**Plan & Zoning Commission-Staff Report**

**Case ROW22-01: Request of Seven Hills Paving LLC to vacate unimproved right-of-way south of East 59th Street and west of Tremont Avenue. [Ward 8]**

**Background:**

The approximately 30' by 674.38' public right-of-way was platted with the recording of Brady Eighty Industrial Park 5th Addition in 1975 and Brady Eighty Industrial Park 6th Addition in 1977. The original plan was to construct a north-south street through the City's industrial park. However, the location of Tremont Avenue was shifted further east with the recording of Phoenix Centre 7th Addition.

This right-of-way, which was intended to be half of Tremont Avenue, was never constructed or vacated. Instead the area has remained unimproved and heavily wooded. In addition, there is a 50 foot Utility and Drainage Easement to the east, which likely made the future build-out of Tremont Avenue impractical at this location. Furthermore, acquiring additional right-of-way to the west would be detrimental to the existing site and building at 923 East 59th Street.

The purpose of the right-of-way vacation is to facilitate development of Lots 7, 8, 9, and 10 of Brady Eighty Industrial Park 6th Addition. The property owner, Seven Hills Paving, has submitted a letter of intent for the future platting and development of the site.

The vacation of public right-of-way is a two-step process:

1. Determine if the right-of-way is needed for public purposes.
2. Negotiate and determine terms of conveyance to adjacent property owners. (No Plan and Zoning Commission action is required.)

**Comprehensive Plan:**

Within Existing Urban Service Area: Yes

Within Urban Service Area 2035: Yes

Future Land Use Designation of abutting properties: **Industry (I)** – Designates areas devoted to manufacturing, assembly/fabrication, warehousing and distribution, research and technological innovation centers, and associated commercial/office uses developed at a scale as to warrant access to good transportation networks and separation or buffering from residential uses.

Relevant Goals to be considered in this Case: Strengthen the Existing Built Environment.

**Zoning:**

The abutting properties are zoned **I-1 Light Industrial District**. This district is intended to provide for a variety of light manufacturing, fabricating, processing, distributing, and warehousing uses. Light industrial uses are enclosed, low-intensity uses with minimal, if any, outside impacts.

**Technical Review:**

1. Streets: The City of Davenport has no intention of acquiring additional right-of-way to construct a north-south street at this location due to the proximity to Tremont Avenue. In addition, the location of a utility and drainage way easement to the east makes the acquisition of additional right-of-way necessary to construct a full roadway impractical. Acquiring additional right-of-way

to the west will negatively impact the existing business at 923 East 59th Street and create nonconformities.

2. Storm Water: Future development of the property will need to comply with the City's stormwater requirements.
3. Sanitary Sewer: Existing infrastructure can be extended south to the future development site from East 59th Street.
4. Iowa American Water: There is an 8 inch water main within the public right-of-way proposed for vacation. The purpose of the main is to supply Lots 7-10 of Brady Eighty Industrial Park 6th Addition and potentially Lot 1 of Phoenix Centre 6th Addition. Iowa American Water requests an easement be recorded and for no permanent structures to be built within the easement. The properties at 923 East 59th Street and 5880 Tremont Avenue do not utilize this water main and will not be impacted.

**Public Input:**

Surrounding property owners were notified of the request of the right-of-way vacation. A notice was published in the Quad City Times. A meeting was held with 7 Hills Paving, J2 Investments (owner of 923 East 59th Street), and city staff on November 22, 2021.

The Plan and Zoning Commission held a public hearing at its January 4, 2022 meeting. No members of the public spoke at the meeting.

To date, one written comment has been submitted from the property owner at 817 East 59th Street. The written comment was neither opposed or in favor of the right-of-way vacation. Rather the owner inquired about the potential development of the site.

**Staff Recommendation:**

Staff recommends the City Plan and Zoning Commission accept the listed findings to vacate the unimproved right-of-way south of East 59th Street and west of Tremont Avenue in Case ROW22-01 to the City Council with a recommendation for approval subject to the listed conditions.

Findings:

1. The unimproved public right-of-way is not required for city purposes.
2. A utility easement would preserve the rights for utility providers to maintain existing and future infrastructure.

Conditions:

1. The property owner shall record an easement agreement immediately subsequent to the recording of the city's quitclaim deed.
2. A final plat shall be recorded within six months of the conveyance of public right-of-way. The final plat shall provide access and utility easements from the proposed lots to East 59th Street.
3. No development shall occur on Lots 7, 8, 9, and 10 of Brady Eighty Industrial Park 6th Addition until a final plat providing access to East 59th Street is recorded.

