mile (walking distance) of scattered neighborhood-compatible commercial services, as well as other neighborhood uses like schools, churches, corner stores, etc. generally oriented along Urban Corridors (UC). Neighborhoods are typically designated as a whole. Existing neighborhoods are anticipated to maintain their existing characteristics in terms of land use mix and density, with the exception along edges and transition areas, where higher intensity may be considered.

Zoning:

The property is currently zoned S-OS Open Space District. This district is intended to provide and protect larger open space and public recreational facilities, both outdoor and indoor, and cemeteries. Larger regional open spaces/parks may include both active and passive recreation areas and certain ancillary uses, such as cultural facilities, performance venues, and eating establishments. This district is also intended for governmental agency offices/facilities providing a governmental service to the public.

The applicant is requesting a rezoning of the property to R-1 Single-Family Residential District. This district is intended to accommodate the lowest-density single-family neighborhoods within the City of Davenport, exhibiting a predominantly semi-suburban development pattern of large lots and generous yards. The R-1 district is the least intensive residential zoning classification that allows for places of worship.

Technical Review:

City Departments and Utility Companies have reviewed the proposed rezoning petition. Sanitary sewer is present along the east lot line and on the parcel directly south of the subject property. All other utilities must be brought to the site through utility easements at the owner's expense. The City of Davenport will not permit propane tanks to service the building.

Public Input:

Letters were sent to property owners within 200 feet of the proposed request notifying them of the February 2, 2021 Plan and Zoning Commission Public Hearing. Since the applicant was not in attendance, the Commission voted to table the item for one meeting cycle.

To date, staff has received one written response from an adjacent property owner in opposition to the rezoning. Concerns raised included preservation of the natural area, impacts on wildlife, and treatment of sewage. The property owner at 1603 McCormick Place spoke in opposition at the Plan and Zoning Commission public hearing on February 16, 2021.

A Notice of Public Hearing has been published in the Quad City Times.

Staff will apprise the Commission of any additional correspondence.

Why is a Zoning Map Amendment Required?

The Zoning Ordinance does not permit a place of worship in the S-OS Open Space District. The R-1 Single-Family Residential District is the least intensive residential zoning classification that allows for a new church to be constructed.

Approval Standards for Map Amendments (Chapter 17.14.040)

The Plan and Zoning Commission recommendation and the City Council decision on any zoning text or map amendment is a matter of legislative discretion that is not controlled by any particular standard. However, in making their recommendation and decision, the Plan and Zoning Commission and the City Council must consider the following standards. The approval of amendments is based on a balancing of these standards.

- a. The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.

Staff Response: The property is designated Parks and Recreation (PR) in the Davenport +2035 Land Use Plan. The proposed church is incompatible with the future land use category description, which is intended for developed parks, recreation areas, golf courses, and cemeteries. The surrounding area south of 46th Street and west of the railroad tracks consists of cemeteries, creeks, floodplain, and wooded areas. Instead, the proposed church development fits the criteria for Residential General (RG).

It is staff's opinion that the proposed amendment does not promote the orderly development of Davenport in accordance with the Comprehensive Plan and adopted land use policies.

However, if the City Council recommends approval, then a condition shall be placed on the Zoning Map Amendment requesting City Council to adopt a resolution amending the Future Land Use Designation from Parks and Recreation (PR) to Residential General (RG).

b. The compatibility with the zoning of nearby property.

Staff Response: The subject parcel is surrounded by S-OS Open Space District to the north, west, and south. The City of Davenport Public Works Facility and other I-1 Light Industrial District and I-2 Heavy Industrial District properties are north of 46th Street. The parcel is removed from the residential neighborhoods to the east by the railroad tracks. Mt. Calvary Cemetery, Davenport Memorial Park, Pine Hill Cemetery, and Mt. Nebo Cemetery are directly south of Goose Creek and also zoned S-OS Open Space District.

It is staff's opinion that the proposed amendment is not compatible with the zoning of nearby property.

c. The compatibility with established neighborhood character.

Staff Response: The established character of the area south of 46th Street and west of the railroad tracts is predominately open space. While there is residential to the east of the site, there is a clear delineation of uses separated by the railroad tracks. Directly abutting the subject parcel to the north, west, and south are undeveloped wooded areas and creeks. Removing vegetation to construct a building, off-street parking, and an access drive to 46th Street will diminish the natural characteristics of the area.

