Staff presented the recommendation to the Board.

The request has not met items #1 reasonable return, #2 unique circumstance or #3 essential character. Staff recommends denial of the hardship request.

The petitioner provided an overview of the project and answered the Board's questions.

No one spoke in opposition to or in favor of the request.

ZONING BOARD OF ADJUSTMENT

Meeting Date: March 8, 2018
Applicant: Robert Uhle
Address: 2906 W 47th St

Description

Request HV18-01 of Ryan Uhle at 2906 West 47th Street for a hardship variance to construct a detached accessory structure measuring 24' x 36', which would result in the property exceeding the allowed accessory area for the property by 280 square feet. Property is zoned R-4 Moderate Density Dwelling District. [2nd Ward/Ald. Dickmann]

Section 17.10.030 B. and 17.42.080 A. allows for the total of all accessory buildings not to exceed 100% of the living area of the dwelling. The subject property allows for 864 square feet of accessory buildings and 720 square feet of garage area.

Background

The subject property has an existing 14' x 20' shed/garage which will be converted into an accessory building. A smaller shed (approx. 80 sq. ft.) will be removed.

Accessory Building Areas	Square Ft	Garage Area	Square Ft
Living Area	864	Living Area	864
Existing Accessory (14 x 20)	280	Existing Garage Area	0*
Proposed Accessory Area	240	Proposed Garage Area	624
Proposed Garage Area	624	Total Garage Area	624
Total Accessory Area	1144		
Allowed Accessory Area	864	Allowed Garage Area	720
Area Exceeding Allotment	280	No Variance needed for garage.	

* The existing 14' x 20' garage will be converted to an accessory building with 6' door.

Discussion

The proposed garage/accessory building would place the property 280 square feet over the allowed area for total area of accessory structures, but not over the allowed area for garage space.

Findings

1. The property cannot yield a **reasonable return** with strict compliance to the zoning ordinance:

The property is able to yield a reasonable return in conformance with the Zoning Ordinance without the requested hardship variance. Accessory storage buildings are a convenience to the petitioner and a reasonable use has not been denied.

2. The plight of the owner is due to **unique circumstances** which do not apply to other nearby property:

Unique circumstances are those circumstances that apply to the physical aspects of the property. The petitioner has not indicated any reasons, beyond personal reasons, for requesting additional accessory building area. The petitioner has not demonstrated a unique circumstance as defined by the courts.

3. The variation, if granted, will not alter the **essential character** of the locality:

A proposed garage should not alter the essential character of the area given the large lots in this area. The proposed garage/storage area would not be considered out of character.

4. The variation, if granted, will not impair an adequate supply of **light and air** to adjacent property:

The proposed project would be properly setback from all property lines. The request would not negatively impact the availability of light and air to the surrounding properties.

5. The variation, if granted, will not increase **congestion in public streets**:

The approval of the requested variance would not increase congestion in the public streets.

6. The variation, if granted, will not increase the danger of fire or endanger **public safety**:

If constructed to building code requirements, the proposed project will not negatively impact public safety.

7. The variation, if granted, will not impair established **property values** of the locality:

The approval of the requested variance should not decrease property values.

8. The variation, if granted, will not impair **public welfare**, comfort, or health of the inhabitants of the City:

The requested variance is a convenience to the petitioner and does not appear to comply with the intent and spirit of the comprehensive plan of the City of Davenport.

Public Input

Notices were sent to property owners within 200 feet of the subject property. No comments have been received at time this staff report was written.

Recommendation

Items #1 reasonable return, and #2 unique circumstances, have been not been met for the granting of a hardship variance. Staff cannot recommend approval of the request.

- The following items should be submitted to planning@davenport.ia.us for review:
- The completed application form.
- A PDF that shows the location and dimensions of existing and proposed structures affected by the hardship variance. If a paper copy is provided, the maximum size is 11" x 17".
- Description and evidence that demonstrates consistency with the criteria listed in Sections 17.52.060 and 17.52.070 of the Davenport Municipal Code.
- Recorded warranty deed or accepted contract for purchase.
- Authorization form, if applicable. If the property is owned by a business entity, please provide Articles of Incorporation.

The Applicant hereby acknowledges and agrees to the following procedure and requirements:**(1) Application:**

- Prior to submission of the application for the hardship variance, the applicant shall correspond with Planning staff to discuss the request, potential alternatives and the hardship variance process.

Planning staff will review the application for completeness and notify the applicant that the application has been accepted or additional information is required. - The Zoning Board of Adjustment will hold a public hearing and vote on the request.

Description and evidence that demonstrates consistency with the following criteria listed in Section 17.52.070 of the Davenport Municipal Code:

The property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations in the zone.

The additional space I am requesting will be invaluable to my family for storing our lawn equipment and childrens toys as well as our vehicles. I have a large yard that requires extra maintenance equipment, which is currently stored outdoors, in all weather conditions. This has created an unsightly and congested yard and has shortened the life of the equipment.

Description and evidence that demonstrates consistency with the following criteria listed in Section 17.52.070 of the Davenport Municipal Code:

The plight of the owner is due to unique circumstances, which circumstances do not apply to other adjoining or nearby property.

Neighboring properties have garages well outside of the maximum allowed square footage.

Description and evidence that demonstrates consistency with the following criteria listed in Section 17.52.070 of the Davenport Municipal Code:

The variation, if granted, will not alter the essential character of the locality.

This garage I am requesting will be a standard width garage only adding twelve feet to the depth which will not be noticeable from the street or look out of place to the neighboring properties.