Subject:

Case ROW22-01: Request to vacate unimproved right-of-way south of 59<sup>th</sup> St and West of Tremont St. by new property owners, Seven Hills Paving.

Comment:

We wanted to write you to confirm what our intent is for vacated right-of-way and land located to the west of it. Unfortunately, we will not be able to be present at the next meeting, however we will try to connect remotely, any questions can also be directed to Mike Richmond, Townsend Engineering.

Our plan for this property and vacated right-of-way is to no longer keep these 4 parcels separate, but rather condensing them into one. The city right-of-way will be used as a flag lot to give us access to 59<sup>th</sup> St. We have talked with J2 Investments (923 E 59<sup>th</sup> St) and they are in agreement for us to be able to create an easement with them once the right-of-way is vacated to us.

Seven Hills Paving is starting their 50<sup>th</sup> year in business in 2022. We are located in Maquoketa IA; however, our business is primarily done in the Quad Cities area. In the past we have just moved our equipment back and forth between projects and Maquoketa, but now it will be nice to have a dedicated location on the North side of Davenport.

With this land we plan to build it up and create a satellite storage lot for our equipment and supplies. This will include constructing a new storage building (approx. 50x80), chain-link fencing around the storage lot, and extending the paved access lane to service the new building. We also plan on creating a small, paved parking lot (of 6-8 stalls) for our employees. For the most part we will not have any customer traffic to this location, as we go to our customers, they don't usually come to us.

We look forward to working with the City of Davenport, as we move forward with this goal. We are not land developers by any means, so we truly appreciate all the help and guidance we have received so far with this process. Everyone has been very accommodating.

Sincerely,  
Seven Hills Paving

Third Consideration: Ordinance amending Schedule I of Chapter 10.96 entitled "Snow Routes" by adding Duggleby Street between Locust Street and Jersey Ridge Road. [Ward 5]

Recommendation:

Adopt the Ordinance.

Background:

Duggleby Street is often used by the firefighters from Station No. 4 at the corner of East Locust Street and Judson Avenue. It is not as steep as the nearby streets and is a quicker way for them to get to the Village of East Davenport. They've had some recent issues with snow and ice accumulation so it would be best if the street became a snow route. If they used the other snow routes in the area to reach Jersey Ridge Road, it would involve a left turn onto Locust Street (with no traffic signal) and be a much longer trip.

Third Consideration: Ordinance amending Chapters 2.36, 2.42, and 2.90 to change the geographic area in which Civil Service Employees may live, and to include part of Illinois. [All Wards]

Recommendation:

Adopt the Ordinance.

Background:

Currently, civil service employees for the City of Davenport are required to live within the State of Iowa within 2 years of their date of hire, except that members of the Police Department and Fire Department are required to live within all of Scott County or within all of Muscatine County lying east of the fifth principal meridian.

Chapter 400.17(3) of the Iowa Code permits cities to allow its civil service employees to reside in another state and to set a reasonable distance outside the City for Police Officers and Firefighters to reside. Paragraphs (a) and (b) of Iowa Code Chapter 400.17(3) state as follows:

“3. a. Employees shall not be required to be a resident of the city in which they are employed, but they shall become a resident of the state within two years of such appointment or the date employment begins and shall remain a resident of the state during the remainder of employment. ***The state residency requirement under this paragraph “a” shall not apply to employees of a city that has adopted an ordinance to allow its employees to reside in another state*** and shall not apply to an employee of a city that later repeals such an ordinance if the employee resides in another state at the time of the repeal.

b. ***Cities may set a reasonable maximum distance outside of the corporate limits of the city, or a reasonable maximum travel time, that police officers, fire fighters, and other critical city employees may live from their place of employment.*** An employee subject to a residency requirement based on distance or travel time who does not meet that residency requirement on the date of appointment or on the date employment begins shall take reasonable steps to meet the requirement as soon as practicable, and a city may provide the employee up to one year from the date of appointment or the date employment begins to meet the residency requirement.” ***(emphasis provided)***

The amendment will allow civil service employees to reside in both Iowa and Illinois and would also allow sworn, civil service Police and Fire employees to reside within 20 miles of the corporate limits of the City of Davenport.