In addition, the subject parcel does not have street frontage along a public right-of-way. The three properties directly north are under separate ownership. An easement agreement providing the applicant vehicular access to 46th Street must be recorded prior to the issuance of any construction or grading permits if the site were developed.

It is staff's opinion that the proposed amendment is not compatible with the established neighborhood character.

d. The extent to which the proposed amendment promotes the public health, safety, and welfare of the City.

Staff Response: Developing the 3.53 acre wooded lot requires substantial alteration of the natural landscape. Deere Creek flows along the east lot line and merges with Goose Creek directly south of the property. There is 100-year floodplain covering the southeast portion of the site, making this area undevelopable. Furthermore, the topography of the parcel fluctuates roughly 36 feet from its highest point on the northwestern portion of the site to its lowest point along the east lot line.

The subject parcel is setback approximately 435 feet from 46th Street. Elevations and its distance to the public right-of-way make it challenging to identify the property in an event of an

emergency. Off premise signs are not permitted, adding to the difficulty in directing first responders to the property. New construction requires grading the natural terrain to accommodate the building footprint and off-street parking requirements. Section 17.11.100 of the Zoning Ordinance, titled "Tree Preservation", encourages existing trees that are in good condition to be preserved to the maximum extent practicable. Rezoning the site produces potential risks to the public health, safety, and welfare of the city.

It is staff's opinion that the proposed zoning map amendment to R-1 Single-Family Residential District does not promote the preservation, protection, and conservation of natural resources.

- e. The suitability of the property for the purposes for which it is presently zoned, i.e. the feasibility of developing the property in question for one or more of the uses permitted under the existing zoning classification.

Staff Response: Under the current Zoning Ordinance, the S-OS Open Space District does not allow for places of worship. The S-OS Open Space District is suitable given its topography, vegetation, and proximity to floodplain. The City made a deliberate decision to zone this area as open space to align with the City's Comprehensive Plan during the 2019 Zoning Code update.

It is staff's opinion that the property is not suited for development of the proposed use under the existing S-OS Open Space District.

- f. The extent to which the proposed amendment creates nonconformities.

Staff Response: The undeveloped 3.53 acre site satisfies the dimensional standards for the R-1 Single-Family Residential District.

It is staff's opinion that the proposed amendment will not create any nonconformities.

Mr. Dann C. Naverson

This letter is in regards to the proposed construction of a private access drive from 46th Street in Davenport, IA across parcels P1303-03C, P1304-05, and P1304-04A, all of which are owned by SCI Funeral Services of Houston, TX. Per our previous discussions, the proposed drive would be used to access Rock Church Ministries' parcel, P1304-02C, with plans to build a new church at that location. Rock Church Ministries grants SCI full access to the drive for future development purposes. This includes the use of and connection to the proposed drive. Plans for the location of the drive are shown on the following page.

In order for the City to move forward with Rock Church's rezoning application, an authorized signature granting the construction of said drive is required. As Director of Real Estate for SCI, we have provided a signature line for you below.

Please review and return a signed copy for Rock Church's records in moving forward with the rezoning application. If you should have any questions or concerns, please contact us and we can discuss.

I would like to oppose the construction of a church being built at this location. I am a neighbor who's property will be next to the church and I have some concerns with development in that area. First I am concerned with the added sewage use. We currently have days when the sewer smell can be unbearable. This item has been a complaint for many years by fellow neighbors and my concern with added sewer usage. Will this smell continue to worsen? Also my other concern with that area is the effect it will have in the wildlife who take refuge in those woods. There are not many places in the city for the variety of animals that live in that area. I am concerned with increase development, it will drive the wildlife out and into more of the neighborhoods in that area. If these items can be addressed I would greatly appreciate it.

Thank you so much,

Jane Nickels

Attachment A: SRO Annual Program Evaluation

Safety

One of the primary duties and responsibilities of the SROs is to assist the Davenport Community School District in creating an environment that leads to positive educational outcomes by preserving the individual safety and security of students and staff members. SROs do not proactively “police” school buildings but work with administration to address criminal matters. Addressing behavioral issues inside the classroom is the responsibility of educators and staff.

