STAFF REPORT

ZONING BOARD OF ADJUSTMENT

Meeting Date: May 24, 2018
Applicant: Marc Kots
Address: 5055 Garner Court

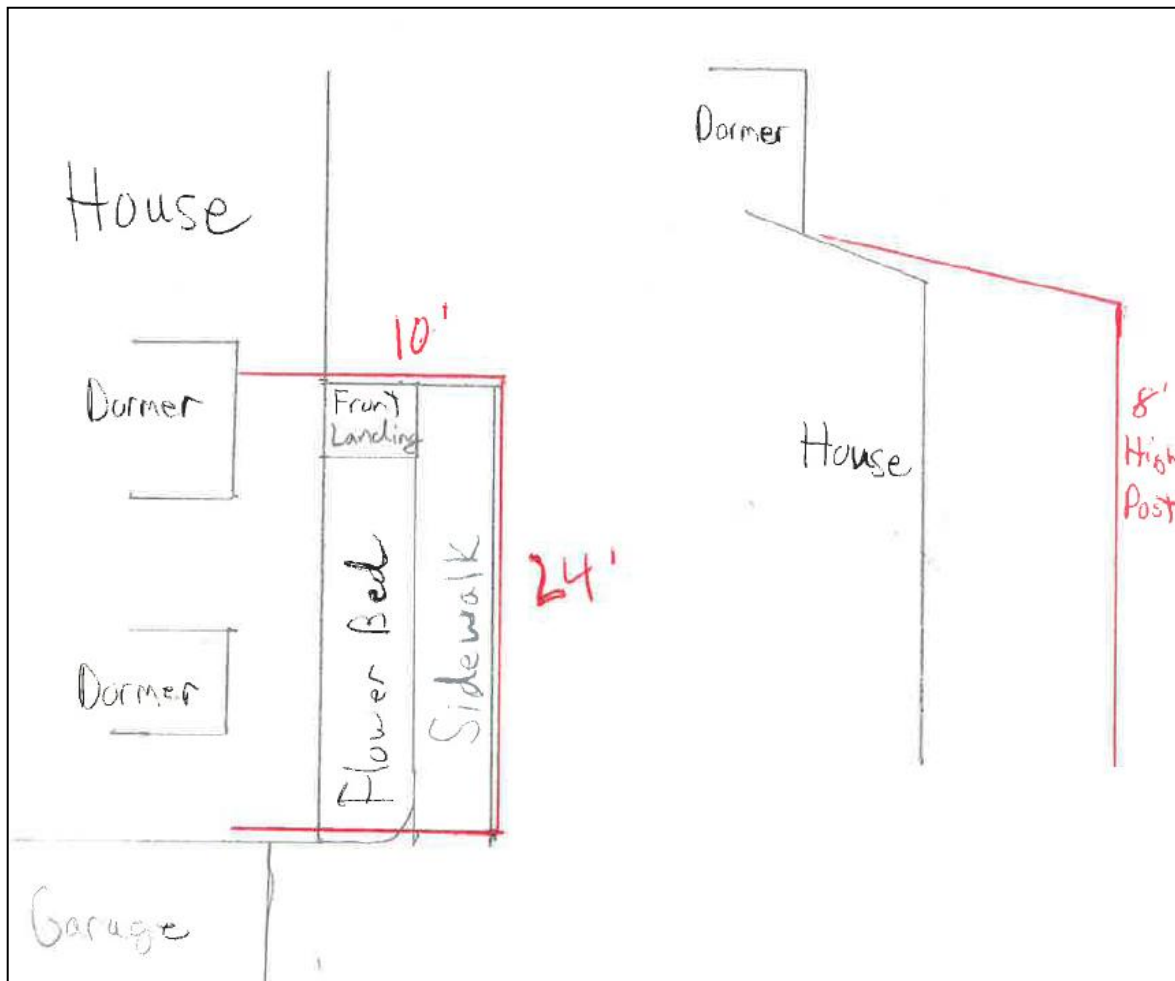

Description:

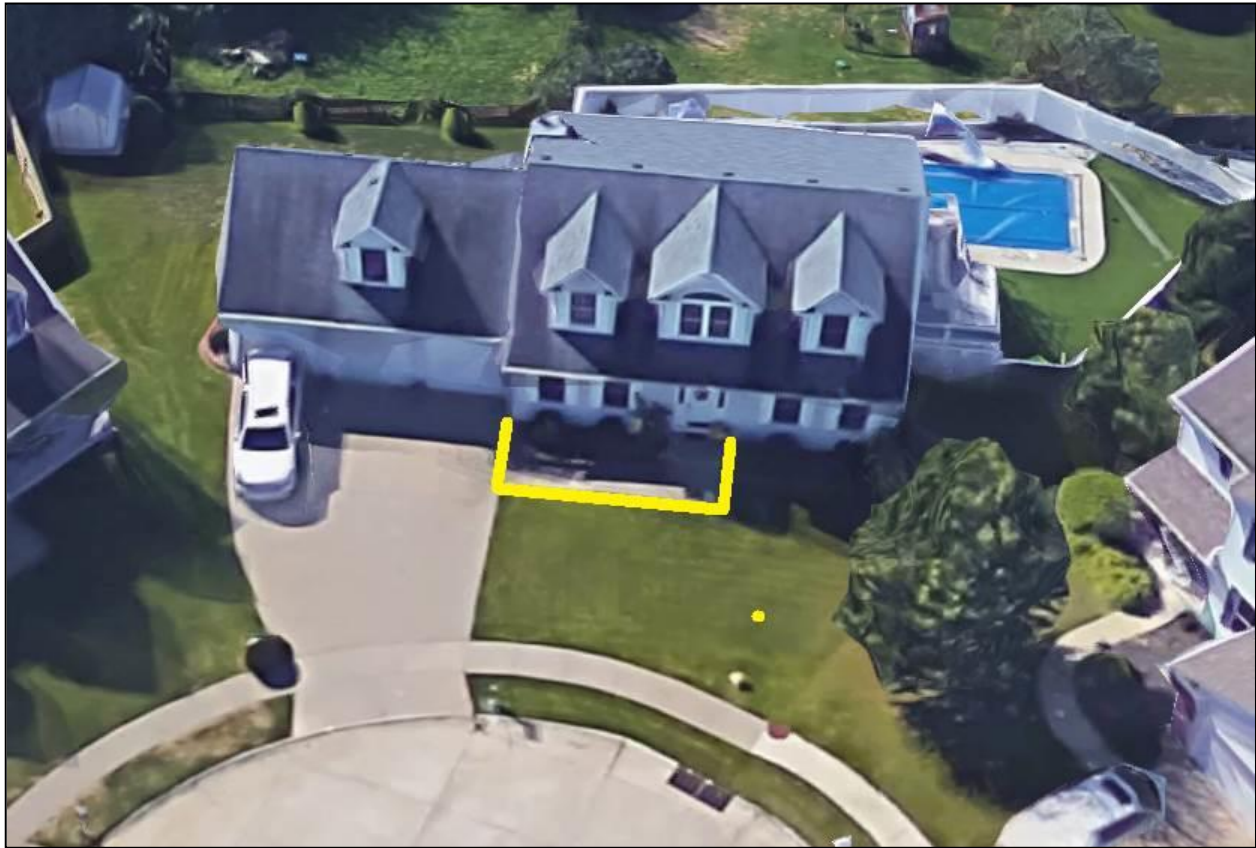

Request HV18-02 of Marc Kots at 5055 Garner Court for a Hardship Variance to allow a covered porch along the front elevation of the house to encroach approximately 7 feet into the required front yard and be located approximately 18 feet from the front (north) property line. The property is zoned "R-4PUD" Moderate Density Dwelling District.

Section 17.42.040 of the Davenport Municipal Code requires a 25-foot front yard setback for this property. [8th Ward/Ald. Tompkins]

Background

The petitioner wishes to construct a 10' deep x 24' wide covered porch attached to the front of the residence adjacent to the garage.

Analysis (code requirement/staff comments)1. The property cannot yield a reasonable return if used under conditions allowed by the regulations:

The property currently does not have a covered porch. The addition of a covered porch to this dwelling would be a convenience to the petitioner and not a necessity, that should it be denied, would result denial of a reasonable use of the property. No evidence of a hardship has been presented.

2. The plight of the owner is due to unique circumstances which do not apply to adjoining property:

No unique circumstance has been provided with the application. Other homes in the area, while having a porch, met required setbacks.

3. The variation, if granted, will not alter the essential character of the locality:

It does not appear that other homes in the neighborhood have similar encroachments such as proposed with this request. The granting of the variance would likely alter the essential character of the locality.

4. The variation will not impair an adequate supply of light & air to adjacent property:

The granting of the variance should not affect the availability of light and air to the surrounding properties.

5. The variation will not unduly increase congestion in public streets:

The granting of the variance should not increase congestion in the public streets.

6. The variation will not increase the danger of fire or endanger the public safety:

The granting of the variance should not affect public safety if the structure is built to building code requirements.

7. The variation will not unreasonably impair established property values within the surrounding area:

The granting of the variance should not negatively impact property values.

8. The variation will not impair public health, safety, comfort, morals or welfare of the inhabitants of the City:

The granting of the variance should not impair the public health, safety, comfort, morals or welfare of the inhabitants of the City.

Public Input

Notices were sent to adjacent property owners within 200 feet of the subject property. At the date this report was written, staff had not received any calls or letters regarding the request.

Staff Recommendation:

Items **#1 Reasonable Return**, **#2 Unique Circumstance**, and **#3 Essential Character** have not been met for a hardship variance determination. Staff cannot recommend approval of the request.

Hardship variance questions:

1. When this house was built it was one of two houses that was built without a Front porch in the Garner farms subdivision. A front porch would add value to The property and match the existing houses.
2. Every house in our court has a front porch except ours. It makes it very different From the other properties.
3. If the front porch and roof were added it would not hinder any character to the adjacent properties because we are the end house of the court and our neighbors do not line up next to us.
4. Our house faces north and air flow normal comes from the west or straight down the court. Since we face north the sun comes up and follows our house from east to west and only cast a shadow on our front lawn. The shadow in the summer is very limited due to the height of the sun and in the winter months it only covers a small portion of our front lawn.
5. Obviously being at the end of the court it will have no issues with congestion.
6. We should also be good for public safety and fire.
7. If anything, it should increase value to everyone in the court.
8. Since we live in a court, the amount of traffic we get from vehicles and pedestrians is very limited compared to the main roads so I don't think people will even notice.