Third Consideration: Ordinance amending Chapters 13.16.107A and 13.16.107B entitled “Sanitary Sewer Rates – Amount” from \$5.45 to \$5.72 to \$6.01 to \$6.31 per one hundred cubic feet of water use as determined by water meter readings; and amending per bill rates for monthly commercial bills from \$20.80 to \$21.84 to \$22.93 to \$24.08; and amending per bill rates for monthly residential bills from \$20.97 to \$11.96 to \$12.45 to \$12.96; and amending per bill rates for quarterly residential bills from \$28.47 to \$29.87 to \$31.34 to \$32.88 and quarterly commercial bills from \$27.97 to \$29.37 to \$30.84 to \$32.38. [All Wards]

**Recommendation:**

Adopt the Ordinance.

**Background:**

The City is responsible for protecting health and property of its citizens. One of its most significant operations in this mission is the establishment and maintenance of the sanitary sewer system and operations of the regional water pollution control plant. For more than 40 years, sewer rates have been established to generate fees in order to fund this operation and maintain the necessary infrastructure. The purpose of using a fee versus the use of property tax is based on the theory that users should pay for the quantity of usage. Also, entities such as hospitals, colleges, and churches do not pay property tax; however, they are significant users of the services and receive substantial benefit. Therefore, sewer fees are an equitable way for all users to share the cost of operation.

The rates and fees provide a utility rate structure that can fully fund the operating and capital components of the utility. The capital improvement program includes all of the projects on the City's consent order from the Iowa Department of Natural Resources. The consent order requires an estimated \$180 million over 20 years. These projects include the investigations of the system, rehabilitation and replacement to reduce inflow and infiltration of storm water, improvements to the water pollution control plant, and compliance to more stringent EPA and Iowa Department of Natural Resources regulations.

As mentioned above, the sewer rate includes funding for projects mandated by the Administrative Consent Order issued by the Iowa Department of Natural Resources to eliminate all bypasses from the treatment facility and complying with more stringent requirement on plant effluent. The consent order specifically identifies projects such as studies on the system, reduction and elimination of the amount of ground, rain and river water entering the sewer system, rehabilitation and replacement the sewer system, optimization of the water pollution control plant operations and construction of an equalization basin.

Based on a comprehensive sewer rate study conducted by the City's financial municipal advisor, PFM, it is recommended to increase the rates by 5% annually for the next three years which is a reduction from prior annual increases of 7% or greater. The recommended 5% increases will allow the City to continue to make ongoing investments in the identified capital areas, while also continuing to build up adequate cash within the fund to address long-term needs, particularly at the Water Pollution Control Plant.

This rate increase will not impact customers who are exempt from sewer fees. The current eligibility guidelines include those customers age 65 and older and people with disabilities who have an income level below \$24,354.00.

The no-fault sewer backup reimbursement policy will also continue to be funded. Residential customers' monthly and quarterly customer charges include an additional \$0.50 to fund of the program. This program has been successful assisting residents to both clean-up after a sewer backup and provide mechanisms to prevent future backups.

Resolution setting a Public Hearing on the proposed conveyance of fourteen (14) Public Housing properties (24 units) to Ecumenical Housing Development Group (EHDG). [Wards 1, 2, 3, 6, 7, & 8]

**Recommendation:**

Adopt the Resolution.

**Background:**

The U.S. Public Housing Program was created in 1937 (even before the creation of the U.S. Department of Housing and Urban Development or HUD) as government-owned and operated housing for those at the lower end of the household income spectrum.

Across the country, most PH properties are owned by the federal government and operated by independent Public Housing Authorities (PHAs). Iowa, however, is one of the few states where a county or municipality can own PH properties and operate a PHA.

As such, and because of needs identified in the late 1960s and 70s, with assistance from HUD, the City constructed a total of 42 "scattered site" Public Housing units on 21 properties sprinkled around the City, accomplishing the goal of deconcentrating assisted housing units. The properties consist of a mix of single-family houses, duplexes, and two six-plex structures.

Since the late 60s, a shift in federal funding began to provide rental assistance via vouchers to leverage private sector investment in owning and maintaining rental housing. In recent years, HUD started exploring best practices and reform in this arena. In particular, they noted that smaller portfolios of Public Housing often find it challenging to break even financially, given the significant reporting requirements and modest administrative fees allowed. In 2019, the regional field office began a discussion with the City regarding these financial sustainability issues.