The following parameters will be incorporated into the SRO program to be evaluated annually:

Annual Survey | In order to determine the perception of SROs in the school and how they directly relate to a sense of safety, DCSD will administer an annual survey of both students and staff every March. See Attachment B.

Monthly Statistics | Each month, the school liaison will be responsible for collecting statistics applicable to the SRO program including arrests/citations made from incidents originating at the schools, referrals made to the diversion program, number of mediations held with both parents and students, and P3 tip numbers.

Safety Issue Response | DPD and DCSD staff will meet annually to discuss how SROs are being utilized within the schools to address safety issues as they arise and to ensure SROs are not being utilized in behavioral incident response that could otherwise be handled by DCSD staff.

Education

SROs partner with DCSD to present classroom instruction which is supplementary to the DCSD curriculum.

The following parameters will be incorporated into the SRO program to be evaluated annually:

Classes | SROs are trained in instructing classes such as “Law and You” and “Technology and the Law” and teach in the classroom setting at the request of administrators. Pre and post assessments will be given to gauge the effectiveness of these classes.

Monthly Statistics | Each month, the school liaison will be responsible for collecting statistics applicable to the SRO program including the number of students who participated in SRO taught classes and the change in scores between pre and posttests.

Mentorships/Relationships

Davenport Police SROs strive to build trusting relationships and have positive interactions with students. These relationships are built both formally, while acting in an official capacity, and informally, such as at lunch time or in passing. Officers also regularly participate in positive mentoring programs in the elementary schools. These relationships are the foundation for future community partnerships.

The following parameters will be incorporated into the SRO program to be evaluated annually:

Annual Survey | In order to determine the perception of SROs in the school and how they directly relate to a sense of safety, DCSD will administer an annual survey of both students and staff every March. See Attachment B.

Monthly Statistics | Each month, the school liaison will be responsible for collecting statistics applicable to the SRO program including the number of school functions participated in and the number of mentorship events participated in.

An SRO is a specially trained police officer deployed in a community-oriented policing assignment to work in collaboration with one or more schools.

The role of the SRO is rooted in the three key principles: safety, education, and mentorship.

To achieve excellence in these principles, SRO's work with school staff to provide a safe and equitable learning environment, provide valuable resources to school staff, foster positive relationships with youth by way of example.

Importantly, they work to develop strategies to resolve problems affecting today's youth, such as the responsible use of technology and how to navigate an interaction with a police officer.

In August 2020, the Davenport Community School District (DCSD) and the City of Davenport approved a funding agreement for the DCSD SRO program, in which DCSD reimburses the City of Davenport the cost of DPD personnel assigned to district buildings. New this year is a Memorandum of Understanding (MOU). Why is the City and DCSD adopting an MOU now?

When approving the funding agreement, City Council requested the creation of a memorandum of understanding (MOU) between the City and the School District to clarify the roles and responsibilities of the SROs.

Its purpose: communicate the mutually acknowledged expectations that ensure that the SRO program is administered equitably, effectively and meets or exceeds nationally accepted best practices.

Who was involved in the process of developing the MOU?

After the approval of the funding agreement, Mayor Matson convened a diverse task force representing the League of United Latin American Citizens (LULAC), National Association for the Advancement of Colored People (NAACP), law enforcement, elected and staff City leadership, educators, and additional community spokespeople.

To draft the MOU, the following three steps were taken:

- 1. Task force discussion**
- 2. Additional community outreach**
- 3. Joint public works session**

Discussions in **step one** were conducted through multiple meetings with the task force to discuss the purpose and mission of SROs in school buildings, best practices for SROs, the collection and sharing of data, and how the SRO program will be evaluated annually.

Task force members also engaged the community in **step two**, asking for additional feedback by reaching out to a swath of community stakeholders including teachers, parents, community groups, and the DCSD Multicultural and Diversity Committee.

To conclude **step three**, The Davenport City Council, DCSD Board of Directors, and representatives from NAACP and LULAC met for a joint public work session in March 2021 to discuss the MOU.

What is the final step to approve the MOU?

The Davenport City Council and DCSD Board of Directors will now discuss and vote on the approval of the MOU at their upcoming public meetings in April.

The MOU referenced the collection of data and monthly reporting mechanisms. Will that be made available to the public? What, if any, data will be collected on the SRO program? Will it be made available to the public?

Yes, data and monthly reporting mechanisms will be available to the public on both the City and school district's websites and will include data relating to calls for service, juvenile charges (including student demographics and type of charge), referrals to the diversion program, trancies filed, classes taught, P3 campus tips handled, Handle with Care notifications, and any other outreach programs the officers regularly participate in.

Data development and reporting is considered key to the MOU as it enables the collective parties to identify positive and negative trends and adapt efforts to meet the everchanging environment.

Adapting through data and reflection is paramount to the SRO program's ability to achieve excellence within the key principals of safety, education, and mentorship.

Beyond monthly reporting, what additional evaluations are in place for the SRO program?

The SRO program will be evaluated annually jointly by the Mayor, DCSD Board President and administrative staff liaisons from the City and DCSD.

As the foundation of the SRO program, the aforementioned pillars of safety, education and mentorships will lead the evaluation. Elected officials and staff will use data from the monthly statistics, an annual survey given to students in schools that have SROs and stakeholder feedback to ensure that the SRO program is meeting or exceeding expectations.

How are the School Resource Officers chosen? Do they receive any special training?

School Resource Officers are selected by the Davenport Police Department (DPD) with input from the Davenport Community School District.

Officers interested in this position must apply and go through a rigorous selection process. They are chosen based on their interest in this field, past performance, decision making, and their ability to work with students.

Upon selection, all SROs receive training through the National Association of School Resource Officers. This unique training provides the SROs with an in-depth understanding of the role and functions of their position, provides a foundation on how to build positive relationships with students and staff, and teaches them how to assist school staff in providing a safe learning environment.

The competency of each SRO's is evaluated every year, with input from school staff, to ensure the purpose and mission of the position is maintained with integrity.

What kind of problems do the officers handle in the schools? Are they responsible for handling disciplinary issues within the schools?

The primary duty and responsibility of the SROs is to assist the DCSD in creating an environment that leads to positive educational outcomes by preserving the individual safety and security of students and staff members.

This includes resolving and de-escalating conflict between students, securing the building from intruders, and responding to calls for service at the schools regarding criminal matters.

What is important to know is this: SROs do not proactively "police" school buildings but work with administrators to resolve criminal incidents as they arise and de-escalate incidents whenever possible. Ultimately, the SRO shares the responsibility with the school they are assigned to regarding safety, relationship building and assuring a positive, welcoming environment conducive to learning.

Addressing behavioral issues inside the classroom is the responsibility of DCSD educators and staff, not the SRO.

Do SROs participate in any other juvenile justice programs?

Yes! It is understood and agreed upon that these programs are essential in their efforts to keep students out of the court system by providing them tools that prevent recidivism.

That is why the SRO participate in Scott County Juvenile Court's Services diversion program by referring any student's first simple misdemeanor to the program in lieu of receiving a citation or arrest. This program helps keep students out of the court system and gives.

Officers are also trained and participate in the District's Crisis Response and Violence Prevention program.

Second Consideration: Ordinance amending Schedule VII of Chapter 10.96 entitled "No Parking" by adding East 56th Street along both sides from Utica Ridge Road east to the City limits. [Ward 6]

Recommendation:

Adopt the Ordinance.

Background:

Both the City of Davenport and City of Bettendorf would like to convert East 56th Street (Utica Ridge Road to 18th Street in Bettendorf) to a 3-lane road. There are numerous driveways and side streets in this corridor so a continuous 2-way left turn lane would help ease congestion that might occur behind a driver waiting to turn left. All parking would need to be removed for this to be painted as a 3-lane road.

We have also had complaints about parked cars causing congestion and making it difficult to exit business driveways with cars parked across the street. All of the businesses in this area have ample off-street parking so this change should not cause a hardship. The road would be painted as soon as possible after the installation of the no parking signs.

Resolution approving a HOME-funded development agreement for the 601 Brady project (601 Brady Associates, L.P., petitioner). [Ward 3]

Recommendation:

Adopt the Resolution.

Background:

Each year, the U.S. Department of Housing and Urban Development (HUD) allocates HOME Investment Partnership (HOME) funding to the City. HOME funds have to be spent on housing projects/activities that benefit households at or below certain income levels and must be allocated on an ongoing basis or be repaid to HUD.