At the same time, reflecting on the City's strategic operations, there was consensus that owning and operating rental housing is not part of the City's core mission. While not owning or managing, the City would continue to provide voucher assistance as well as rehab and development assistance for housing and other development activities.

Beginning in January 2019, the City began to explore options with HUD. Initially, sale of both the Public Housing units and the Heritage apartment building, which is part of a different HUD Program, to a single operator was explored. However, the nature of these different assets and the respective HUD programs resulted in different buyer pools and operational outcomes (the Heritage property was sold in July 2021).

In 2020, the national market was tested and several community discussions were held that led to issuing a Request for Interest process for local affordable housing nonprofits. In order to preserve the units for affordable housing and continue the neighborhood stabilizing impact of existing and successful local partners, three nonprofits were identified in this process: Ecumenical Housing Development Group (EHDG), Vera French Housing, and Habitat for

Humanity.

In January 2021, the City Council approved the submission of the Disposition Application to HUD which is required in order to convey the properties. A short history of the three nonprofits, as well as overall plan and relocation information was required in the submission. The application has passed through several HUD review phases over the past year. Staff was informed in February 2022 that a recommendation for approval is pending.

While not finalized, the City was made aware that one or more of the nonprofit buyers are pursuing rehab financing options wherein contingent site control is necessary. Ultimately, setting and holding a Public Hearing on the conveyance of City property is required by State law. Starting this contingent approval process now simply reduces the number of steps still remaining should HUD approve the request.

Each buyer offer is treated separately (elsewhere on this agenda) through the Public Hearing and conveyance process. As such, approval of this Resolution will authorize staff to advertise a Public Hearing on the proposed conveyance of fourteen properties (24 units) to EHDG to be held at the March 16, 2022 Committee of the Whole Meeting beginning at 5:30 p.m. in Council Chambers at City Hall, 226 West 4th Street.

The properties consist of a mix of single-family houses, duplexes, and two six-plex structures.

Since the late 60s, a shift in federal funding began to provide rental assistance via vouchers to leverage private sector investment in owning and maintaining rental housing. In recent years, HUD started exploring best practices and reform in this arena. In particular, they noted that smaller portfolios of Public Housing often find it challenging to break even financially, given the significant reporting requirements and modest administrative fees allowed. In 2019, the regional field office began a discussion with the City regarding these financial sustainability issues.

At the same time, reflecting on the City's strategic operations, there was consensus that owning and operating rental housing is not part of the City's core mission. While not owning or managing, the City would continue to provide voucher assistance as well as rehab and development assistance for housing and other development activities.

Beginning in January 2019, the City began to explore options with HUD. Initially, sale of both the Public Housing units and the Heritage apartment building, which is part of a different HUD Program, to a single operator was explored. However, the nature of these different assets and the respective HUD programs resulted in different buyer pools and operational outcomes (the Heritage property was sold in July 2021).

In 2020, the national market was tested and several community discussions were held that led to issuing a Request for Interest process for local affordable housing nonprofits. In order to preserve the units for affordable housing and continue the neighborhood stabilizing impact of existing and successful local partners, three nonprofits were identified in this process: Ecumenical Housing Development Group (EHDG), Vera French Housing, and Habitat for Humanity.

In January 2021, the City Council approved the submission of the Disposition Application to HUD which is required in order to convey the properties. A short history of the three nonprofits, as well as overall plan and relocation information was required in the submission. The application has passed through several HUD review phases over the past year. Staff was informed in February 2022 that a recommendation for approval is pending.

While not finalized, the City was made aware that one or more of the nonprofit buyers are pursuing rehab financing options wherein contingent site control is necessary. Ultimately, setting and holding a Public Hearing on the conveyance of City property is required by State law. Starting this contingent approval process now simply reduces the number of steps still remaining should HUD approve the request.

Each buyer offer is treated separately (elsewhere on this agenda) through the Public Hearing and conveyance process. As such, approval of this Resolution will authorize staff to advertise a Public Hearing on the proposed conveyance of three properties (14 units) to Vera French Housing to be held at the March 16, 2022 Committee of the Whole Meeting beginning at 5:30 p.m. in Council Chambers at City Hall, 226 West 4th Street.

Resolution setting a Public Hearing on the proposed conveyance of four (4) Public Housing properties (4 units) to Habitat for Humanity Quad Cities. [Wards 3 & 8]

**Recommendation:**

Adopt the Resolution.

**Background:**

The U.S. Public Housing Program was created in 1937 (even before the creation of the U.S. Department of Housing and Urban Development or HUD) as government-owned and operated housing for those at the lower end of the household income spectrum.