The project, proposed by developer Newbury Living (West Des Moines), involves the rehabilitation of the existing historic office building placed in service in 1958. It is a significant example of mid-century modern design by Walter Kruse who had a familial connection with the Davenport architectural firm known at the time as Clausen & Kruse. The building was constructed by Priester Construction (another Davenport company) which then used the building to house their office space.

The developer has proposed the repurposing from office space to thirty-four residential units. They will be efficiency and one-bedroom units designed primarily to be rented at market rates. The proposal includes seven of the units to be funded by State HOME funds in the amount of \$1,000,000 with an additional four units to be assisted by City HOME funds for a total of eleven affordable units at 80% of Median Family Income, which is approximately \$42,250 for a single person.

To assist with a financing gap, a \$635,695 loan in HOME funding is proposed for the project and reflected in the draft Development Agreement.

Pending approval of the final underwriting, environmental review, and availability of funding, approval of the Development Agreement will authorize staff to execute the appropriate documents to commit the above sources of funding. The developer anticipates beginning site work by July 2021 and hopes to be completed by August 2022.

Resolution authorizing submission of an application to the Iowa Department of Transportation's RISE program to support public infrastructure improvements necessary for the construction of a distribution and warehousing operation near the Eastern Iowa Industrial Center. [Ward 8]

Recommendation:

Adopt the Resolution.

Background:

The City is currently working with a specific developer for the construction of a warehousing and distribution operation that will create more than 1,000 permanent jobs in the City of Davenport.

This project would be located on 160 acres directly west of the Davenport Municipal Airport on Division Street. Several upgrades must be made to both the street infrastructure leading to the project site as well as improvements surrounding the area to accommodate the increase in automobile and industrial traffic. Proposed improvements include:

- Reconstruction and new turning lanes on north Division Street adjacent to the project site
- Intersection improvements at Hillandale Road & Research Parkway with the EIIC
- Intersection improvements at Northwest Boulevard & Hillandale Road at the entrance of the EIIC
- Intersection improvement at Northwest Boulevard & West 76th Street
- Intersection improvement at Division Street & West 76th Street

The estimated cost of these improvements are approximately \$3,900,000. The City is applying to the Iowa Department of Transportation's Revitalizing Iowa's Sound Economy (RISE) grant program to help with the cost of these improvements. The project will be broken out with RISE funding coming from both the Immediate Opportunity grant and the General Development grant. The Immediate Opportunity RISE funding request is estimated to cover 80% of costs (with an estimated award of \$3,120,000). The RISE program requires a matching contribution. The City anticipates using general fund and bonds abated by TIF funding to cover the 20% required contribution of \$780,000.

Resolution approving the plans, specifications, form of contract, and estimate of cost for the FY 2021/2022 Manhole Rehabilitation/Replacement & CIPP Lining Program, CIP #30050. [All Wards]

Recommendation:

Adopt the Resolution.

Background:

This combined program addresses many of the manholes of the sanitary collection system that are structurally deficient and allow for inflow and infiltration. In addition, the program rehabilitates existing sanitary sewers through the use of cured-in-place pipe (CIPP) liners. The CIPP product has been proven to eliminate leaking joints, restore structural integrity to damaged sewers and provide increased flow capacity without the cost of open excavation.

The rehabilitation of the manholes and sanitary sewer pipes is needed to comply with the Iowa Department of Natural Resources (IDNR) Administrative Consent Order.

This program is a combined effort by the Sewer and Engineering Divisions of the Public Works Department. The manhole and sanitary sewer pipe rehabilitation areas were based on inflow and infiltration studies and inspections by City Staff.

Funds for the Fiscal Year 2021/2022 Manhole Rehabilitation/Replacement & CIPP Lining Program are budgeted in CIP Project #30050 funded at \$2,500,000 in bonds abated by sewer funds.

Motion approving the Amended Annual Action Plan for Year 46 (July 1, 2020 - June 30, 2021) for the CDBG and HOME Programs. [All Wards]

Recommendation:

Pass the Motion.

Background:

Each year, the City must submit an Annual Action Plan (AAP) to the Department of Housing and Urban Development (HUD). This plan is required to receive Community Development Block Grant (CDBG) and HOME Investment Partnership (HOME) funds. The plan for Program Year 46 (Federal Fiscal Year 2020/city fiscal year 2021) covers the period from July 1, 2020 through June 30, 2021. The plan was submitted to HUD, and was approved on July 8, 2020.