Across the country, most PH properties are owned by the Federal government and operated by independent Public Housing Authorities (PHAs). Iowa however is one of the few states where a county or municipality can own PH properties and operate a PHA.

As such and because of needs identified in the late 1960s and 70s, with assistance from HUD, the City constructed a total of 42 "scattered site" Public Housing units on 21 properties sprinkled around the City, accomplishing the goal of deconcentrating assisted housing units. The properties consisted of a mix of single-family houses, duplexes, and two six-plex structures.

Since the late 60s, a shift in federal funding began to provide rental assistance via vouchers to leverage private sector investment in owning and maintaining rental housing. In recent years, HUD started exploring best practices and reform in this arena. However, the nature of these different assets and the respective HUD programs resulted in different buyer pools and operational outcomes. (The Heritage property was sold in July 2021.)

Resolution introducing the Proposed Resolution of Necessity covering the 2022 50/50 Cost Share Stream Bank Stabilization Program project at West 62nd Street and North Elmwood Avenue. [Ward 2]

**Recommendation:**

Adopt the Resolution.

**Background:**

Within the City of Davenport, maintenance of streams that flow through private property is considered the responsibility of the property owner. A resident or business owner petitions the City to have their stream banks stabilized through the 50/50 Cost Share Stream Bank Stabilization Program. This program is an assessment program where  $\frac{1}{2}$  of the total cost to reconstruct or stabilize the stream is paid for by the City and the other  $\frac{1}{2}$  is paid for by the abutting property owners based on the area of their lot affected by the project. The resident or business that requests to have their stream bank stabilized would have to obtain the necessary signatures on a petition prepared by the City of 100% of the owner occupied property abutting the designated stream section.

The City has received one petition for a stream located within the City of Davenport as noted below:

the east-west section of an unnamed tributary to Silver Creek starting from west of North Linwood Avenue just to the west of North Thornwood Avenue.

The estimated cost of these improvements is \$96,590 with an operating budgeted amount of \$40,000 as engineering, design, labor, and equipment costs are included in the estimate but paid out of Salary and Equipment funds. This will be an in-house project constructed by City staff.

Resolution setting a Public Hearing on granting an overhead electric easement across City-owned property located at 3400 Brady Street (parcel P1316-03) to MidAmerican Energy. [Ward 7]

**Recommendation:**

Adopt the Resolution.

**Background:**

The purpose of the easement is to allow for the installation and operation of an overhead electric transmission circuit operating at 161 kV nominal voltage and an overhead electric distribution circuit operating at 13 kV nominal voltage. The easement is needed to relocate the lines to accommodate an Iowa DOT bridge replacement project along Brady Street. It is anticipated that a 105' above ground steel pole with a concrete foundation approximately 7' in diameter will need to be installed on the north side of the easement. This portion of the easement overlaps with an area identified as a public utility easement. No other poles in the easement area are anticipated.

Adoption of this Resolution will set a Public Hearing for March 16, 2022 at the Committee of the Whole Meeting which begins at 5:30 p.m. in the Council Chambers at Davenport City Hall, 226 West 4th Street.

**Subject:**

Motion approving the renewal of excess flood insurance for FY 2023 with Trisura Specialty Insurance Company in the amount of \$70,720.20. [All Wards]

**Recommendation:**

Pass the Motion.

**Background:**

The City has established a Risk Management Fund to account for various insurance premiums, claims, and administrative costs for the Risk Management program. One type of insurance included in this fund is for excess flood insurance on three properties: the Freight House, Modern Woodmen Park, and Union Station.

It has been the practice of the City to contract with Arthur J Gallagher & Company to serve as the agent/broker for this insurance policy. The agent/broker is paid by a combination of policy commissions. The role of the agent/broker is to make recommendations for policy enhancements and to negotiate with the various insurance markets on the City's behalf. The goal is to find the most cost-effective coverages to minimize overall risk exposure with stable insurance firms capable of handling the specialized needs of a municipal government. The overall premium increase for our excess flood insurance this year increased from \$63,986.53 to \$70,720.20, or 10.52% compared to last year. The premium increase mirrors the continuing trend over the past few years of increased property damage claims around the world. Therefore, the reinsurance markets are taking a tough stance on property policy renewals, giving no break in premium despite having no claims filed in the past year.

The attached document shows the breakdown of the invoice amount.