The AAP identifies the goals and needs for the CDBG and HOME programs, including the objectives to be addressed, which were approved by Council at the November 13, 2019 meeting, and the allocations of the federal entitlement funds which were approved by Council at the March 25, 2020 meeting.

In light of the unprecedented impacts of COVID-19, HUD has instructed communities receiving the CDBG and HOME grants to amend their current Annual Action Plans to incorporate COVID-19 response funding and activities. HUD published suspensions, waivers and guidance that included the public comment period being reduced from 30 days to 5 days along with a virtual public hearing. Notice of the public comment period was published in the Quad City Times on April 15, 2021 and the required 5-day comment period will run from April 16-20, 2021.

This substantial amendment to the 2020 Annual Action Plan will enable the City to do the following:

Add the additional CDBG-CV funding (CV-3) which along with CV-1 totals \$1,460,804 and will provide financial relief to assist small businesses in Davenport that have lost revenue due to COVID-19. The funding will provide forgivable loans to businesses negatively affected by COVID-19. Program will provide economic development assistance including loans, loan guarantees, grants, microenterprise assistance, and infrastructure development to businesses impacted by COVID-19 and in need of assistance to stabilize, create and/or retain jobs in Davenport. Loans and grants provided could be made available for operating capital, acquisition, rehabilitation, demolition, slum blight prevention/removal. At least 51% of the jobs created or retained by the assisted small businesses must be made available to low/moderate income people.

Additionally CDBG-CV CARES Act funding will provide for a variety of public service activities serving low to moderate income clientele impacted negatively by COVID-19. Motion awarding the scope of services for the River Heritage Park Safety Railing Removal and Resetting project to Crawford Company of Rock Island, Illinois in the amount of \$55,147, CIP #68013. [Ward 3]

Recommendation:

Pass the Motion.

Background:

The City of Davenport is undertaking the structural repair of the government seawall at River Heritage Park. As part of this project, the existing safety railing will be dismantled, re-finished, and reset into the repaired wall.

Crawford Company, as the original fabricator of the railing, has been named as a sole source provider of the railing and will be working with the seawall repair contractor to ensure the successful dismantling and resetting of the railing panels into the repaired wall.

As part of this construction scope, Crawford Company will execute the following:

Re-Coating of Original Panels:

- Provide the labor to pick up the existing extracted railing and posts from the site.
- Sweep blast assemblies to remove any loose powder coating materials.
- Recoat assemblies black, and bake to ensure proper adhesion.
- Deliver assemblies back to the project site once completed.

Scope Price: \$19,485

Panel Re-Installation:

- Provide the materials and fabrication of steel retaining braces for supporting the wall.
- Provide the lumber, stakes and hardware for the temporary bracing of this railing to be set in position before the new wall cap has been poured.
- Provide the labor and equipment to set the railing segments in position. We will then pull off the site while your civil contractor pours the new concrete wall cap.
- Remove of bracing and site cleanup of these materials.

Scope Price: \$35,662

The above outlined improvements are being scheduled for late spring 2021 construction bid with substantial completion estimated to occur in early summer 2021.

The total project cost under this project scope is \$55,147.

Motion approving the purchase of two storage tanks for calcium chloride from Protank of Olive Branch, Mississippi in the amount of \$73,946. [All Wards]

Recommendation:

Pass the Motion.

Background:

An Invitation to Bid was issued on March 24, 2021 and sent to suppliers. On April 8, 2021, the Purchasing Division opened and read five (5) responsive and responsible bids. See bid tab attached.

This purchase is for two (2) 10,000 gallon double walled tanks for calcium chloride. Additional storage for calcium chloride is needed due to the number of new plow trucks which have been purchased in recent years. Older trucks were limited to the amount of calcium chloride that could be used to pre-wet the salt by the type of pump on the spreader. The new trucks and spreaders are able to pump calcium chloride at a greater capacity for pre-wetting, which enables the salt to work more effectively. The use of more calcium chloride results in a diminished use of salt and an overall cost savings to the City.

Protank of Olive Branch, Mississippi was the lowest responsive and responsible bidder.

Funding for this project is from the Road Use Tax Fund, account 54702031 530303 Streets Operating Equipment.
